SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at each statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have a definite opinion that the description is not at all suited to the individual.

Dear Mr. Camp:

I am today in receipt of your letter of 1 December 1954 concerning Mr. Clapp's visit and Mr. McBride.

I was not in New Orleans at the time when Mr. Clapp was here and accordingly did not have the pleasure of seeing him.

I am sorry that Mr. Clapp did not succeed in making contact with Mr. McBride. If I happen to learn of a more recent address of Mr. McBride, I shall pass the information on to you.

MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: Commendation of DD/I Personnel

1. For the past several months my office has had an urgent and a continuing need for intelligence about Guatemala -- for intelligence in such variety that at one time or another almost every DD/I component contributed.

2. Each of them -- offices as well as individuals within the DD/I area -- responded with a highly impressive alacrity and completeness. Their contributions were thorough in their coverage and fast in their preparation.

3. It is difficult to cite the work of particular individuals and components of DD/I, because much inconspicuous but essential labor must never have come to my attention. Risking the chance that such work might unfairly go unrecognized, I nevertheless believe that the work of the following individuals and units deserves special recognition:

John M. Armstrong, Milton R. Brown, Archie C. Bush and David L. Campa, OCI.

Miss Dorothy A. Brandao, William P. Burke, Hunter C. Leake and Lloyd A. Ray, New Orleans field office, OO/C.

William Buchanan, Kansas City field office, OO/C.

Miss Betty Didcoct and David F. Haley, Geography Division, ORR.

Norman E. Greenawalt, Charles D. Stockton, Milton S. Venezky and Robert J. Voskuil, Cartography Division, ORR.

Zygmund Lenchert, Richard V. Shamp and John E. Wilson, Photo Intelligence Division, ORR.

Harry A. McCrea and David R. McLean, OO/C.

Lawrence Snitzer, New York field office, OO/C.

SECRET

Office of Research and Reports which put its major resources at our disposal. ORR's geographic research area freely gave us the time of trained cartographers and interpreters. Without their skills, and the endless hours they applied those skills for us, our operations would have been most difficult. ORR's economic research area contributed less only because we asked for less; economic intelligence was not as vital as geographic intelligence to this operation. In addition, the major economic contribution was recognized and commended in my 7 June 1954 memorandum to you.

Foreign Broadcast Information Division which monitored Guatemalan and related broadcasts with more than its usual care, and, among other special activities, arranged a direct wire service so that our field headquarters unit received the monitored broadcasts immediately. The entire division turned to its task with such unity that singling out for commendation the work of any of its people is impossible.

Foreign Documents Division which gave us translations quickly and in the priority needed. Its service was the more remarkable for its lack of a Western Hemisphere unit. Initiative, flexibility, and willingness were substituted for this organizational lack.

Contact Division which provided a wide variety of services we requested, and on its own initiative proposed other useful services. It re-doubled collection of Central American intelligence information by its net-work of domestic field stations, it carefully watched the southern ports of entry into the United States on a 24-hour day basis, it provided us with commercial news clipping services and the texts of news broadcasts, and it located, surveilled and in many cases interviewed Guatemalans within the United States in whom we were interested.

CIA Library, especially its Book Branch. All components, however contributed. Its clipping service was reliable, alert, and keen to render maximum service. The Information Section promptly handled numerous spot requests and gave resourceful assistance well beyond the confines of its routine duties. The Book Branch surveyed periodical and scholarly literature meticulously, and thus uncovered much information useful to a psychological campaign.

Graphics Register whose Photo Branch and Film Branch both gave services much beyond the normal course of duty, and showed ingenuity in locating and preparing special materials.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Executive for Administration and Management DATE: SEP 15 1948

FROM : Assistant Director for Operations 3

SUBJECT: Recommendation for Promotion of Mr. William Patrick Burko, Jr.

1. It is requested that the attached recommendation for promotion of Mr. William P. Burke, Jr. from P-7 to P-8 be approved even though Mr. Burke has not served the required time in-grade as established in Paragraph 4c of Administrative Instruction No. 20-1. This recommendation is based upon the fact he has served in his present capacity as Acting Chief, New Orleans Office, OO/C, for approximately one year and his performance of duty has been outstanding.

2. Mr. Burke entered on duty as Acting Chief, New Orleans Office, OO/C, on 9 September 1947 in which capacity he is still serving. The position of Chief, New Orleans Office, has been allocated as a P-8.

3. Subsequent to assuming his duties as Acting Chief of the New Orleans Office, Mr. Burke displayed great initiative and unusual ability in planning his organization and without any loss of time, placed it on a highly productive basis. Mr. Burke has not overlooked any possible sources of intelligence within his area, and is submitting extremely valuable reports, particularly those that pertain to Latin America. In addition, Mr. Burke's office has produced comprehensive reports on the intelligence potentialities of Houston, Texas and Tulsa, Oklahoma, convincing this office that field offices in both localities will be justified.

4. Mr. Burke's accomplishments as Acting Chief, New Orleans Office have been outstanding. Due to his unusual leadership the morale of his office personnel has been maintained at a high level, despite heavy working conditions.

5. Mr. Burke received an A.B. degree from Loyola University, New Orleans, in 1919 and LLB degrees from Harvard Law School and Tulane University in 1923 and 1925 respectively. In addition, he spent one year of study at Cambridge University, England. Upon graduation from law school, he became affiliated with various prominent law firms in New Orleans, and in 1937 established his own firm which he operated on a successful level until his entry into the military service during World War II.

6. Mr. Burke has an outstanding military record, having served approximately three years in the U. S. Marine Corps during World War II, and being honorably released from duty with the rank

CONFIDENTIAL

of Major. During his tour of duty with the U. S. Marine Corps, he served in the capacity of liaison officer with Selective Service and later, as legal officer with the Fourth Marine Division in the Pacific.

7. By reason of his civilian and military experience and wide acquaintanceship in New Orleans, Mr. Burke is exceptionally well qualified for his present assignment and is performing his duties in an outstanding manner. In view of his superior accomplishments and contributions to the successful operation of the Contact Branch, it is strongly recommended that Mr. Burke's promotion to the grade of P-8 be approved.

Dear Bill:

Prior to leaving CIA, I want to record my sincere appreciation of the fine job done by you in New Orleans.

Your achievement is all the more noteworthy when it is remembered that you started in your city singlehanded and with little guidance or precedence. Within the space of less than a year, you have created an effective field office which is now making a significant contribution to national intelligence.

Inspections reveal that your relations with the local Armed Forces representatives as well as with your clients are excellent. Noted also is the high morale in your office.

Please accept my congratulations for this splendid record and accept my gratitude for your loyal support.

With best wishes for your continued success,

Very sincerely,

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable civil-service rules, the War Service Regulations, and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, purchase of office, suitability in connection with any record of recent discharge or arrest, promise to observe provisions regarding political activity, and particularly for the following:

(1) **Identity** of appointee with the applicant whose appointment was authorized. The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. The physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) **Age.**—If discrepancy exists between the date of birth and that on application and if definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment.

(3) **Citizenship.**—The responsibility for obser[illegible] provisions of appropriation acts prohibiting or restricting the employment of [illegible] lies with the appointing officer. The Civil Service Commission indicates on applications showing foreign birth that citizenship has been verified. The appointing officer should verify citizenship if the list of eligibles or the letter of authority from the Commission makes the appointment subject to proof of citizenship, or if the application shows foreign birth but does not indicate on its face that citizenship has been proved. If the answer to question 4 of this form shows foreign birth and the application shows birth in the United States, the case should be referred to the Civil Service Commission.

(4) **Members of Family.**—Section 9 of the Civil Service Act provides that whenever there are already two or more members of the family in the classified service, no other member of such family is eligible for appointment in that service. Minors do not establish a different family merely by living at an address different from that of the parents. Doubtful cases involving more than two members of a family, including all pertinent evidence, should be referred to the Civil Service Commission or its duly authorized representatives for decision. Under War Service Regulations, the members of family provision does not apply to temporary appointments for one year or less.

MEMORANDUM: Executive for Inspections and Security

SUBJECT: William Patrick Burke, Jr.

In compliance with CIG Directive 15 and with authority from the Projects Review Committee, this branch will open an Inter Agency Office in New Orleans, Louisiana as soon as the necessary personnel may be processed for employment. This Southeastern area of the United States represents a fertile field for the operations of the Contact Branch and it is deemed advisable to open a New Orleans office at the earliest possible date.

Mr. William Patrick Burke, a native of New Orleans, a graduate of Harvard and Tulane University Law Schools and a former Major in the U. S. Marine Corps is under consideration for employment as the Acting Regional Manager for this office. In order that his employment may be effected in the shortest possible time, it is respectfully requested that a priority security investigation be granted on this individual. It is realized that the total number of allowable priority investigations is very limited, but in the instant case, the circumstances are such that the compliance with this request will measurably aid in the accomplishment of the mission of this branch.

MEMORANDUM FOR: Secretary, CS/CSB

SUBJECT : Recommendation for Promotion to Grade GS-15 -
[redacted] CASASIN - ①

REFERENCE : Your memorandum dated 8 October 1958

1. The SR Division and the Chief of Station, Tokyo (FJTT-1950, attached) recommend the promotion of [redacted] to GS-15. ① ①

2. Mr. [redacted] was last promoted 16 January 1955. On 17 February 1955 he arrived in Tokyo to serve as the senior SR officer in the FE field area, his present assignment. In this position he has continued to display qualities of leadership, initiative, imagination and thoroughness which resulted in his rapid rise in the Agency.

①

3. The very facts of Mr. [redacted]'s youth in relation to his responsibilities and the fact that promotion to his present level has been rapid, caused the Division and the Chief of Station, Tokyo to hold until this time a recommendation for his promotion which was submitted in June 1957. Most careful consideration has convinced us that not only is Mr. [redacted] deserving of the recommended promotion, but his elevation to the higher grade will be in the best interest of the Career Service and meet definite Division requirements for a senior officer at the GS-15 level.

1. In line ⑦ with paragraph 2 of Reference, after a period of six months we submitted an additional promotion fitness report on [redacted] under cover of FJTT-0601 dated 28 May 1958. Inasmuch as [redacted] was then at Headquarters on TDY, we requested that he review this fitness report and assumed ⑦ that in doing so he would also discuss with [redacted]'s promotion, which both he and [redacted] ④ felt was to be strongly recommended.

2. ③ [redacted] was, however, not shown this fitness report at Headquarters, nor did he have the opportunity to discuss ⑦ [redacted]'s promotion with [redacted]. In reviewing our records we are now concerned at the possibility of some administrative slip-up and would appreciate a word of advice as to how this promotion action is proceeding. We would like to reiterate that we now have not the slightest hesitation in recommending ⑦ [redacted] for promotion and find that the fitness report submitted with FJTT-0601 still reflects our current high appreciation of his abilities and progress.

SUBJECT: [redacted] - Recommendation for Promotion
[redacted] CASASIA

1. [redacted] has been under my supervision as Deputy and Case Officer for approximately fifteen months. Based on the knowledge of [redacted] as an individual gained during this period and upon his actual performance, I recommend that he be entered for consideration on the SR Division GS-14 to GS-15 promotion list at this time - June 1957. The slot and job which he now occupies, Chief, Soviet Branch, is, of course, adequate to accommodate such a promotion.

2. [redacted] operational performance has been outstanding and notably versatile during this period. He has engaged primarily in liaison and has been personally effective in terms of results achieved almost daily, in terms of reports, operational data, and joint enterprise; while, overall, he has established enduring professional relationships from which the organization as a whole should benefit for some time to come. In addition, owing in large part to unique personal talents, linguistic and otherwise, [redacted] has handled a number of unilateral cases most effectively. In the office, too, as well as in face-to-face operational situations, [redacted] has been outstanding. He has a flair for and a facility with the written word as evidenced by the amount of general and particular correspondence which he has initiated, and he knows the organizational "drill" intimately and from way back. Thus, I feel that he is qualified for the recommended promotion by ability and experience in both the internal and external aspects of the profession.

3. Relative to the more personal characteristics involved in the term managerial ability, judgments are necessarily more subjective but here, too, I consider [redacted] to be qualified in maturity, in judgment, and in experience. He would most certainly be a supervisor who could perform all the chores or handle all the situations which he would be calling upon subordinates to take care of, in itself, the beginning of any good supervisory relationship. In actual fact, he has had considerable experience in this regard already and the principal shortcoming I have noticed is a tendency to "carry" others by an extension of his own industry. [redacted] is not without his difficulties in the area of personal relationships. He is a purist at times and manifestly impatient in certain human situations where a shrug of the shoulders would be the

st reply. These characteristics do not always make for the best personal relations but are frequently obviated by intellect and above all are correctable and are being corrected.

4. In sum, [redacted]'s qualifications, broad experience and proven abilities dominate his age, the only factor militating against a promotion at this time. It is therefore my sincere recommendation that a promotion recommendation be forwarded to Headquarters for consideration in the current mid-year lists.

REFERENCE : Your memorandum dated 8 October 1958

REFERENCE: [illegible]-11531 ([illegible]) dated [illegible]

1. The SR Division and the Chief of Station, Tokyo ([illegible], attached) recommend the promotion of [redacted] to GS-15. ① ①

2. Mr. [redacted] was last promoted 16 January 1955. On 19 February 1955 he arrived in Tokyo to serve as the senior SR officer in the FE field area, his present assignment. In this position he has continued to display qualities of leadership, initiative, imagination and thoroughness which resulted in his rapid rise in the Agency. ①

3. The very facts of Mr. [redacted]'s youth in relation to his responsibilities and the fact that promotion to his present level has been rapid, caused the Division and the Chief of Station, Tokyo to hold until this time a recommendation for his promotion which was submitted in June 1957. That careful consideration has convinced us that not only is Mr. [redacted] deserving of the recommended promotion, but his elevation to the higher grade will be in the best interest of the Career Service and meet definite Division requirements for a senior officer at the GS-15 level. ①

1. After reviewing GS-14 employees assigned to the SR Division, I wish to again recommend the promotion of CASASIN [redacted] Chief, Soviet Branch, Tokyo to GS-15. I concur also in the attached recommendation for the promotion of [redacted] prepared by the Chief of Base, Berlin. CIA officer

2. The Chief of Station, Tokyo and I recommended CASASIN'S [redacted]'s promotion in December 1953. This earlier recommendation presented the personal qualities of Mr. [redacted]. This section is provided as an ai[illegible] describing the individual. Your desc[illegible]on is not favorable or unfavorable in itself but acquires its meanin[illegible] relation to a particular job or assign[illegible]t. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

SECTION C. JOB PERFORMANCE EVALUATION

1. RATING ON GENERAL PERFORMANCE OF DUTIES

DIRECTIONS: Consider ONLY the productivity and effectiveness with which the individual being rated has performed his duties during the rating period. Compare him ONLY with others doing similar work at a similar level of responsibility. Factors other than productivity will be taken into account later in Section D.

5/6

INSERT RATING NUMBER

1 - DOES NOT PERFORM DUTIES ADEQUATELY; HE IS INCOMPETENT.
2 - BARELY ADEQUATE IN PERFORMANCE; ALTHOUGH HE HAS HAD SPECIFIC GUIDANCE OR TRAINING, HE OFTEN FAILS TO CARRY OUT RESPONSIBILITIES.
3 - PERFORMS MOST OF HIS DUTIES ACCEPTABLY; OCCASIONALLY REVEALS SOME AREA OF WEAKNESS.
4 - PERFORMS DUTIES IN A COMPETENT, EFFECTIVE MANNER.
5 - A FINE PERFORMANCE; CARRIES OUT MANY OF HIS RESPONSIBILITIES EXCEPTIONALLY WELL.
6 - PERFORMS HIS DUTIES IN SUCH AN OUTSTANDING MANNER THAT HE IS EQUALLED BY FEW OTHER PERSONS KNOWN TO THE SUPERVISOR.

COMMENTS:

FORM NO. 1 NOV 55 45 (Part I) REPLACES PREVIOUS EDITIONS OF FORMS 45 AND 45a WHICH [illegible] SECRET Performance (4)

2. RATINGS ON PERFORMANCE OF SPECIFIC DUTIES

DIRECTIONS:

a. State in the spaces below up to six of the more important SPECIFIC duties performed during this rating period. Place the most important first. Do not include minor or unimportant duties.

b. Rate performance on each specific duty considering ONLY effectiveness in performance of this specific duty.

c. For supervisors, ability to supervise will always be rated as a specific duty (*do not rate as supervisors those who supervise a secretary only*).

d. Compare in your mind, when possible, the individual being rated with others performing the same duty at a similar level of responsibility.

e. Two individuals with the same job title may be performing different duties. If so, rate them on different duties.

f. Be specific. Examples of the kind of duties that might be rated are:

ORAL BRIEFING
GIVING LECTURES
CONDUCTING SEMINARS
WRITING TECHNICAL REPORTS
CONDUCTING EXTERNAL LIAISON

3. NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job.

Subject is an exceedingly well-equipped operations officer. He is mature, intelligent, has a thorough background in operations in his area and the ability to grow in his job. His operational planning and execution is usually impeccable. He has the loyalty of his subordinates and the respect of his equals and supervisors. He is particularly effective in dealing in the liaison field where his good sense and disinterest in "fighting the problem" produces a maximum of cooperation and good will. If he has any minor fault as a supervisor, it is not in impatience with his subordinates, as reflected in previous evaluations, but in an occasional unwillingness to say no to them.

SECTION D. SUITABILITY FOR CURRENT JOB IN ORGANIZATION

DIRECTIONS: Take into account here everything you know about the individual....*productivity, conduct in the job, pertinent personal characteristics or habits, special defects or talents*....and how he fits in with your team. Compare him with others doing similar work of about the same level.

7 - EXCELLED BY ONLY A FEW IN SUITABILITY FOR WORK IN THE ORGANIZATION

In most respects, this officer is one of the best I have known in this agency. He has a broad and deep knowledge of his target area, as well as of his "host" country; an excellent and proven degree of operational "know-how"; the ability to write and speak lucidly and effectively and with apparent ease; and a very high degree of motivation and devotion to duty. He can be expected to continue his dynamic and imaginative pursuit of a most difficult target. It is my opinion that this officer has great potential and is ready for increased responsibilities which would involve the promotion for which he has been recommended. As for training, a good managerial course might help to bring into even sharper focus his many talents.

This report has been prepared in accordance with F E Division standards which recognize the principle of rating the individual against the group. Thus an 'average' rating reflects an entirely satisfactory performance.

NEW YORK TIMES

W. Harvey, C.I.A. Aide, Dead; Linked to Anti-Castro Plotting

William K. Harvey, reportedly the head of a special Central Intelligence Agency group set up in the 1960's to plan the removal of foreign leaders by means including assasination, died of a heart attack last Wednesday in an Indianapolis hospital.

Mr. Harvey, who was 60 years old, was said to have been in charge of the agency's efforts against Prime Minister Fidel Castro of Cuba. He was among 10 agents whose identities were disclosed by the Senate Select Committee on Intelligence after an investigation in 1975 of alleged assassination plots by the United States.

William E. Colby, then Director of Central Intelligence, had argued that disclosure of the names of agents would put them in jeopardy of retaliation by "irrational groups."

Mr. Harvey testified before the Senate committee that he had been told by superiors that the Castor assasination plot had been aproved at the highest levels of the government, and that he had discussed the efforts with his immediate superior, Richard Helms, who later became director of the agency.

Mr. Harvey moved to Indianapolis in 1969 after retiring from the agency, where he had worked for 22 years. He worked for the Federal Bureau of Investigation from 1940 to 1947.

At the time of his death, Mr. Harvey was law editor for Bobbs-Merrill Publishing Company.

He was buried Saturday at South Cemetery in Danville, just west of Indianapolis. He is survived by his wife, Clara Grace, a daughter, Sally, and a son, James D. Harvey.

WOLLOGAGS - - Notification of Designation as a Participant in the Organization Retirement and Disability System

Action: As indicated
REF: Book Dispatch 5096 & OIRS - 7586

1. You have been found to be qualified as a participant in the Organization Retirement and Disability System and have been so designated effective 21 November 1965.

2. Although such designation under present statutes is viewed favorably by most persons, the regulation governing this retirement system gives the individual the right to appeal such a determination if he deems the designation adverse to his best interests. In order that this technical requirement may be satisfied, you are hereby notified of your right to appeal. An appeal with reasons therefore must be received in Headquarters within 60 days of the date of this dispatch or acceptance of designation will be assumed. Any questions that you may have in connection with your designation that cannot be answered by referring to Book Dispatch 5096 should be forwarded to Headquarters.

3. We believe that the benefits of the Organization Retirement System are superior to the benefits of the Civil Service Retirement System. However, there are a few situations in which an employee at the time of retirement may have so many years of service (almost 37) that he would receive a higher annuity under the Civil Service system. Because of this, the policy decision has been made that a participant in the Organization system who would receive a higher annuity under the Civil Service system may, not later than one year prior to his retirement, apply to be removed from our system and transferred to the Civil Service system. Thus, you should not anticipate this contingency as a factor in deciding whether you regard your designation as a participant adverse to your best interests.

State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Harvey has continued to manage the Agency's activities in Italy with the same enthusiasm and drive which characterized the description of his approach to the Station Chief role in his past Fitness Report.

In his efforts to reorient the Rome Station's FI program toward Soviet-Satellite targets Mr. Harvey has devoted considerable energy to acquiring the basic information needed for this task. This has been well reported and the responsibilities for carrying out this shift in operational approach have been precisely delegated. It is still early to assess the results operationally but the reorientation has been well organized. As an early indication of the trend this is taking, several successful technical operations have been established which are well on target.

To accomplish the objectives of the CA responsibilities of the Rome Station Mr. Harvey has acquired the most competent officers with this highly specialized skill and has staunchly supported their efforts to prosecute this program which remains extensive. He has considerably improved the Station relationship with Embassy officers, including the Ambassador, by devoting greater effort to this necessary phase of the Station Chief's role and the Ambassador, during a recent trip to Washington, made special mention of the degree of confidence he had in the Station's reporting and in the extent to which it has kept him properly informed.

During the period under review Mr. Harvey acquired a Deputy Station Chief - for whose arrival he had waited more than 6 months. He has delegated general management of the Station's activities to this officer, who has applied himself diligently to this task and the results have been promising. Mr. Harvey has been receptive to headquarters guidance, is extremely prompt and thorough in replying to his correspondence.

William K. Harvey

Fitness Report for Period 1 April 1964 - 31 March 1965

Section C (cont'd)

Some administrative details, such as the reports on the performance of officers whose evaluation he was reluctant to make, Mr. Harvey has had a tendency to postpone despite repeated efforts to provoke him into timely response.

I have rated Mr. Harvey's overall performance outstanding in recognition of his superior supervisory ability, his unusual skill in expressing his views and his determination to accomplish his basic objectives regardless of the obstacles which he encounters. The Rome Station is complex, is engaged in some highly sensitive operations which must be guided with a strong hand and by an officer with a degree of professionalism which Mr. Harvey is well able to supply as a result of his extensive operational experience.

COMMENTS OF REVIEWING OFFICIAL

I concur in the evaluations given Mr. Harvey on duties No. 2, 3 and 4. I believe duty No. 2 could have been rated "outstanding" rather than "strong," with justification. I also think, however, that duty No. 1, involving the overall administration and management of the Station and its personnel, should more appropriately be rated "proficient," or perhaps "strong."

COMMENTS OF REVIEWING OFFICIAL

I concur in the evaluations given Mr. Harvey on duties No. 2, 3 and 4. I believe duty No. 2 could have been rated "outstanding" rather than "strong," with justification. I also think, however, that duty No. 1, involving the overall administration and management of the Station and its personnel, should more appropriately be rated "proficient," or perhaps "strong."

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Mr. Harvey has continued to manage the Agency's activities in ~~Italy~~ with the same enthusiasm and drive which characterized the description of his approach to the Station Chief role in his past Fitness Report.

In his efforts to reorient the Rome Station's FI program toward Soviet-Satellite targets Mr. Harvey has devoted considerable energy to acquiring the basic information needed for this task. This has been well reported and the responsibilities for carrying out this shift in operational approach have been precisely delegated. It is still early to assess the results operationally but the reorientation has been well organized. As an early indication of the trend this is taking, several successful technical operations have been established which are well on target.

To accomplish the objectives of the CA responsibilities of the Rome Station Mr. Harvey has acquired the most competent officers with this highly specialized skill and has staunchly supported their efforts to prosecute this program which remains extensive. He has considerably improved the Station relationship with Embassy officers, including the Ambassador, by devoting greater effort to this necessary phase of the Station Chief's role and the Ambassador, during a recent trip to Washington, made special mention of the degree of confidence he had in the Station's reporting and in the extent to which it has kept him properly informed.

During the period under review Mr. Harvey acquired a Deputy Station Chief - for whose arrival he had waited more than 6 months. He has delegated general management of the Station's activities to this officer, who has applied himself diligently to this task and the results have been promising. Mr. Harvey has been receptive to headquarters guidance, is extremely prompt and thorough in replying to his correspondence.

William K. Harvey

Fitness Report for Period 1 April 1964 - 31 March 1965

Section C (cont'd)

Some administrative details, such as the reports on the performance of officers whose evaluation he was reluctant to make, Mr. Harvey has had a tendency to postpone despite repeated efforts to provoke him into timely response.

I have rated Mr. Harvey's overall performance outstanding in recognition of his superior supervisory ability, his unusual skill in expressing his views and his determination to accomplish his basic objectives regardless of the obstacles which he encounters. The Rome Station is complex, is engaged in some highly sensitive operations which must be guided with a strong hand and by an officer with a degree of professionalism which Mr. Harvey is well able to supply as a result of his extensive operational experience.

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Harvey's management of the Agency's program in Italy has to date been characterized by the forcefulness and drive which have gained for him in previous assignments a reputation for dynamism. He has undertaken to reorient the Rome Station's FI program toward Soviet-satellite targets and any delay in this reorientation has been due fully to our inability for administrative reasons to supply the personnel he desires on the time schedule which he would prefer.

Although not by inclination oriented toward the objectives of CA, he has preserved and guided the most complex CA program in Western Europe with understanding and skill. To accomplish this it has been necessary for Mr. Harvey to learn the intricasies of an extremely complex local political situation. This he has set about to do with confidence. His accumulated experience in earlier assignments has equipped Mr. Harvey with a self-assurance and confidence which I have rarely seen equalled in any other officer. The continuance of ideal relationships with the key Embassy officials in Rome has been somewhat handicapped by the sudden death of the principal officer in the Embassy who was knowledgeable of our program and the impossibility of bringing into knowledge of our activity the next lower level echelon of Embassy officials for reasons beyond Mr. Harvey's control. This handicap has been overcome over the past year and Mr. Harvey is currently supervising extremely sensitive political operations and contacts to the satisfaction of the Ambassador and his headquarters.

He delegates responsibilities skillfully to those officers under his command who are best qualified and by his own outstanding performance, which is always at its best under heavy stress, he earns an intense loyalty from these personnel. He demonstrates cost-consciousness and outstanding supervisory ability.

MEMORANDUM FOR: Director of Personnel

SUBJECT: Fitness Report - Mr. William K. Harvey

1. This Fitness Report covers the period from 1 April 1962 to 15 January 1963 during which Mr. Harvey was Chief, Task Force W.

2. As a senior officer in the Clandestine Services, Mr. Harvey has behind him a long record of professional accomplishment achieved during tours in Washington as well as seven years in Berlin. He is thoroughly grounded in the tradecraft of clandestine activities, and has brought to each and every assignment an intelligent, thorough, and uncommonly conscientious approach. His qualities of leadership are attested to by the loyalty and devotion of those colleagues who have worked under his direction. If anything, there has tended to grow up within the Clandestine Services a coterie of officers who have come to regard themselves as "Harvey men", a development which Mr. Harvey himself has not encouraged but which demonstrates the strong emphasis on first-class tradecraft which he has insisted upon in each assignment.

3. As Chief, Task Force W, Mr. Harvey had the task of organizing and developing a large operational team devoted to the acquisition of intelligence and the handling of special operations directed at Cuba. He was obliged to work within a complicated bureaucratic framework, a fact which made the clearing of actions a laborious and time-consuming exercise. Under his direction, the Task Force grew substantially in size and in professional competence with the result that when the Cuban crisis arrived in October intelligence assets were in place to make a significant contribution to the overall intelligence picture. Mr. Harvey devoted considerable ingenuity, long hours of personal time, and great energy to this enterprise, and, although certain aspects of the intra-governmental coordination of the operations had rough sledding, his net achievement was the establishment of an effective, going concern with momentum which carries on to the present.

4. Mr. Harvey, after a strong performance as Chief, TFW, has been assigned as Chief of Station, Rome, and is now preparing himself to take over at that post in the coming months.

MEMORANDUM FOR: Director of Personnel

SUBJECT: William K. Harvey - Memorandum in lieu of fitness report for period 30 March 1960 - 10 May 1962

1. It is difficult to prepare a fitness report on this outstanding officer, largely because forms do not lend themselves to measuring his many unique characteristics. His strengths are in professional knowledge and competence in the operational field, in a toughness of mind and firmness of attitude, while the latter in past years have moved him into positions that were sometimes stronger than superior officers, with a responsibility for adjustments necessary in matters of policy in relation to Agency position in the community, were able to handle easily, his own closeness to policy positions of the Agency within the U.S. community in the last two years has found him with a real ability to handle policy matters and to adjust to necessities, without losing his firmness and his independence of thought.

2. He is sometimes accounted to be less than outgiving of information about operational matters in which he is engaged, yet it should be remembered that this characteristic has been part and parcel of a sound operational attitude in his career. He has a wide knowledge of personalities within the officer corps of the DD/P and is for the most part a good selector of officers to accomplish necessary tasks. He handles people well. He has a tremendous energy and is a loyal officer both to his superiors and to the purposes of the Clandestine Services of CIA.

3. He is one of the few distinctly outstanding officers in the DD/P.

MEMORANDUM IN LIEU OF FITNESS REPORT

The following statement relates to the performance of William K. Harvey, GS 18, Chief of FI, Division D.

This officer has held a series of responsible positions in DD/P and its predecessor clandestine intelligence organization for well over ten years. He excels in the field of clandestine operations in general and especially so in that phase of clandestine staff and operational activities concerned with the procurement, handling and exploitation of highly sensitive and critical intelligence and operational materials.

His performance generally over the recent years has proved him to be one of the outstanding officers of the DD/P organization. He has demonstrated clearly superior performance both in staff responsibility at Headquarters and as Chief of Base in a very important field station where he was directly engaged in supervising and carrying on operations successfully against targets of the highest priority.

In the period under review, June 1959 to March 1960, he took over and directed functioning of one of DD/Ps most sensitive components charged with achievement by special means against targets of the highest importance. This included carrying on negotiations and liaison with other components of CIA and other Agencies and Departments of the U. S. Government concerned with his special field. His performance of this responsibility in many respects has been outstanding. He has continued to demonstrate his fitness to handle a wide range of positions of major responsibility within the clandestine service.

Among his outstanding characteristics are: thorough understanding of his profession and ability to make this clear to persons of high level whose knowledge of the Clandestine Services is general. He is firm, tenacious, and on occasions strongly aggressive in pursuit of his point of view. While this may sometimes make for difficulty on the part of those in higher echelons who wish to dispose of a complicated problem easily and quickly, this officer's persistence in carefully presenting his arguments and in holding to them until their fact and logic prevail or until policy factors override, makes him a highly valuable asset to CIA.

MEMORANDUM FOR: Director of Personnel

ATTENTION: Chief, Records and Services Division

FROM: Chief of Station, Germany

SUBJECT: Fitness Report - William K. Harvey
November 1957 - January 1959

1. Subject's abilities and performance are too generally known to require detailed comment. One of the very senior officers in KUDOVE he has been chief of what is probably the largest and most productive overseas Base of KUBARK for approximately seven years. During this period Subject has been personally responsible for a number of operational successes, some of which have been of national importance. Possessed of driving energy, determination and initiative, he has few equals in professional experience and competence. Throughout his administration of the Base he has established and maintained exceedingly high standards of accomplishment, discipline and endeavor. Subject's judgement, on occasion, is impulsive and proposals of the Base have been, from time to time, advanced and defended with greater vehemence and more exhaustively than the occasion, objectively speaking, required. Subject's basic self-discipline, good sense and loyalty, however, have prevented any such incidents, which are in large measure manifestations of the highly charged atmosphere and insistent operational pressures of Berlin, from developing into serious friction with the German Station or Washington headquarters.

2. It has been a pleasure to serve with this officer and, during his assignment, he has consistently rendered dedicated and effective service of the very highest order.

1. The Conseil de la Resistance in Cherbourg is composed of three main groups: the O.C.M., Liberation and the Front National:

The Chief of the Conseil de la Resistance, M. Greslin, is an O.C.M. leader and his organization holds the majority of seats in the Conseil. The O.C.M. is generally composed of merchants, landowners and notables who, prior to the armistice, were Rightists or extreme-Rightists.

Liberation, which claims to have been the most active and efficient movement in the Department, is led by and generally composed of Socialists and C.G.T. men. In fact all the Resistance Socialists and Union men are members of Liberation.

As in the rest of France, the Front National is here the Communist Party's resistance organization. It is not as influential here as it is reported to be in other regions.

2. The right hand man to M. Greslin is M. Bocher (Beauchet), who seems to be as well the most prominent labor leader of the department. Bocher is at the same time secretary of the Regional Socialist Federation, secretary of the Merchant Sailor's Union, secretary of the Union des Syndicats, representative of the I.T.F. and head of the local Liberation movement. He is a very efficient man and seems to be respected and esteemed even by his political adversaries.

3. The enthusiasm in favor of the Allies described in the newspapers should not be overestimated. The Norman did not like the Germans and is glad that they have been thrown out. But a very

great number of people here are suspicious of Resistance because of the presence of Communists and Socialists. Moreover, they are very reserved towards foreigners as a rule, and they are not sure of what the Allies intend to do. They are also puzzled about the currency which has been introduced. On the part of Labor, there is a sincere enthusiasm for the victories of the democracies somewhat tempered by the way local problems are handled by military authorities. For example, the ~~Army or the Navy~~ have hired dozens of workers to repair the Cherbourg harbor, but ~~they have done it~~ without consulting the unions. (They have Thus) given work to ~~a lot of~~ former Todt workers, more or less reliable, while skilled workers who were in Resistance Movement are left unemployed. Instances of this kind are frequent.

that the CGT [illegible] not maintaining a sufficiently independent and oppositional attitude.

12. Regarding relations of the Socialist Party with resistance groups, [illegible] Soldani, member of the [illegible] Fédéral of the party for the Var and member of the MLN, expressed his deep regret over the fact that fusion between the Socialist Party and the MLN now seems impossible. He said he had hoped this fusion of the socialists of the MLN with the best elements of the Socialist Party would constitute a great rejuvenated Socialist Party of the future. During the debate on this subject, [illegible] took explosive exception to an insinuation by [illegible], member of the Bureau Directeur of the party, that the leaders of the MLN were simply a group of arrivistes who were trying to take advantage of the situation to seize political power.

13. As for foreign policy, the Congress expressed itself as opposed to the hegemony of any one great power, whether it be Britain, the United States or Russia, and in favor of a system of collective security, with all the democratic nations of the world equally represented in an international association of nations. This association should have its own army, credit, transport, etc. in order to be able to guarantee the peace. Regarding the treatment of Germany, the Congress voted its opposition to any dismemberment of the country, but approved a long occupation with a severe allied control of all German industry and approved also a long-range program for the reeducation of German youth.

14. Communist Party. According to [illegible], secretary of the Toulon section of the Socialist Party, the Communists claim to have 4,000 registered members in the Var. Communist leaders interviewed declined to quote any figures.

15. [illegible], president [illegible] member of the [illegible], related that the Communists have gained many new followers in the Var since the war, at the expense of the Socialists. He claims this is due to a large extent from the Communists' nationalist policy and also from their young, vigorous leaders as compared with the Socialists [illegible] leaders representing the old regime. He stated that the policy of the Communist Party would remain nationalist in the future; that it would be difficult to return to a revolutionary program.

16. [illegible] asserted that the Communists get along better with the Christian Democrats than with the Socialists, since the latter – as he put it – place party interests above the national interests.

17. The Communists are opposed to the holding of elections next February. Their reasons [illegible] as follows: the elections were scheduled before the [illegible] of the [illegible] by the Allies and [illegible] population [illegible] that [illegible] the country [illegible]. [illegible] the Allies [illegible] recognized the de Gaulle Government the pressing need for [illegible] no longer exists. Besides, it would not be fair [illegible] three million prisoners and deportees [illegible] to the polls. According to [illegible], however, the real reason the Communists are opposed to the elections is their fear of losing [illegible] strength which they [illegible] in the various departments.

[illegible]

mental and local liberation committees. [illegible], M. [illegible] indicated his personal opposition to the holding of elections at the present time since the women's vote constituted an experiment and he was not in favor of conducting such experiments while France was still at war. (Aragon may well feel that to hold elections now would mean a loss of strength for the [illegible] as well as for the [illegible].) Etienne Allegre, Communist municipal delegate, stated flatly that he believed the elections would be postponed, although the party is making its plans so as to have everything in readiness in case the elections are held in February.

18. Both [illegible] and [illegible] criticized the [illegible] of the Var, M. [illegible], for not being [illegible] enough in his handling of the details of the department, particularly the procurement of adequate food supplies. [illegible] praised [illegible] for his personal courage and for his active participation in resistance activities but pointed out that he was formerly secretary of the sous-prefecture at Toulon and that he has not broken away from the old habits of the plodding permanent fonctionnaire.

19. [illegible] described Admiral [illegible], [illegible] of Toulon, as a [illegible] of the old tradition – along with the great majority of high naval officers at the Toulon naval base.

20. According to Allegre, the Toulon edition of Rouge-Midi, the Communist paper published in Marseille, has a daily circulation of 1[illegible],000 and a Sunday circulation of [illegible].

21. Mouvement Republicain Populaire: The Toulon section of the MRP was formed about [illegible] months ago. The officers are: [illegible], president; M. [illegible], secretary; M. [illegible], treasurer. A departmental federation of the MRP is in the process of formation; [illegible] hopes to have it organized before the end of the year. [illegible] claims a membership in the Toulon section of [illegible] but this appears to be an exaggeration. [illegible] stated that the Toulon edition of the Christian Democrat newspaper, Le [illegible], published in Marseille, has a local circulation of [illegible]. This Toulon edition was started [illegible].

22. The Union Feminine Civique et Sociale (UFCS) is the women's adjunct of the MRP at Toulon. [illegible] is making serious efforts to capture the women's vote. [illegible] series of three free weekly political lectures, starting 13 December 1944 has been organized by the UFCS.

23. Radical-Socialist Party: It is universally stated that the Radical-Socialists are [illegible] as a political force in the Var. No party headquarters has been established in Toulon, and aside from one brief newspaper announcement, no sign of any Radical-Socialist activity was discovered.

24. [illegible] and [illegible], of the PS, is optimistic over the possibility of fusion between the PCF and the PS in the Var [illegible] after the agreement just reached between the two groups in the Department of the Gard. On the other hand, Arrighi, of the PCF, points out that many members of his organization are hesitant about uniting with the PS, because they see in this an attempt

[illegible] of the [illegible] to [illegible] the [illegible]. However, [illegible] [redacted] are still continuing between the two groups. [illegible] at length [illegible] of the [illegible] not Communists [illegible] the positions of responsibility in [illegible] or held by Communists.

25. [illegible] according to [illegible], representative of the [illegible] in the [illegible] members of the [illegible] October 194[illegible], [illegible] members in 19[illegible]. [illegible] one of the most urgent [illegible] before the [illegible] in the [illegible] of the [illegible] of salaries. [illegible] workers are too highly paid [illegible] compared to the salaries of [illegible] skilled workers in other trades. This [illegible] created by the Germans who paid very well in order to [illegible] labor in certain high [illegible]. For example, workers in the building trades [illegible] getting up to 30 francs per hour, while skilled ajusteurs on [illegible] earn only 12 francs per hour. [illegible] points out that it is not possible to raise all salaries to the high levels established by the Germans, since this would cause an inflationary trend. Therefore the [illegible] is faced with the delicate task of working at the [illegible] time for the [illegible] to a certain extent [illegible] some salaries and the raising of others.

[illegible] and Military [illegible]

Notes on Toulon

1. [illegible] is in full political [illegible], with [illegible] toward the elections [illegible] for next [illegible]. The Communists and Socialists are the [illegible] of the [illegible] political parties, and their strength must be [illegible] divided. The Christian Democrats (Mouvement Republicain Populaire) are lagging [illegible] place [illegible] the Radical-Socialists [illegible] very [illegible]. As for the [illegible] organizations, both the [illegible] (Mouvement de Liberation Nationale) and [illegible] (Front National) are [illegible] strong [illegible] in the public eye. It is difficult to estimate the extent of their popular following [illegible] their leaders [illegible] unwilling to [illegible] any figures [illegible] but both appear to be about equal in strength to the [illegible] Communists.

2. Socialist Party. According to Mr. [illegible], [illegible] of the Toulon [illegible], the Socialist Party has [illegible] registered members in Toulon (as compared with [illegible]) [illegible] in the department of the Var (as compared with [illegible] before the war). He pointed out that the Var was traditionally a Socialist stronghold: in 1939, of [illegible] conseillers generaux, [illegible] were Socialists and [illegible] Communists; he stated that if elections were held [illegible], the Socialists [illegible] case [illegible].

3. [illegible] feels that the political situation is confused by the existence of the [illegible] and the [illegible], and that since the work of the resistance is over, these groups should disappear and give way to the political parties. He maintains that the leaders of the [illegible] are motivated by [illegible] of personal interest, their object being to replace the old [illegible] and the old leaders. He states that [illegible] of the Socialist Party with the [illegible] will not be accomplished, and that individual Communists joined the [illegible] simply to [illegible] the [illegible] elements in that organization and [illegible] the influence of the [illegible].

4. [illegible] Mr. [illegible], in private conversation, and [illegible], Socialist [illegible] of Marseille, in a speech before the Congress of the Socialist Federation of the Var at Toulon, [illegible] September 1944, stressed the need for holding [illegible] elections in [illegible]. They pointed out that present [illegible] of [illegible] Liberation [illegible] were not representative of the will of the people [illegible] reflect public opinion. [illegible] said [illegible] proof of popular [illegible] before he could [illegible] considered [illegible]. [illegible] the Comité de Libération [illegible] constituted [illegible] people. [illegible] the [illegible] (almost always a [illegible]), [illegible].

5. [illegible] feels it possible that the [illegible] may [illegible] pressure on the government to [illegible]. [illegible] a [illegible] of the elections [illegible] order in France [illegible] although he does

not be taken the attention here would seem [illegible] to the [illegible] affairs in [illegible] of [illegible] because of the practically unanimous popular support of General De Gaulle.

6. The Socialists [illegible] a certain [illegible] of the women's vote. They feel that the women are likely to be strongly influenced by the clergy when they go to the polls. Despite this fact, however, the Socialists want the elections to be held next February.

7. The Socialist party was [illegible] on the [illegible] throughout the [illegible] of Toulon, with a [illegible] display of posters and propaganda material, and huge paintings of Leon Blum and Jean Jaures. The Toulon edition of Le Provencal, the Socialist paper published at Marseille, [illegible] the daily [illegible] Le Petit Varois [illegible] a small knot of [illegible]. Frequent meetings of the Toulon Section and of local sub-sections are held.

8. Congress of the Socialist Federation of the Var: The first Socialist Congress of the Department of the Var was held Sunday, [illegible] December, at Toulon, [illegible] the chairmanship of [illegible] of [illegible] the [illegible] of the party and Mayor of [illegible]. About 300 delegates and [illegible] attended the small hall, each party section in the Department being represented by [illegible] delegates. The meeting lasted all day, with a break for lunch. It was conducted in a serious, business-like manner.

9. The longest debate centered on the question of the activities in the Front National of [illegible], [illegible] of the Socialist deputies of the Var. The Congress unanimously adopted a motion presented by the Bureau Federal whereby [illegible] would be permitted to continue in the Front National on the condition that all his public propaganda appearances were devoted exclusively to the interests of the Socialist Party. As an example of the impossible position in which he was placing himself and the Socialist Party by taking an active part in the leadership of the [illegible], the question of the trade unions was raised; the [illegible] is in favor of the [illegible] unions, the Socialist Party is opposed. [illegible] refused to accept the conditions imposed on him by the Congress, and resigned from the party. At that the Congress unanimously voted a resolution rejecting his resignation and excluding him from the party.

10. There was also lengthy debate on the question of collaboration with the Communist Party, [illegible] though a motion in favor of opening discussions [illegible] the departmental level with a view toward achieving unity between the two parties was killed. However, a motion was finally voted unanimously approving the continuation of discussions on the [illegible] national level [illegible] of the working class, and expressing the desire of the Socialists for harmonious relations with the Communists. The [illegible] to be anti-Communist but expected, in return, that the Communists would not be anti-Socialist.

11. During the debate, there was sharp criticism of the conditions forced against the Socialists in the [illegible] and the local Comite de Liberation by the Communists through the [illegible]. It was [illegible]

that the CGT was not maintaining a sufficiently independent and apolitical attitude.

12. In discussing relations of the Socialist Party with resistance groups, M. Soldani, member of the Bureau Federal of the party for the Var and member of the MLN, expressed his deep regret over the fact that fusion between the Socialist Party and the MLN now seems impossible. He said he had hoped this fusion of the socialists of the MLN with the best elements of the Socialist Party would constitute a great regenerated Socialist Party of the future. During the debate on the subject he took vigorous, almost explosive exception to an insinuation by [illegible], member of the Bureau Directeur of the party, that the leaders of the MLN were simply a group of arrivistes who were trying to take advantage of the situation to gain political power.

13. As for foreign policy, the Congress expressed itself as opposed to the hegemony of any one great power, whether it be Britain, the United States or Russia, and in favor of a system of collective security, with all the democratic nations of the world equally represented in an international association of nations. This association should have its own army, credit, transport, etc. in order to be able to guarantee the peace. Regarding the treatment of Germany, the Congress voiced its opposition to any dismemberment of the country, but approved a long occupation with a severe allied control of all German industry and commerce and a long-range program for the reeducation of German youth.

14. Communist Party. According to M. [illegible], secretary of the Toulon section of the Socialist Party, the Communists claim to have 4,000 registered members in the Var. Communist leaders interviewed declined to quote any figures.

15. M. Pothier, prominent Communist member of MLN, maintains that the Communists have gained many new followers in the Var since the war, at the expense of the Socialists. He claims that this results to a large extent from the Communists' nationalist policy and also from their young, vigorous leaders, as compared with the Socialists who still have the same leaders representing the old regime. He stated that the policy of the Communist Party would remain nationalist in the future; that it would be difficult to return to a revolutionary program.

16. Pothier asserted that the Communists get along better with the Christian Democrats than with the Socialists, since the latter - as he put it - place party interests above the national interest.

17. The Communists are opposed to the holding of elections next February. Their reasoning, ostensibly, is as follows: the elections were scheduled before the recognition of the Provisional Government by the Allies as a means of holding a popular referendum and thus showing the Allies that De Gaulle and the country [illegible] him. Now that the Allies have recognized the De Gaulle government, the pressing need for immediate elections no longer exists. Besides, it would be only fair to wait for the return of the three million prisoners and deportees before proceeding to the polls. According to M. [illegible] of MLN, however, the real reason the Communists are opposed to the elections is their fear of losing some of the strength which they now hold on the various depart-

[illegible]

mental and local liberation committees. Incidentally, M. [illegible] himself indicated his personal opposition to the holding of elections at the present time, since the women's vote constituted an experiment and he was not in favor of conducting such experiments while France was still at war. ([illegible] may well feel that to hold elections now would mean a loss of strength for the MLN as well as for the Communists.) Etienne Allegre, Communist municipal delegate, stated flatly that he believed the elections would be postponed, although the party is making its plans so as to have everything in readiness in case the elections are held in February.

18. Both Allegre and Pothier criticized the prefect of the Var, M. [illegible], for not being vigorous enough in his handling of the affairs of the department, particularly the procurement of adequate food supplies. Pothier praised [illegible] for his personal courage and for his active participation in resistance activities but pointed out that he was formerly secretary of the sous-prefecture at Toulon and that he had not broken away from the old habits of the plodding government fonctionnaire.

19. Pothier described Admiral Lambert, Prefet Maritime of Toulon, as a reactionary of the old tradition - along with the great majority of higher naval officers at the Toulon naval base.

20. According to Allegre, the Toulon edition of Rouge-Midi, the Communist paper published in Marseille, has a daily circulation of 1[illegible],000 and a Sunday circulation of 15,000.

21. Mouvement Republicain Populaire: The Toulon section of the MRP was formed about one month ago. The officers are: M. Labrosse, president; M. Jouzian, attorney, secretary; M. Cornier, worker at the Naval Arsenal, treasurer. A departmental federation of the MRP is in the process of organization; Labrosse hopes to have it organized before the end of the year. Labrosse claims a membership in the Toulon section of 1,000 - but this appears to be an exaggeration. Labrosse stated that the Toulon edition of the Christian Democrat newspaper, Le Meridional, published at Marseille, has a local circulation of 2,000. This Toulon edition was started two weeks ago.

22. The Union Feminine Civique et Sociale (UFCS) is the women's adjunct of the MRP at Toulon. As in Paris, the MRP in Toulon is making serious efforts to capture the women's vote. A series of three free weekly political lectures, starting 13 December 1944 has been organized by the UFCS.

23. Radical-Socialist Party: It is universally stated that the Radical-Socialists are practically absent as a political force in the Var. No party headquarters has been established in Toulon, and aside from the brief newspaper announcement, no sign of any Radical-Socialist activity was discovered.

24. MLN and PS. Pothier, of the PS, is optimistic over the possibility of fusion between the MLN and the PS in the Var echelon after the agreement just reached between the two groups in the department of the Gard. On the other hand, [illegible], of the MLN, points out that many members of his organization are hesitant about uniting with the PS, because they see in this an attempt

on the part of the FN to absorb the MLN. However, he states that discussions are still continuing between the two groups. [illegible] asserts that although many members of the FN are not Communists, all the positions of responsibility in that organization are held by Communists.

25. CGT. According to M. Bessone, representative of the CGT on the CDL, there were [illegible] registered members of the CGT in the Var on 1 December 1944, as compared with 24,907 members in 1937. Bessone considers one of the most urgent problems before the CGT in the Var to be that of the stabilization of salaries. Some workers are too highly paid (this in comparison to the salaries of equally skilled workers in other trades). This state of affairs was created by the Germans who paid very well in order to attract labor to certain high-priority jobs. For example, workers in the building trades are getting up to 3[illegible] francs per hour, while skilled ajusteurs and tourneurs earn only 12 francs per hour. Bessone points out that it is not possible to raise all salaries to the highest levels established by the Germans, since this would cause an inflationary trend. Therefore, the CGT was faced with the delicate task of working at the same time for the reduction -- to a certain extent -- of some salaries and the raising of others.

Police and Military Units

26. [illegible] Republicaines de Securite and Gardes [illegible]. The Forces Republicaines de Securite have a total strength of 3[illegible] officers and men in the Var, under the command of Lt. Colonel (FFI) Barrat. Their headquarters are at Ollioules, about 7 km. west of Toulon, at the Chateau [illegible], a requisitioned private estate formerly occupied by the Vichyite GMR (Groupes Mobiles de Reserve).

27. The two companies under Barrat form part of the FRS of the 15th Military Region (Vaucluse, Hautes Alpes, Basses Alpes, Alpes Maritimes, Bouches-du-Rhone, Var) and are [illegible] by Regional Commissioner [illegible] and placed under the command of General [illegible]. The FRS are an official, paid militia, working under the prefect in each department of the 15th Military Region, with the principal task of combatting traitors, collaborationists and black marketeers and of maintaining order. In the Var, the FRS has the additional task of guarding the [illegible] political prisoners at the camp of [illegible]. Members of the FRS in the Var are all former FFI. The men are paid 2,055 francs monthly; officers and noncommissioned officers receive regular army pay.

28. Barrat stated that he is sadly in need of arms and equipment for his men. There are rifles for only [illegible] percent of his 3[illegible] men, and their total arms consist of [illegible] German [illegible] and two light machine guns. Barrat pointed out that it would mean a great deal for the discipline of his men if they could all be properly armed and equipped. He hastened to add that in spite of circumstances, discipline was good. An inspection tour of the quarters, however, revealed a rather mediocre discipline; the men lacked the military smartness and bearing of trained soldiers. German prisoners working on the premises were more prompt than the members of the FRS to come to attention and salute at the approach of Lt. Colonel Barrat.

29. Barrat stated that he had sent detachments out on expeditions against the

29. [illegible] stated that he had sent detachments out on expeditions against the [illegible] blanc -- elements of which had been reported in various localities in [illegible] -- but so far without success. The [illegible] was not in radio contact with these elements anywhere in the [illegible]. [illegible] also has men circulating in civilian clothes in Toulon to help stamp out the black market. Thus far, the [illegible] made 250 arrests in [illegible], for all offenses.

30. [illegible], who was formerly departmental chief of the Milices Patriotiques, and who is still a member of the departmental committee of the Gardes Civiques Républicaines (ex-Milices Patriotiques), claims the credit for the [illegible] in the Var [illegible]. Barral stated two [illegible] of the [illegible] were the men on [illegible] of the [illegible] but that the former were unpaid civilians devoting only their spare time to this task.

31. F.T.P. According to it, Colonel [illegible], all the remaining FTP of the Var are grouped in the [illegible] at [illegible], under the command of Colonel (FTP) Salvatori. This unit consists of about 1,000 men, and is preparing to leave shortly for the front to join the 1er French Army. In Toulon, former FTP members have formed an Amicale des FTP. According to one of the members, the Amicale has a total membership of [illegible].

Franco-American Relations

32. American sailors stationed in Toulon report a number of cafe fights and arguments between themselves and Frenchmen, principally over women. The feeling is fairly general among American sailors at Toulon that the French would overcharge an American at every opportunity possible.

33. On their side, the French are, to a greater or lesser degree, resentful over the American bombing of Toulon, which destroyed a large part of the city; over American treatment of German P/W's; and over the fact that American food supplies for the civilian population have not arrived in greater quantities. [illegible] (a Corsican, about 55, veteran of the last war and maquisard for over two years during this one) complained bitterly that American soldiers had sold cigarettes, rations and soap at high black market prices and had not given anything away, contrary to what was expected of them. Cigarettes were sold at 50 to 100 francs a pack; soap at 50 francs a cake.

34. [illegible], Communist member of the [illegible] and director of La Liberté du Var, stated that there existed a general feeling that America had, with [illegible] to Vichy, continued relations with the Vichy Government even after its recall; that Washington was not pleased with the de Gaulle government and would have preferred Giraud or a counterpart to de Gaulle; that a report was circulating in [illegible] circles to the effect that three days before the liberation of Paris, American diplomatic representatives had penetrated into the city and had discussed with Vichy officials the possibility of setting up a new French government replacing the De Gaulle Government.

35. [illegible] also stated that most people were no doubt glad that the Allies had [illegible] to [illegible] the decision of the Government to disband the Forces Civiles [illegible]. In that connection, he stated that the CGR and the FRS [illegible] a great necessity, since the people had no confidence in the police — most of the same men who had served the Vichy regime.

Economic Situation

36. Housing Destruction. Toulon has suffered heavily from Allied bombing. The port area was particularly hard hit, but a good deal of destruction was caused in the center of town as well. According to the municipal bureau of Reconstruction, of a total of 16,[illegible] houses in Toulon, 993 were entirely destroyed, 1,3[illegible] more than 50 percent destroyed and 2,9[illegible] more suffered damage. Since it is extremely difficult to obtain building materials to make repairs, houses which were only partially damaged are deteriorating rapidly from the effects of the weather. Many people made homeless are temporarily living with friends and relatives, in makeshift quarters; a large number have not yet returned to Toulon from the interior, where they had sought refuge during the bombings. Toulon's normal population of 160,000 had dropped to [illegible] at the end of August; it had risen to [illegible] at the end of October, and is now around 110,000.

37. The municipal Service de la Reconstruction estimates needs of building materials for repairs as follows:

8,[illegible] tons of tile shingles for roofing
3,[illegible] tons of bricks
5,[illegible] tons of plaster
1,[illegible] tons of cement
1,[illegible] tons of lime
200,000 square meters of window panes.

Temporary roofing repairs are being made with wood planks.

38. Food. Food conditions in Toulon are bad, the most serious shortages being milk for children, and fats and oils. There is only enough milk to permit distribution to infants up to 9 months. According to Dr. [illegible], in order to provide milk for the 1,077 children of 9-18 months, 600 cans of condensed milk would be required daily. Another 900 cans daily would be needed for the 1,500 children 18 months - 3 years of age. [illegible] stressed the urgency of this problem. Dr. [illegible] recommends that if American milk is shipped to Toulon, it be given directly to the municipality for distribution, instead of to the Red Cross. (He claims that on previous occasions when American milk was distributed through the French Red Cross, much of it found its way into the black market and never reached the children for whom it was intended.)

39. Despite the fact that the Var is an important producer of olive oil, there is a serious shortage of this product on the market. According to Allegre, municipal [illegible] in charge of Ravitaillement, whatever stocks of olive oil do exist in the region are blocked by the Ministere du Ravitaillement for distribution throughout France. This is a source of discontent among the people

However, [illegible] distribution of [illegible] with the [illegible]. It is expected that [illegible] will improve by the end of the year. At present, olive oil sells [illegible] francs per litre on the black market, but [illegible] when available, it sold for [illegible] francs [illegible] supply.

40. The bread ration of [illegible] grams daily is generally considered satisfactory and the meat ration of about [illegible] grams weekly is felt to be a considerable improvement over the 90 grams monthly received during the occupation. However, people seemed to expect a more immediate and greater improvement in the food situation with the coming of the Allies than has actually taken place.

41. **Public Services:** Electricity, gas and water supply are normal. The streets are partially lighted at night. Trolley services are functioning in Toulon and its suburbs. There is one [illegible] train daily to Marseille, and one [illegible] daily with connections with the Marseille-Paris train.

Reported Replacement of "Front National" by a New Paper

The following report is from a member of the staff of "Front National" and is a close friend of Thorez. This information was disclosed directly to a well-tried source, who has extensive contacts in French press circles:

1. It appears improbable that "Front National" will continue to be published after the elections, because of the breaking down of this political formation, which is of no further interest - except perhaps a marginal one - to the Communist Party. However, until now, Thorez has been opposed to its disappearance.

2. At present the leaders of the CP are planning to replace it by a more effective organ, and are studying three possible solutions:

(a) A newspaper which might be called "Ce Matin", and which would be supplementary to "Ce Soir" which would be responsible for its publication. The directors of "Ce Soir", which is a successful paper, are opposed to this idea, because they do not see the necessity for placing an additional load on the budget.

(b) A paper exclusively for women and which would treat all questions interesting to women: the home, the factory, food, the child, clothing, education, etc. But it is wondered if women have not adopted the habit of reading their husbands' paper, and would not be reluctant to indulge in the expense of an extra paper.

(c) An evening paper which would sell for 3 fr., and which would be similar to "Le Monde" in form, and would be the leftist opposite number of that paper. This paper would be destined particularly for the elite, and would stress cultural matters, accurate documentation, etc. The difficulty lies in assembling a first rate editorial staff to handle the political, economic, financial and artistic departments of such a paper.

3. It appears likely that a decision will be reached before the end of May.

Source, Operational Data, and Comments:

Although this report is based principally on information received from HOMOHEDRAL, the chief facts have been confirmed by HOMESTRETCH and HOMOGENE. Much of the information, especially the excerpts from CADI reports, was taken from the original CADI documents which HOMOHEDRAL lifted from the CADI files. (One of HOMOHEDRAL's sub-agents got the char-woman who cleans the CADI offices to lift a few reports each night for a period of a week.) The Italian immigrant sent by this station to the CADI office is Ettore GUIDETTI.

1. The Comite d'Action et de Defense des Immigres (CADI) was organized at Paris in November 1944 and operated overtly until ordered dissolved as a subversive group by a decree of the Ministry of the Interior in December 1948.

2. The principal organisations which joined to form CADI are as follows:

Parti Communiste Francais
Confederation Generale du Travail
Conseil National de la Resistence
Front National
Union des Femmes Francaises
Union des Patriotes Sovietiques
Comite Italien de la Liberation
Comite d'Unite de la Defense Juive
Union National de la Colonie Tcheco-Slovaque en France
Union Democratique des Hongrois en France
Aide a la Patrie Polonais
Front National Armenien
Italia Libera
Front National Roumain
Union de la Jeunesse Republicaine de France
Union Nationale Espagnole en France
Federation des Espagnols Residant en France

3. As the name CADI implies, the organisation was formed to aid foreign immigrants in France. It was not ostensibly founded as a political organisation, nor was it ostensibly designed to support any particular political party. Its apparent purpose was rather to give social and legal aid to any and all immigrants in France. Its social program was quite simple and was largely devoted to the distribution of food, clothing, shelter, and money to needy immigrants. Its legal program was two-fold: first, it offered legal assistance to the individual immigrants through its lawyers; and secondly, it sponsored a series of measures in the Chamber of Deputies which were designed to benefit the status of all immigrants.

4. The measures which CADI sponsored were officially known as the "resolutions pour la promulgation d'un Statut Juridique des Immigres", and demanded the following benefits for the immigrants:

a. That "Cartes de residence privileges" be granted to all immigrants, without exception, after three years residence in France.

b. That immigrants be allowed to choose their place and type of employment.

c. That immigrants be granted all the social benefits to which a French citizen is entitled.

d. That expulsion from France be made dependent on a court order, rather than on a decree of the Ministry of the Interior.

5. CADI sponsored the above measures for all immigrants. For those certain immigrants who had volunteered for service in an Allied army, or had taken part in the Resistance, or had been deported to Germany, CADI made the following demands:

a. That naturalization be granted by judges of the peace upon simple proof of the immigrant's claim to be in one of the above categories, and that all other naturalization requirements be waived.

b. That all invalids, deportees, and widows of men of this category be entitled to the same social benefits as French citizens of similar classification.

c. That the term "Mort pour la France" be added to the titles of the deceased of all immigrants of this category. 5

6. For those immigrants of the above category (para 6) who preferred to maintain their original citizenship, CADI demanded:

a. That they be allowed to choose their place and kind of work and that they be permitted to change their profession whenever they so desired.

b. That they receive all social benefits granted to French citizens.

c. That all "administrative measures resulting from their antifascist activity before and during the War be annulled." (Field comment: This is a direct translation from the French and refers to any legal actions taken against immigrants who, as Communists, refused to obey the orders of the French government between September 1939 and the German attack on Russia.)

SECRET 29-4-11-2

WFM 533

7. CADI was largely successful in realising its demands, for the Statute of Immigrants which was passed by the Consultative Assembly (the Statute was composed of the ordonnance of 24 March 1945, the ordonnance of 2 November 1949, the ordonnance of 19 October 1945, the ordonnance of 15 October 1945, and the decree of 25 December 1945) gave to immigrants an equality of rights approximate to those enjoyed by a French citizen. The most active supporter of the CADI measures in the Consultative Assembly in 1945 was Madeleine BRAUN, prominent Communist and one of the leaders of the Front National. The Communist Party and the CGT also heavily backed these measures.

8. Paragraphs 4 through 6 represent CADI's original program; it was overt, it was designed to benefit all immigrants, and it was supposedly non-political. To implement its program, CADI established branch offices throughout France in the cities which had large numbers of immigrants. These branch offices were known as Centres d'Action de Defense des Immigres. CADI also took the lead in organising the annual National Congress of Immigrants (Congres National des Immigres), the first one of which was held in Paris on 23 January 1946. M. ABERACHA, representative of the Ministry of Industrial Production presided. In 1949, CADI again sponsored the congress, now called the International Congress of Immigrants in France (Congres International des Immigres en France), which took place in Paris 15 February to 17 February. Some 15,000 delegates, representing 3 million immigrants of all nationalities, attended. Justin GODARD, president of CADI, made the principal speech. Louis SAILLANT, secretary-general of the CGT and president of the CNR, was a member of the sponsoring committee and sat on the speakers' platform. The sponsors' committee for the 1947 Congress which was also held at Paris in February, consisted of Justin GODARD, Louis SAILLANT, Jacques DUCLOS, Albert BAYET (delegate of the Ligue des Droits de L'Homme), PINEAU (director of the Union de Jeunesse Republicaine de France), Madeleine BRAUN, and Joseph NORDMANN (lawyer for the Lettres Francaises in the KRAVCHENKO TRIAL).

9. Although the ostensible and apparent purpose and activities of CADI were those outlined in paragraphs 3 to 6; its true purpose and its clandestine activities were quite different. CADI was not the non-political organisation that it professed to be, but was in fact a tightly controlled Communist organisation. To be sure, the legislative measures it supported benefited all immigrants, but they were designed primarily to help Communist immigrants. Similarly, CADI's program of aid to immigrants was restricted solely to Communist or pro-Communist immigrants. The true purpose of CADI was to aid Communist and

29-4-11-2

APERTURE CARD REPRODUCTIONS

pro-Communist immigrants to enter France; to aid them in establishing themselves in France; to place them in industries, mining, and agriculture; to organize them into faithful followers of the Communist Party; and finally to control them.

10. In order to realise its true purpose, CADI embarked on a clandestine program which may be divided into three major parts: the supplying of certain necessary identification papers, to illegal Communist immigrants, the placing of these immigrants in certain jobs, and the organising of these particular immigrants, along with all the foreign laborers in France, into submissive groups which would follow the orders of the CGT and the Communist Party.

11. Evidence of this first activity is found in the CADI office in Marseille. This office is currently operating a program whereby any avowed Communist immigrant coming to the office is furnished a "carte de travailleur etranger", and given a job in industry or agriculture, and, for the sum of 5,000 francs, is furnished with a naturalisation decree.

12. (Field Comment:

Having heard from two sources that CADI was operating such a program, this station sent on 10 March 1949 one of source's sub-agents, an Italian immigrant who had entered France clandestinely, to the Marseille CADI, at 8 Place de la Prefecture, to ascertain if these reports were true. At CADI our sub-agent was received by George LINIVER. Our sub-agent then presented himself as an Italian immigrant who entered France clandestinely and asked that he be given a "carte de travailleur etranger". LINIVER asked our sub-agent who had sent him to CADI, to which the sub-agent replied, "I am a Communist." LINIVER asked to see the sub-agent's Party card, and the latter showed it to him. LINIVER then asked the sub-agent if he had a job in France, to which the sub-agent replied in the negative. LINIVER told the sub-agent to return in two weeks at which time he would give him an "autorisation de sejour", and in three weeks, he would provide him with a "carte de travailleur etranger". LINIVER also promised to give our sub-agent an agricultural job in Sete (Herault). Finally, LINIVER told our sub-agent that for 8,000 francs he would provide him with naturalisation papers. Our sub-agent replied that he wanted such papers, but that he would first have to acquire the money. The interview ended with both men raising their fists in the Communist salute.

13. From questioning our sub-agent, it appears that the papers CADI furnishes are genuine papers which they obtain through the conivance of certain individuals in the Marseille Prefecture.

The sub-agent's sister unfortunately died in Paris on [illegible] March. The sub-agent then left immediately for Paris and has not yet returned. Upon his return to Marseille, this station will send him back to CADI to claim his "carte de sejour" and "carte de travailleur etranger". We will also give him 5,000 francs with which to acquire his naturalisation papers and we will direct him to accept the proferred job in Sete.)

14. Additional evidence that CADI is engaged in supplying these papers is found in the fact that on the 24,28, and 29 of January 1949 four foreigners presented themselves at the office of the "Confederation Generale des Internes et Deportes Politiques de la Resistance et des Victimes de l'Oppression Nazie et du Racisme" where, thinking they were at the CADI office, they asked that they be given "cartes de sejour". These men were:

✓MILLER, Robert - born in Baden, Germany
✓JACOBSOHN, Carl - born in Hamburg, Germany
✓GEORGES, Morice - born in Seekelyncmakely, Hungary
✓LASZLO, Alexandre - born in Marsvakely, Hungary

These four had entered France clandestinely and each had been told before leaving his own country to apply to CADI for his French papers.

15. The following excerpts from CADI reports indicate CADI's activity in placing immigrants in industries and in agriculture.

a. "The Poles sent by CADI into the iron and coal mines number 60,000. In addition CADI has placed 80,000 Polish agricultural workers in France." (Field comment: From a report by LOUKA, delegate of the Conseil National Polonais en France.)

b. "In the large chemical and metallurgical factories of Marseille one-third of the employees are immigrants. In the Acieries du Nord, 340 workers are foreigners; the Cotel Plant, 485 workers are immigrants. CADI has placed many of these men and will continue to place as many again." (Field comment: From a report of Guido ZAMIS, CADI secretary in Marseille.)

c. "There are 3,800 foreigners in the coal mines at Carmaux-les-Mines. CADI has placed 80% of these men." (Field comment: From a report of the CADI representative for the TARN department.)

16. The following excerpts from CADI documents indicate CADI's activity in organising the immigrant laborers into submissive groups ready to follow CADI-CGT-Communist orders:

a. "It is necessary that CADI take the lead in organising these foreign laborers in strong and democratic unions. We must protect them from their capitalist oppressors and we must aid them in their struggle against their employers. In CADI and in the CGT, the immigrant finds his strength." (Field comment: From a report by Louis PETIT, one of the organisers and national leaders of CADI.)

b. "It is through CADI that the immigrant masses are able to mobolise for the tasks which lie before the whole country. It is CADI which must educate the immigrants in the ways of true democracy and it is for CADI to lead them in their struggle." (Field comment: From a report of LAROCHE, secretary-general of CADI.)

c. "Before the war, the countries from which these immigrants came were under the control of Fascist and reactionary regimes. The immigrants left their homes without hope of returning. Now things have changed; the countries from which they came are today true democracies and they now have the problem of helping those of their former citizens who are now living outside their borders. It is CADI who, working with these democratic governments, is attempting to obtain the rights of liberty and democracy for these immigrants now in France." (Field comment: From a letter written by Louis PETIT.)

d. "We are proud to be from a region where the majority are immigrants, the immigrants who organised the great strike of 100,000 workers during the occupation under the leadership of Auguste LECOEUR. In those times, all orders were executed clandestinely, and we will execute them today with the same enthusiasm. CADI must lead the way." (Field comment: From a speech by the CADI secretary in the Pas-de-Calais.)

e. "The control of the recruiting of immigrant workers must be done in a rigorous manner by CADI and the French workers. unions. We must prevent the immigrant worker from becoming a tool in the hands of the capitalists." (Field comment: From a speech by GIOVETTI, (fnu), delegate of Italia Libera.)

17. Further evidence of CADI's activity in organising the immigrant workers is found in CADI files. Report after report from various CADI delegates throughout France list by

SECRET 29-4-11-2

nationality the number of immigrants in their areas, and in addition many of the reports note the number of these immigrants who are under CADI control. These reports are all similar, and it is sufficient to quote from one: "More than 50% of the miners in the Loire basin are immigrants; of these, the following percentages adher to CADI: 95% of the Poles, all the Yugoslavs, 80% of the Portuguese, 60% of the Italians, and 75% of the Hungarians." (Field comment: From a report by CADI secretary from the Loire.)

18. Although supposedly dissolved by Ministerial decree in December 1948, CADI continues to operate clandestinely throughout France. Its present national president is Justin GODARD, former minister; FRYDMAN, (fnu), a member of the Comite d'Unite de la Defense Juive, is vice-president; LAROCHE, (fnu), is secretary-general. National Headquarters are located at 102 rue de l'Universite, Paris. The principal organisations supporting CADI today are those listed in paragraph 8, except for those of these organisations which have ceased to exist.

19. CADI functions in conjunction with these organisations and in addition it has its own delegates scattered throughout France in the industrial and mining regions. Among the CADI delegates are the following:

HORCADO - delegate of the Federation des Espagnols Resident en France
LOUKA - delegate of the Conseil National Polonais en France
GIOVETTI - delegate of Italia Libre
KOVACS, Muranyi - secretary-general of the Union Democratique des Hongrois en France
PANAS - member of the Front National Hellenique
MELIK - member of the Front National Armenien
VINCIGUERRA - president of the Union des Voluntaires Etrangers
SORU - delegate of the Front National Rouman
CONTI, Mme. Germaine - secretary of the CADI in Paris
ZELENY - delegate of the Union Nationale de la Colonie Tcheco-Slovaque en France
GUERRIERO - member of the Federation des Immigres Portugais
HOLLAND - delegate of CADI on Eastern France
FRYDMAN - vice-president of CADI; delegate of the Comite d'Unite de la Defense Juive.
PETIT, Louis - one of the organisers and responsibles of CADI

29-4-11-2

APERTURE CARD REPRODUCTIONS

(Field comment: It is realised that some of the organizations of which these men are listed as delegates have been dissolved, notably Italia Libra and the Front National Armenien. However, the names of the individuals and their affiliations are shown exactly as they appeared on CADI documents.)

20. CADI is well-financed. Its principal financial support comes from the Communist Party and the CGT. (Field comment: CADI documents acknowledge unspecified contributions from these organisations. One of source's informants, the chief of the Foreigners' Section of the Marseille Prefecture, has stated that he knows the Marseille CADI has an undetermined quantity of rubles, presumably received from the Communist Party.)

21. In Marseille, the CADI office was established by Guido ZANIS and George LINIVER in March 1946. It was originally located on the Blvd. du Muy, but in September 1947 it transferred to 3 Marche des Capucins. In February 1948 it moved to 97 rue Longue des Capucins and then, after it was ordered dissolved, it continued to function clandestinely at 2 Place de la Prefecture, where it remains today. ZANIS remains the director of the Local CADI, assisted by LINIVER.

PROFESSIONAL

There's nothing outstanding about Tarasoff - just an average joe trying to make a living and without the ambition, energy, perspicacity to make use of a saleable article: knowledge of Russian. Physically he's sort of soft, tends to be overweight - he's about 5'8" tall, and about 190 in weight. His personality is on the negative side, his manner dull.

Tarasoff was greatly interested in the possibility of working for the US Government. He wants that security. And he has about reached the end of the line salary wise as a maintenance man or building superintendent. Tarasoff is willing to work in D.C. but insists on a GS 7 because he has to support a wife and two children. He does not mind the sedentary aspects of Project Detail - I doubt if he'd be interested in anything that wasn't sedentary. He also liked the the other aspects of Detail and I would think from talking with him that he would be quite able to handle a job on Detail. He can translate - reads with a great deal of ease. His PHS I notice indicated he's interested only in o/s - this is not what he told me; he is interested in US also but he will go o/s if necessary.
I recommend Tarasoff for a GS 7 on Project Detail.

SECTION C — NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

This officer has continued to perform his assigned tasks in superior fashion. Not only is he a skilled transcriber/translator, he is also able to put his experience and knowledge into words in preparing character analyses which have been of great value to the Station's operational program. Although his work load is often quite heavy, he can always be counted on to complete his assignments promptly and he willingly puts in the extra time frequently needed.

His team spirit and dedication are shown by the fact that on several occasions, in spite of advancing age and recent illness, he spent long hours in base houses on live-monitoring assignments. He will be greatly missed when he retires in the near future.

As previously noted, this officer does not handle operational funds or have supervisory responsibilities. He has had no cover problems, nor has he required any unusual administrative support, other than that which is to be expected in connection with his forthcoming retirement.

This officer continues to perform his assigned duties in a superior fashion. Illness put him out of action for some time, but otherwise the Station received the fine performance which has come to be routine with him. This officer's experience and dedication make it possible for him to work effectively with an absolute minimum of supervision. He responds instinctively to items of operational significance, and his experience and knowledge make it possible for him to write penetrating analyses of target personalities, and interrelationships among these persons, based solely on what he hears.

This officer has also been called upon to transcribe material from audio operations, in addition to the telephone material which is his normal assignment. He has also handled this well, although his advancing age and less acute hearing make this task much more difficult for him.

While not called upon to use Spanish normally, he has sufficient fluency to handle material in Spanish when required.

This officer uses his time well and takes good care of the equipment assigned to him. He does not handle operational funds nor does he have any supervisory responsibilities.

This officer continues to consistently perform at the excellent level which has characterized his work in this Station for several years. His high level of personal dedication and professional competence have become standard.

FEB 25 1 46 PM '69

From his daily work he has an intimate knowledge of and insight into the personalities of individual Soviets and the personal interrelationships existing between members of the local Soviet colony. The character analyses which he prepares are excellent and an invaluable aid to our Soviet program.

He has had no professional, administrative, or personal problems during the reporting period.

His knowledge of Spanish continues to improve and aids him considerably in his work.

He works quickly and accurately and has a fine feeling for the subleties of the Russian language. His character analyses of Soviets have been of great assistance in the Station's operational planning. He continues to maintain his deep cover status well and presents no problem of either an administrative or a personal nature. His wife continues to assist him with his work, and together they make an excellent team.

Subject has continued to demonstrate a very high level of interest and competence in his work. Beyond the relatively technical aspect of producing transcriptions, which he accomplishes with timeliness, accuracy and thoroughness, he strives to provide the Station and Headquarters with an insight in depth on the local Soviet complement. He does this capably, particularly when one understands the limitations of his technical access. His wife, a contract employee, assists him in the preparation of the technical product. However, her over-all contribution goes beyond this, since Subject and his wife work together in effort to distill the meaning of their product in terms of personality assessment. They are uniquely well adjusted to their deep cover circumstances, are of little burden administratively to the Station, and are presently interested in continuing their assignment in Mexico City indefinitely.

The relatively limited period of Subject's assignment to the Station, coupled with the normal complications attendant to a staffer's conversion to the DDP and to a deep cover status on a first assignment abroad, compels the supervisor to make a tentative assessment only at this time. However, from all indications to date it would appear that Subject and his family are acclimating themselves very well to the environmental, cover and work situation. Subject is interested in his work, applies himself conscientiously and is prompt in completing his assignments whether the work load for a day is light, or is heavy and requires unpaid overtime concentration. The translation product is presently exact and conforms to the Station's standards for such work. As Subject becomes more familiar with specific Station requirements, through experience and with closer supervision than afforded to date, he will be able to make a more imaginative contribution to his work, an effort that he has already begun.

TRAINING REPORT

Spanish Basic Reading, Speaking, Writing
(900 hours, full time)

09/24/62 - 02/15/63

Student	: Boris D. Tarasoff	Office	: WH
Year of Birth	: 1908	Service Designation:	D
Grade	: 11	No. of Students	: 4
EOD Date	: 02/56	Instructor:	Mrs. L. Edwards

COURSE OBJECTIVES - CONTENT AND METHOD

This is a 20-week, full-time course. The general aim of the course is to enable the student to use the spoken language with moderate facility and accuracy in a large number of everyday situations while providing a basis for further learning of the language either by actual use in the area or by further formal study. The major objectives of the course are to develop an ability; 1) to distinguish and produce the sounds of the language; 2) to use a large variety of basic sentences and expressions in the spoken language and apply them by re-combination to new situations; 3) to comprehend spoken Spanish in a variety of current everyday situations; 4) to develop the skills and techniques needed to read Spanish texts with minimum use of the dictionary; 5) to write the language in basic form, including letters, telegrams, short composition, etc.

The entire working day, 5 days a week, is devoted exclusively to language study. Four to five hours daily (a maximum of 25 hours a week) are devoted to guided drill and conversation practice with native speakers. The balance of the day is devoted to language laboratory drill and preparation of assigned material. Three days at mid-term and the final week of the course are spent in a special language-house in which Spanish is spoken exclusively.

ACHIEVEMENT RECORD

Student progress is evaluated primarily on oral recitation in the form of drills and free conversation based on memorized material. In addition, several tests are given during the course. The number of students receiving each adjectival rating on overall course performance is shown below. This student's rating is indicated by the asterisk.

Incomplete	Unsatisfactory	Satisfactory	Excellent
1		2*	1

Mr. Tarasoff's application and interest throughout the course was unstinting. Progress in all course objectives was modest but steady. In future study particular attention should be given to pronunciation and structure.

COMMENTS OF REVIEWING OFFICIAL

I agree with this rating. Mr. Tarasoff has common sense and intelligence sense. He appreciates the significance of information, for intelligence purposes, both in the fields for which he is responsible and in other fields as well.

His ability to scan rapidly a great volume of Russian-language material, and extract or note items of value, will be sorely missed.

OFFICE OF PERSONNEL NOV 3 9 28 AM '61 MANPOWER

Serious-minded, hard-working, well-informed. Has profound knowledge of the USSR, its people, and its institutions. Innately an intelligence officer, he has the ability to discern news of intelligence value where others see nothing. Maintains an image of the world, the USSR, the US and the CIA in his mind, and seldom makes incorrect prediction or estimate regarding World or Soviet affairs.

His intellectual maturity of the Russian language makes him adaptable to a large variety of assignments. Is characterised by resolutnes, steadfastness, and ability to resist pressure or propaganda.

His work in the section has been excellent throughout, and he covers subject fields equivalent to the work of 3 people in 1955. He works very well as part of a team.

His qualifications are an asset both for work in FDD and for assignments involving personal contacts and utilizing spoken Russian.

Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

His native Russian language facility is of tremendous assistance to the section and
the agency. His rapid scanning of Soviet documents for his own projects turns up
valuable bits of information on other subjects, which he is always careful to refer
to the proper persons. He is always ready to assist with language problems and if
he ~~doesn't~~ know the answer he exhausts all possible means to find it. He is called
on for special branch or division projects involving reverse translation, and he has
held a number of TDY assignments requiring spoken Russian. The morsels of intelligence
gleaned for his own reports from the masses of material which he scans are briefly and
tersely stated. Is a systematic worker, keeps good files, and avoids duplication.
Plans and organizes his activities carefully so that he always manages to complete a
project well ahead of the target date. Has constant informal contact with all his
consumers and goes to any length to give them what they want, provided that their
request is reasonable and justifiable. If they ask for something which he knows is
of no value or which has been duplicated elsewhere, he has no difficulty in persuading
them to cancel the requirement, since they have learned that they can trust his work
and his genuine desire to help. It is not hard to discern that he sometimes gets
bored with the monotony of his work, but an occasional tour of TDY is generally
sufficient to revive his enthusiasm for another year at his desk. Has an uneven
temperament, sometimes gloomy and sometimes bantering, but only rarely does this
affect his working relationships.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Shows skill and good judgment in extracting data on a wide range of technical subjects from Soviet documents, which he scans with great rapidity. His written reports based on this material present good intelligence information. However, they suffer slightly from small inaccuracies in syntax and grammar, and there are occasional passages where the meaning is vague or the logical connection between facts has not been made clear. This type of passage may be further complicated by his lack of native familiarity with the precise English idiom and his tendency sometimes to use the wrong connective. However, any such failings in the use of English are entirely offset by his superior knowledge of Russian. His promptness in submitting reports and in completing other assignments is exceptional. Maintains close relations with consumers and goes out of his way to fill all their requirements to the letter. His greatest asset to the section, branch, and division is his native Russian fluency and his knowledge of the USSR. He not only serves as consultant and authority on ~~XX~~ the Russian language for the section and branch, but takes on extra jobs as translator or interpreter as required by the division or the agency. His natural intelligence has enabled him to do on-the-spot or rush jobs in fields in which he has had no background. He continues to learn and to retain his knowledge. During a period when his well-deserved promotion was blocked because of the lack of a slot, a situation which was unfortunate but the fault of no one in his office, he became a bit rebellious and reluctant to take on extra duties which he otherwise would have accepted. He feels, and rightly so, that he is capable of more challenging and perhaps more interesting assignments which require the use of spoken Russian. Every opportunity has been given him to find such a permanent assignment, and he has just been on extended TDY involving such activities.

SECTION C. JOB PERFORMANCE EVALUATION

1. RATING ON GENERAL PERFORMANCE OF DUTIES

DIRECTIONS: Consider ONLY the productivity and effectiveness with which the individual being rated has performed his duties during the rating period. Compare him ONLY with others doing similar work at a similar level of responsibility. Factors other than productivity will be taken into account later in Section D.

INSERT RATING NUMBER: 5

1 - DOES NOT PERFORM DUTIES ADEQUATELY; HE IS INCOMPETENT.
2 - BARELY ADEQUATE IN PERFORMANCE; ALTHOUGH HE HAS HAD SPECIFIC GUIDANCE OR TRAINING, HE OFTEN FAILS TO CARRY OUT RESPONSIBILITIES.
3 - PERFORMS MOST OF HIS DUTIES ACCEPTABLY; OCCASIONALLY REVEALS SOME AREA OF WEAKNESS.
4 - PERFORMS DUTIES IN A COMPETENT, EFFECTIVE MANNER.
5 - A FINE PERFORMANCE; CARRIES OUT MANY OF HIS RESPONSIBILITIES EXCEPTIONALLY WELL.
6 - PERFORMS HIS DUTIES IN SUCH AN OUTSTANDING MANNER THAT HE IS EQUALLED BY FEW OTHER PERSONS KNOWN TO THE SUPERVISOR.

COMMENTS:

2. RATINGS ON PERFORMANCE OF SPECIFIC DUTIES

DIRECTIONS:

a. State in the space below up to six of the most important SPECIFIC duties performed during this rating period. Place the most important first. Do not include minor or unimportant duties.
b. Rate performance on each specific duty considering ONLY effectiveness in performance of this specific duty.
c. For supervisors, ability to supervise will always be rated as a specific duty (*do not rate as supervisors those who supervise a secretary only*).
d. Compare in your mind, when possible, the individual being rated with others performing the same duty at a similar level of responsibility.
e. Two individuals with the same job title may be performing different duties. If so, rate them on different duties.
f. Be specific. Examples of the kind of duties that might be rated are:

ORAL BRIEFING
GIVING LECTURES
CONDUCTING SEMINARS
WRITING TECHNICAL REPORTS
CONDUCTING EXTERNAL LIAISON
TYPING
TAKING DICTATION
SUPERVISING
HAS AND USES AREA KNOWLEDGE
DEVELOPS NEW PROGRAMS
ANALYZES INDUSTRIAL REPORTS

WRITES REGULATIONS
PREPARES CORRESPONDENCE
CONDUCTS INTERROGATIONS
PREPARES SUMMARIES
TRANSLATES GERMAN
DEBRIEFING SOURCES

5 - PERFORMS THIS DUTY IN SUCH A FINE MANNER THAT HE IS A DISTINCT ASSET ON HIS JOB

3. NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job. Works hard. Reads Russian rapidly and looks out for material of interest to others as he scans. Is adaptable and flexible and handles several different technical fields with equal facility. Can tackle almost any subject without previous experience and turn out a good job. His native knowledge of Russian is of considerable benefit to the whole section. Selects the salient points from masses of useless or repetitive material with intelligent judgment, and compiles reports which are pointed and concise. His only deficiency of any consequence is the slight awkwardness and occasional lack of clarity in his written English style. His English has improved considerably during the past two years, but sometimes the failure to use the most precise term or the right connective complicates for the reader a conception which is perfectly clear to the writer.

SECTION D. SUITABILITY FOR CURRENT JOB IN ORGANIZATION

DIRECTIONS: Take into account here everything you know about the individual....*productivity, conduct in the job, pertinent personal characteristics or habits, special defects or talents*....and how he fits in with your team. Compare him with others doing similar work of about the same level.

RATING NUMBER: 5

1 - DEFINITELY UNSUITABLE - HE SHOULD BE SEPARATED
2 - OF DOUBTFUL SUITABILITY...WOULD NOT HAVE ACCEPTED HIM IF I HAD KNOWN WHAT I KNOW NOW
3 - A BARELY ACCEPTABLE EMPLOYEE...BELOW AVERAGE BUT WITH NO WEAKNESSES SUFFICIENTLY OUTSTANDING TO WARRANT HIS SEPARATION
4 - OF THE SAME SUITABILITY AS MOST PEOPLE I KNOW IN THE ORGANIZATION
5 - A FINE EMPLOYEE - HAS SOME OUTSTANDING STRENGTHS
6 - AN UNUSUALLY STRONG PERSON IN TERMS OF THE REQUIREMENTS OF THE ORGANIZATION
7 - EXCELLED BY ONLY A FEW IN SUITABILITY FOR WORK IN THE ORGANIZATION

IS THIS INDIVIDUAL BETTER SUITED FOR WORK IN SOME OTHER POSITION IN THE ORGANIZATION? ☐ YES ☒ NO. IF YES, EXPLAIN FULLY:

Not necessarily better suited, but a position requiring the use of native Russian speaking ability would also be suitable.

Minor difficulties with English usage do not prevent him from turning out reports which are concise and to the point. Ideas are in general clearly formulated, although there are occasional instances of inexactness of expression. Because of his native facility in the Russian language, on the other hand, he is frequently consulted on all levels throughout the branch on matters involving interpretation of the foreign text. He is not an eager beaver, and because of his language fluency can accomplish as much as others in less time and with less effort. Probably works at full capacity only under pressure, and for this reason some of his best contributions have been on special projects with target dates, several of which have covered material outside his field of responsibility. His disposition is generally patient, stable, and unruffled.

3. NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job.

I feel that Mr. T. has not yet been on the job long enough to demonstrate his maximum capacities. Although he came with no background in his specialized field, he has shown considerable facility in acquiring technical information and building up his technical vocabulary. He has a good eye for intelligence. Although he has not native English fluency, his reports are pointed, concise, and, except for occasional minor points of grammar, very well expressed indeed. Owing to his persistence and application, he was rated second highest in a class in English usage. Soon after his EOD, the analyst whom Mr. T. was assisting was transferred, leaving him with full responsibility for covering a field which was still very new to him. He has done an exceedingly good job under the most unpropitious circumstances. He needs to develop fuller utilization of varied research methods, but this will be easier as he becomes more familiar with the materials and problems with which he has to deal. His native Russian fluency is a decided asset. He is calm, cooperative, and easy to work with.

SECTION D. SUITABILITY FOR CURRENT JOB IN ORGANIZATION

DIRECTIONS: Take into account here everything you know about the individual....*productivity, conduct in the job, pertinent personal characteristics or habits, special defects or talents*....and how he fits in with your team. Compare him with others doing similar work of about the same level.

7 - EXCELLED BY ONLY A FEW IN SUITABILITY FOR WORK IN THE ORGANIZATION

4. COMMENTS CONCERNING POTENTIAL

I feel ~~xx~~ very definitely that Mr. Tarasoff's overall potential~~s~~ are greater than he has had an opportunity to show thus far. This will doubtless be reflected in his next evaluation.

SECTION H. FUTURE PLANS

1. TRAINING OR OTHER DEVELOPMENTAL EXPERIENCE PLANNED FOR THE INDIVIDUAL

Since Mr. T. has been on duty such a short time, present plans are simply to give him further training in his present job and to allow him to develop to his maximum capacity there. He will soon be enrolled in the I.O.C.

2. NOTE OTHER FACTORS, INCLUDING PERSONAL CIRCUMSTANCES, TO BE TAKEN INTO ACCOUNT IN INDIVIDUAL'S FUTURE ASSIGNMENTS

His native Russian fluency should be taken into account.

REVIEWING OFFICIAL'S COMMENTS: I do not think he so nearly average in all respects as indicated in Sec. I, below. I do not know him well enough to disagree with most of the ratings, but I would rate him "4" on items 7, 15 and 29, at least. Quiet, unobtrusive, modest, cooperative. Have seen few indications of initiative, but such not to be expected while he is learning a new job; no reason to assume incapable of initiative. T.Bielefeldt

Mr. Boris D. Tarasoff. [redacted]

1. Mr. Boris D. Tarasoff, a Translator/Transcriber with the Agency since February 1956, will retire effective 30 November 1970. Your approval is requested for him to use the attached employment history.

2. For your information, we have been advised by the Mexico City Station that once Mr. Tarasoff has retired to Guadalajara, Mexico, except for establishing new social relationships, he will probably not be asked to go into any detail about his past cover jobs that would require anyone to call upon these firms for backstopping confirmation. In the event he should become involved in any post-retirement activities that might require checking into his past, Mr. Tarasoff will contact Headquarters for instructions.

1956-1959: I worked for various establishments in Washington, D.C., as a translator from Russian into English, such as the Library of Congress, and various other translating firms, which abound in Washington, with a salary varying in accordance with the output of translated material, from $500.00 to 1,000.00 per month.

1959-1963: I was employed by USJPRS Bureau/Standards, Dept of Commerce Wash, D.C. ~~I joined~~ USJPRS on Western Avenue in ~~Washington, D.C., which is a company under contract to the Dept. of State, the Dept. of Defense and on occasion to the Dept. of the Interior (fish hatcheries division)~~. I worked as an analyst and translator, at home most of the time, translating and analyzing articles from newspapers and technical magazines. I was paid $8.00 for 1,000 words for ordinary material, $10.00 for technical and $12.00 for scientific subjects. Also, I was [illegible] ~~hired~~ by the Dept. of State to be an interpreter for two Soviet delegations at $25.00 per diem plus expenses. I spent five weeks with each of them.

1963-1970: After leaving USJPRS I came to Mexico with my wife and children to avoid the weather extremes of the USA XXXXXXXX and to look into possibilities of profitable investments that could aid me financially after my retirement. My income during this period came from annuities and the moneys lent to my brother-in-law in Cleveland, Ohio, who is a successful real estate man and the owner of an amusement machines business (Cadillac Music Co.) in which I had invested some money previously. ~~I was also connected by mail with a Linguistics Studies firm, Room 212, 419 Boylston St., Boston 16, Mass. Frequently some of my friends from USJPRS would send me some special articles for translation. I would charge the above organizations in accordance with the time spent in translating. This amounted to roughly $10,000.00 a year.~~

MEMORANDUM FOR: [redacted]

SUBJECT : **Retirement Planning**

1. The established policy of the Agency favors early retirement of its employees who, as you know, are normally expected to retire when they become eligible for a full annuity. The prospect of retirement deserves serious thought and planning, and you should therefore know that you will be eligible for retirement, according to our records, during **November, 1970.**

2. Planning ahead can bring about, with each passing year, definite progress toward your retirement goals. The Agency is anxious to assist you in planning for your retirement. It is even more important, as an employee, that you begin now to plan for this occasion.

3. You deserve to know as much as possible about the general subject of retirement and more specifically about the retirement policy itself, your annuity, life and health insurance protection, opportunities for other employment, Social Security benefits, and educational materials available on the subject. The Agency feels that this type of information and advisory service should be made available to you at least five years prior to the date of your eligibility.

4. You are requested to call the Executive Secretary of the Board, Mr. Howard G. Phillips, on extension 6872 to arrange an appropriate time to discuss any plans you may have and benefits available to you upon retirement.

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee*.—It is the duty of the appointing officer to guard against impersonation and to determine beyond reasonable doubt that the appointee is the same person whose appointment was authorized. The appointee's signature and handwriting are to be compared with the application and other pertinent papers. If the appointee qualified in a written examination, the signature on this form should be compared with the signature on the declaration sheet, which was signed in the examination room. His physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age*.—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship*.—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family*.—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members of family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

MEMORANDUM FOR: Mr. John W. Coffey

I want to express my appreciation to you personally and through you to Howard Osborn and the other of your associates who contributed so effectively to the visit of the President on Friday. The arrangements were flawless; the security first-class without being intrusive. I am well aware of the amount of work and planning which went into the successful outcome. I particularly want to commend the good sense and judgment which prevailed throughout. It is easy to push people around. It is difficult to take proper precautions and at the same time make everyone feel as though it were his or her party. Thank you very much. Well done!

MEMORANDUM FOR: Mr. James P. O'Connell, Jr. 25 February 1966

THROUGH : Head of GS Career Service

SUBJECT : Notification of Non-eligibility for Designation as a Participant in the CIA Retirement and Disability System

1. As you may know, we are in the process of reviewing the employment history and current career field of all employees in the Agency to identify those who are eligible for designation as a participant in the new CIA Retirement and Disability System. In this process, the initial review of each case is made by the individual's Career Service. If the Head of his Career Service nominates him for participation in the system, this nomination is reviewed by the CIA Retirement Board which recommends final action to me. However, if the Head of the Career Service advises that the employee does not meet the basic requirements of HR 20-50 for participation, I have accepted this finding without further review by the CIA Retirement Board. This practice has been adopted in the interest of expediting this screening process so that those employees who are eligible to participate in the system may be designated participants as soon as possible.

2. In your case, the Head of your Career Service has advised me that you do not meet the requirements of HR 20-50 for designation as a participant and I have accordingly made the formal determination required by the regulation that you are not eligible for designation. From a review of your record it appears that the decision of your Career Service was based upon the fact that you do not have sufficient time prior to completing 15 years of service with the Agency in which you could complete a minimum of 60 months of qualifying service as required by regulation. My determination that you are not eligible at this time for designation in no way affects your current status under the Civil Service Retirement System, nor does it preclude reconsideration of your eligibility to participate in the CIA System if you should meet the requirements for designation in the future.

3. Should you desire further information concerning the requirements for designation as a participant in the CIA Retirement System, I suggest that you read paragraph e of HR 20-50 and paragraph 5 of the Employee Bulletin dated 30 July 1965, entitled "Public Law 88-643, The Central Intelligence Agency Retirement Act of 1964 for Certain Employees."

4. It is always possible that the records upon which the determination made in your case may have been incomplete or inaccurate regarding your actual employment history with the Agency. If, after studying the materials cited above, you have questions regarding the determination that you are not eligible to participate in the CIA Retirement System, please feel free to contact officials of your Career Service. They are familiar with the details of your case and will gladly discuss them with you. In addition, you may wish to discuss your case with the CIA Retirement Staff located in Room 6E-1319 Headquarters (extension 6001). If such discussions do not resolve any questions you have regarding your eligibility, you may request that your case be formally considered by the Board. However, this request must be made within 30 days of the date of this memorandum.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Narrative Fitness Report
Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

1. This Fitness Report covers the period from 1 April 1971 to 31 March 1972. The rating period covers the third full year that Mr. O'Connell has served as the Deputy Director of Security for Physical, Technical and Overseas Security.

2. The directorate which Mr. O'Connell supervises is geographically widely separated in the Headquarters area. This separation adds complexities to the task of supervising the directorate and coordinating the activities of three Divisions, operating over a broad spectrum of activities and responsibilities. During the reporting period, one of the Divisions of Mr. O'Connell's directorate took on an important, added responsibility--the security of automatic data processing. This function covers the complexity of maintaining security in a rapidly expanding activity replete with serious security problems because of the severe compaction of information resulting from rapid advances and acceptability of technology in the field of data handling. The achievements of the Physical Security Division, the Technical Division, and the Overseas Security Support Division require a high degree of coordination in order to avoid contradictions detrimental to a unified security policy.

3. In spite of the difficulty of supervising divisions remotely located from his office, Mr. O'Connell has applied and achieved effective supervision. The Divisions moved forward in an

[illegible]

innovative manner and have been effective in discharging their responsibilities.

4. Mr. O'Connell also spearheads the security program which furnishes Security Officers to overseas stations and domestic operations as necessary. Mr. O'Connell has taken a personal interest in this activity and has been of considerable assistance to the Office of Security Career Board in the assignment of Security careerists to those positions.

5. During the last Fitness Report, the description of Mr. O'Connell's performance was raised from "Strong" to "Outstanding." He has continued his performance in such a manner as to warrant an OUTSTANDING rating.

6. Mr. O'Connell has seen this Fitness Report.

SUBJECT : Narrative Fitness Report -16
Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

1. This is a narrative Fitness Report which covers the period from 1 April 1970 through 31 March 1971.

2. During this entire period, Mr. O'Connell has served as the Deputy Director of Security for Physical, Technical and Overseas Security. The rating period covers his second full year in that position. The Directorate which Mr. O'Connell heads has gained added importance and increased attention during the year. It encompasses an area of activity which is vitally important to the Office of Security and the Agency as a whole. Mr. O'Connell has given considerable attention to efforts which decrease our vulnerability at the hands of foreign opposition as well as from domestic efforts resulting from national unrest. Mr. O'Connell has shown improvement in the over-all coordination of his responsibilities throughout the current rating period. He supervises his people in an effective manner and anticipates problems so as to simplify their solutions.

3. During the previous rating period, Mr. O'Connell's performance was considered to be STRONG with several outstanding features. During the year, I consider that there has been sufficient addition to the outstanding areas of his performance to raise his over-all rating to OUTSTANDING.

SUBJECT : Narrative Fitness Report
Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

OC 7984- SEC-SS

1. This Fitness Report covers the period from 1 April 1968 through 31 March 1969.

2. Mr. O'Connell was appointed Deputy Director of Security for Physical, Technical and Overseas Security in August 1968 and this Rating covers his performance during this period as well as his performance as Executive Officer from 1 April 1968 to 1 August 1968.

3. Mr. O'Connell, as Deputy Director of Security for Physical, Technical and Overseas Security, is responsible for the supervision of three large and complex divisions of this Office. In addition, he is responsible for providing policy and technical guidance to our Area Security Officers assigned to other components of the Agency and in the field. Upon assuming his duties in August 1968, Mr. O'Connell was quick to grasp the general scope and nature of these varied and complex activities. He is an alert and intelligent supervisor and he recommended and put into effect several significant personnel and organizational changes within his Directorate which have resulted in significant improvement in the overall efficiency and effectiveness of the Directorate. Recently, he was instrumental in creating a new Overseas Security Support Division made necessary by the dissolution of this Office's regional security staff in Frankfurt, West Germany. He is an astute manager and an

effective supervisor. He brings to the performance of his duties broad knowledge and experience of security procedures and practices. He has been most effective in keeping a close rein on budgetary obligations within his Directorate.

4. Mr. O'Connell is personable and articulate and is able to express himself well in both written and oral form. His career is marked by steady advancement and consistently high level performances. He possesses all of the requisite qualities of a senior Security executive. However, I feel that he has not as yet applied all of these qualities to their maximum potential in his performance as DD/PTOS. Mr. O'Connell has one Division Chief who is extraordinarily capable and effective in producing results. Conversely, however, he presents one of the most difficult supervisory problems in the Office because of certain personal characteristics. I don't feel, and I believe that Mr. O'Connell would agree with me, that he has yet gotten on top of this individual as well as he should. I am convinced, however, that he is fully aware of the problem and is working hard to achieve the proper supervisory balance. I rate his performance, on balance, as STRONG with many outstanding features. I have complete confidence in Mr. O'Connell's ability, judgment and excellent potential. He is a valued career asset to this Office and the Agency.

Chief, Executive Staff

1. Mr. O'Connell has served as Chief, Executive Staff of this Office from 1 April 1967 to 31 March 1968, the rating period covered by this Fitness Report.

2. Mr. O'Connell has been most effective in the administration and direction of the complex and varied activities encompassed in the functions in the Executive Staff of this Office. He has been effective in directing the staff in the formulation and implementation of basic security policies and procedures. In addition, he has performed diligently in continuing review of the considerable volume of paper that transits the Office of the Director of Security. He has been meticulous in ensuring that staff work and correspondence leaving this office is up to the highest standards and has been very effective in arranging priority action in meeting short deadlines. As the initial professional recipient of the majority of correspondence received by this Office for action, he has been very effective in applying his knowledge of the basic organization of the Office to the assignment of action with appropriate coordination.

3. Mr. O'Connell is a personable and articulate senior executive who writes particularly well. He has had extensive experience as a Security careerist, both in Headquarters and overseas, and his career has been marked by rather rapid advancement and a record of fine performances in positions of increasing responsibility. I have no reservations about rating his performance in this position over the past year as OUTSTANDING.

4. In searching for an area where Mr. O'Connell might strive for further improvement, I am hard put to find any in the light of his consistently high performance record. I do believe, however, that Mr. O'Connell has lost or appears to have lost some of his enthusiasm and eager initiative which marked his performance for the first six months in this position. It is possible that this is due to the fact that the problems we encounter today require more measured and considered judgment as opposed to enthusiasm and initiative. Nonetheless I would like to see Mr. O'Connell strive for a better balance in these essential performance characteristics

5. Mr. O'Connell has seen this report.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Narrative Fitness Report
Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

1. This Fitness Report covers the period from 1 April 1971 to 31 March 1972. The rating period covers the third full year that Mr. O'Connell has served as the Deputy Director of Security for Physical, Technical and Overseas Security.

2. The directorate which Mr. O'Connell supervises is geographically widely separated in the Headquarters area. This separation adds complexities to the task of supervising the directorate and coordinating the activities of three Divisions, operating over a broad spectrum of activities and responsibilities. During the reporting period, one of the Divisions of Mr. O'Connell's directorate took on an important, added responsibility--the security of automatic data processing. This function covers the complexity of maintaining security in a rapidly expanding activity replete with serious security problems because of the severe compaction of information resulting from rapid advances and acceptability of technology in the field of data handling. The achievements of the Physical Security Division, the Technical Division, and the Overseas Security Support Division require a high degree of coordination in order to avoid contradictions detrimental to a unified security policy.

3. In spite of the difficulty of supervising divisions remotely located from his office, Mr. O'Connell has applied and achieved effective supervision. The Divisions moved forward in an

innovative manner and have been effective in discharging their responsibilities.

4. Mr. O'Connell also spearheads the security program which furnishes Security Officers to overseas stations and domestic operations as necessary. Mr. O'Connell has taken a personal interest in this activity and has been of considerable assistance to the Office of Security Career Board in the assignment of Security careerists to those positions.

5. During the last Fitness Report, the description of Mr. O'Connell's performance was raised from "Strong" to "Outstanding." He has continued his performance in such a manner as to warrant an OUTSTANDING rating.

6. Mr. O'Connell has seen this Fitness Report.

Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

1. This is a narrative Fitness Report which covers the period from 1 April 1970 through 31 March 1971.

2. During this entire period, Mr. O'Connell has served as the Deputy Director of Security for Physical, Technical and Overseas Security. The rating period covers his second full year in that position. The Directorate which Mr. O'Connell heads has gained added importance and increased attention during the year. It encompasses an area of activity which is vitally important to the Office of Security and the Agency as a whole. Mr. O'Connell has given considerable attention to efforts which decrease our vulnerability at the hands of foreign opposition as well as from domestic efforts resulting from national unrest. Mr. O'Connell has shown improvement in the over-all coordination of his responsibilities throughout the current rating period. He supervises his people in an effective manner and anticipates problems so as to simplify their solutions.

3. During the previous rating period, Mr. O'Connell's performance was considered to be STRONG with several outstanding features. During the year, I consider that there has been sufficient addition to the outstanding areas of his performance to raise his over-all rating to OUTSTANDING.

Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

1. This Fitness Report covers the period from 1 April 1969 through 31 March 1970.

2. The rating period covers the first full year that Mr. O'Connell has served as Deputy Director of Security for Physical, Technical and Overseas Security at the GS-16 level.

3. The year encompassed in the rating period has seen myriad complex and varied additional responsibilities develop within Mr. O'Connell's Directorate. Specifically, he has supervised the activation and implementation of the Overseas Security Support Division, a new component within the Office and an extremely important one. He has supervised the first full year of implementation of the Interagency Training Center at Hedgeneck, Maryland, which falls within the purview of the Chief, Technical Division. Finally, he has been a participant in an overall survey of the security of the Headquarters Building and has supervised the Chief, Physical Security Division in developing and applying new physical security techniques and realistic principles of physical security. Mr. O'Connell is a capable and efficient supervisor. He is a veteran in the Office of Security and has a knowledge of all of the various ramifications of the Agency's total security mission.

4. Mr. O'Connell is poised and expresses himself very well, both in oral and written form. I evaluate Mr. O'Connell's performance over the past year as STRONG with several outstanding features. I have confidence in his judgment and ability and consider him a valuable career asset of this Office. His has been a difficult task in that as well as assuming new and additional functions, he has been burdened with the supervision of one Division Chief who has proven to be extremely difficult to handle over the years. In fairness to Mr. O'Connell, I should add that no one in this Office has been particularly effective in supervising this individual who is now slated for early retirement. I believe that with this individual's departure Mr. O'Connell should be able to achieve a more coherent integration of his Directorate's functions in the interest of further efficiency and effectiveness.

SUBJECT : Narrative Fitness Report
Mr. James P. O'Connell
Deputy Director of Security for
Physical, Technical and Overseas Security

OC 7784- SEC-SS

1. This Fitness Report covers the period from 1 April 1968 through 31 March 1969.

2. Mr. O'Connell was appointed Deputy Director of Security for Physical, Technical and Overseas Security in August 1968 and this Rating covers his performance during this period as well as his performance as Executive Officer from 1 April 1968 to 1 August 1968.

3. Mr. O'Connell, as Deputy Director of Security for Physical, Technical and Overseas Security, is responsible for the supervision of three large and complex divisions of this Office. In addition, he is responsible for providing policy and technical guidance to our Area Security Officers assigned to other components of the Agency and in the field. Upon assuming his duties in August 1968, Mr. O'Connell was quick to grasp the general scope and nature of these varied and complex activities. He is an alert and intelligent supervisor and he recommended and put into effect several significant personnel and organizational changes within his Directorate which have resulted in significant improvement in the overall efficiency and effectiveness of the Directorate. Recently, he was instrumental in creating a new Overseas Security Support Division made necessary by the dissolution of this Office's regional security staff in Frankfurt, West Germany. He is an astute manager and an

OC

[illegible]

effective supervisor. He brings to the performance of his duties broad knowledge and experience of security procedures and practices. He has been most effective in keeping a close rein on budgetary obligations within his Directorate.

4. Mr. O'Connell is personable and articulate and is able to express himself well in both written and oral form. His career is marked by steady advancement and consistently high level performances. He possesses all of the requisite qualities of a senior Security executive. However, I feel that he has not as yet applied all of these qualities to their maximum potential in his performance as DD/PTOS. Mr. O'Connell has one Division Chief who is extraordinarily capable and effective in producing results. Conversely, however, he presents one of the most difficult supervisory problems in the Office because of certain personal characteristics. I don't feel, and I believe that Mr. O'Connell would agree with me, that he has yet gotten on top of this individual as well as he should. I am convinced, however, that he is fully aware of the problem and is working hard to achieve the proper supervisory balance. I rate his performance, on balance, as STRONG with many outstanding features. I have complete confidence in Mr. O'Connell's ability, judgment and excellent potential. He is a valued career asset to this Office and the Agency.

MEMORANDUM FOR: Director of Personnel

THROUGH : Deputy Director for Support

SUBJECT : Narrative Fitness Report
James P. O'Connell
Chief, Executive Staff

1. Mr. O'Connell has served as Chief, Executive Staff of this Office from 1 April 1967 to 31 March 1968, the rating period covered by this Fitness Report.

2. Mr. O'Connell has been most effective in the administration and direction of the complex and varied activities encompassed in the functions in the Executive Staff of this Office. He has been effective in directing the staff in the formulation and implementation of basic security policies and procedures. In addition, he has performed diligently in continuing review of the considerable volume of paper that transits the Office of the Director of Security. He has been meticulous in ensuring that staff work and correspondence leaving this office is up to the highest standards and has been very effective in arranging priority action in meeting short deadlines. As the initial professional recipient of the majority of correspondence received by this Office for action, he has been very effective in applying his knowledge of the basic organization of the Office to the assignment of action with appropriate coordination.

3. Mr. O'Connell is a personable and articulate senior executive who writes particularly well. He has had extensive experience as a Security careerist, both in Headquarters and overseas, and his career has been marked by rather rapid advancement and a record of fine performances in positions of increasing responsibility. I have no reservations about rating his performance in this position over the past year as OUTSTANDING.

4. In searching for an area where Mr. O'Connell might strive for further improvement, I am hard put to find any in the light of his consistently high performance record. I do believe, however, that Mr. O'Connell has lost or appears to have lost some of his enthusiasm and eager initiative which marked his performance for the first six months in this position. It is possible that this is due to the fact that the problems we encounter today require more measured and considered judgment as opposed to enthusiasm and initiative. Nonetheless I would like to see Mr. O'Connell strive for a better balance in these essential performance characteristics

5. Mr. O'Connell has seen this report.

4. YOUR TRAINING OBJECTIVES
A broad orientation of the ADP field both in and out of government.

5. EVALUATION OF PROGRAM (*Include: a. Strengths and weaknesses of program. b. Identify any outstanding speakers and their specific topics or area of instructional competence.*)

I found the seminar extremely informative and worthwhile from the standpoint of examining the historical progression of the ADP from several points of view. All the speakers were highly qualified in their particular field and their presentations were well prepared. All were exceptionally apt in fielding questions.

Mr. Bert Engelhardt, Associate Director, ADP Management Center, CSC, was a gracious host and handled his role as moderator in a truly professional manner. He has an engaging, friendly personality and is effectively articulate. If I were to single out any weakness it would be Mr. Engelhardt's lecture. He spoke on the Systems Analyst. In his presentation he seemed not to take into consideration the professional level of the group and devoted an inordinate amount of time on basic managerial precepts. This seemed to have an irritating effect on the participants who by virtue of their positions had considerable experience in the management field.

Overall I would say, notwithstanding the above observation, it is an interesting and effective program.

SUBJECT : James P. O'Connell
Fitness Report

1. This memorandum will supplement the information contained in Mr. Victor R. White's memorandum of 10 April 1967, since Mr. O'Connell was reassigned to the position of Chief, Security Policy and Executive Staff on 9 January 1967.

2. This then covers the period from 9 January 1967 to 31 March 1967. During this period, Mr. O'Connell quickly justified the selection for this key position in the Office of Security and has already begun to demonstrate his executive talents in this position.

3. Although the period for which he is being rated in this position is too short to be characterized definitively or finally, I would say that his progress thus far justifies an unqualified rating of "Outstanding".

(Fitness Report)

This is an annual Fitness Report on the above employee for the period ending 9 January 1967. Mr. O'Connell was reassigned from Assistant Deputy Director of Security (IOS) to Chief, Security Policy and Executive Staff, and the Director of Security will add comments for the remainder of the rating period ending 31 March 1967.

As Assistant to the DDS(IOS), Mr. O'Connell applied exceptional executive talent in sharing with me the responsibility for the direction of the investigative and operational support programs in the Office of Security. It is felt that Mr. O'Connell made an outstanding contribution to the management of IOS at a time of the heaviest work pressures in our history. Mr. O'Connell has a calm, clinical approach to work problems, and his solutions to these problems reflect the soundness of his judgment and the breadth of his experience. He expresses himself clearly and concisely in both writing and speech. As Assistant DDS(IOS), he demonstrated sound management concepts and acute cost consciousness. His strength as a supervisor is reflected in the universal respect he enjoys among all subordinates.

SUBJECT : O'CONNELL, James P.
(Fitness Report)

1. This is an Annual Fitness Report on the above employee for the period ending 31 March 1966. Mr. O'Connell is currently assigned as Assistant Deputy Director of Security (IOS), a position he assumed in September 1965. He was promoted to GS-16 at the time he assumed these responsibilities on the basis of a long period of distinguished service that was culminated in his assignment as Regional Security Officer for the Far East.

2. As my Assistant, Mr. O'Connell shares with me the responsibility for the direction of the investigative and operational support programs of the Office of Security. He brings to this position a wealth of experience, sound management concepts, and the ability to meet and solve complex administrative problems. I have implicit confidence in his judgment, and he enjoys the full respect of all of his associates. Mr. O'Connell has made an outstanding contribution to the management and direction of IOS at a time when our work load is the highest in history. He is susceptible to innovation and has a keen appreciation of cost factors in meeting his managerial responsibilities. He has a unique ability to put work problems in the proper focus, does his job without fanfare, and maintains extremely high standards of work accomplishment.

3. Mr. O'Connell's performance fully justifies his promotion to the supergrade level and, in the relatively short time he has been in his current assignment, his overall performance is considered unusually strong with many outstanding aspects.

TRAINING REPORT

MANAGERIAL GRID SEMINAR (50 hours) **DATES:** 8-13 May 1966

Student : James P. O'Connell, Jr. **Office** : OS

Year of Birth: 1917 **Service ~~Designation~~** SS

Grade : 16 **No. of Students** : 33

EOD Date : December 1951

COURSE OBJECTIVES AND METHOD

Course objectives are to aid participants to: learn the managerial theories contained in the Grid; understand their personal managerial styles in Grid terms; evaluate convictions about managerial values; develop team action skills; increase candidness of communication; strengthen the use of critique for problem-solving and learning; and acquire an appreciation of Organization Culture and Development.

The method of learning offers a challenge to all participants regardless of level or experience. A Grid Seminar is not "taught" in the usual sense. In Grid teams, participants solve complex management problems. Objective solutions are made available. Individual and team performance is repeatedly assessed. Various measuring instruments are used to evaluate effectiveness.

Critique sessions assist each participant to understand how he might change his own behavior to increase his problem-solving effectiveness. Thus managers are not told the best way to manage, but they learn by convincing themselves.

About twenty to thirty hours of study are completed as prework. Insights gained are deepened and personalized during the intensive 50-hour Seminar.

ACHIEVEMENT RECORD

This is a certificate of attendance only. No attempt was made to evaluate student achievement in this course.

MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT: [redacted] James P. O'Connell
Period 12 September 1964 - 31 March 1965

[redacted], chief of the Regional KUSODA Support Staff for nearly three years, is 48 years old and a career employee with more than 13 years service. Although this has been his first overseas tour, he and his family are well adjusted to foreign assignment, and he is apparently able and willing to serve in any position offered.

As the senior KUSODA officer in the Far East, he directs the activities of six officers on his own staff as well as supervises and provides guidance to all other KUSODA officers assigned in the Far East; in addition he monitors the performance of three other KUSODA officers attached to this Station. In this supervisory role, he has an excellent insight into the abilities of his staff and definitely holds the respect of his subordinates.

As the senior KUSODA officer he is my principle adviser on many KUSODA matters. His judgment is mature, his evaluations usually sound. He is dependable and I believe his loyalty to our service and his superiors is above question.

He operates his staff well, is cost conscious and requires an absolute minimum of supervision from Station command.

He maintains excellent liaison relationships with other island services.

[redacted] will continue to develop and can assume positions of greater responsibility.

I rate this officer as Strong--on the high side.

A full fitness report was prepared by me on this officer on 15 April and therefore this memorandum, being prepared in connection with my transfer, will merely supplement the previous report.

During the past five months I have had further evidence to substantiate the statements made concerning [redacted]s maturity and dependability. He has been my chief counselor in a recent reappraisal of standards of behavior from a security standpoint. His opinions and advice are always carefully thought through, devoid of fear induced over caution, and realistic.

[redacted] continues to be a good supervisor. He knows his people, their capabilities and limitations. They respect him for his leadership.

In liaison with other security activities [redacted] has established excellent relationships which have frequently proven their value. He has considerable talent for liaison which should be kept in mind in selecting his next assignment.

I concur in the attached evaluation of Mr. James O'Connell's performance for the period 31 March 1963 to 31 March 1964. MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT: [redacted] James O'Connell, GS-16

Period 31 March 1963 - 31 March 1964

James O'Connell
[redacted] is Chief, Regional Security Staff, FE. As such he has performed a fine job in meeting the requirements of FE Stations for security services and in gaining acceptance for the security program. The requirements have been considerably accelerated during past months due to the unsettled conditions in the FE Area. Also support to Headquarters projects has been added to the security office. Perhaps too frequently a job which falls to the station and which cannot be properly identified with one component falls to the Regional Security Staff. O'Connell [redacted] while keeping his eye on his primary responsibilities has been most helpful and cooperative in handling secondary duties.

He is a mature officer, seasoned by experience and training. He is calm and poised in crisis situations. His dependability and personality are genuine assets to the Station.

O'Connell
[redacted] is a good supervisor who promotes team work among his people, who is opposed to waste, and has demonstrated his interest in efficiency and economy.

O'Connell
[redacted] makes a sincere effort to separate the Regional Security office from the Station Security office, however, this is difficult if not impossible to do. Perhaps the Station is as much to blame as the overlapping of the various security functions. Surely it is understandable that the Chief of Station wants the best advice he can get on a security matter of concern to him and will turn to the senior officer available. This is an especially tempting recourse with such a fine officer as [redacted] close at hand.
O'Connell

He has responded well to the call for economy and although he has little latitude in this respect he has instituted some restrictions that will result in savings. He writes lucidly and succinctly.

I am pleased that he is to be at this Station for another year.

Introduction to Intelligence has four objectives: (1) to instruct the student in the basic concepts of intelligence and the role of national intelligence within the Government; (2) to describe the intelligence community: its members, their duties, and their relationship to CIA; (3) to define and describe the functions of CIA and identify the components performing them; and (4) to explain the processes and means by which CIA fulfills its responsibilities for collection, production, and dissemination of intelligence.

Lectures given by Orientation Faculty members and guest speakers take up about half the time; seminar and review exercises, about one fourth; and study periods and training films, the remaining quarter. An Intelligence Products Exhibit, representing all the Offices of the DD/I, puts on display the products of those Offices and by visual aids demonstrates the activities of each Office.

ACHIEVEMENT RECORD

Student achievement is judged on the basis of a 40 item multiple choice test on course content given the last day of the course. On the basis of this test each student is given an adjectival rating. SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

His approach in this respect is from a general overall standpoint with considerations and actions taken which indicate his ability to consider problems in terms of their general implications to the Division rather than to his specific operation. More specifically, his performance has been noteworthy because it demonstrates a comprehensive knowledge of security problems and the administration of the Security Office. Constantly he is called upon to represent the Division and SO in negotations and conference with representatives of other components of the Agency regarding specific operational problems. SUBJECT: Commendation for [redacted]

Ernest.dem Berkaw

1. When [redacted] was moved to Saigon/O'Connell on rather short notice, I named [redacted] as Acting D/COS. He served in this capacity from early April until his departure on 16 June 1965.

2. Within a matter of days he was performing the assigned duties in a superior manner. He most certainly demonstrated sound judgment, dependability and mature tolerance. The latter is an essential for the daily problems unique to any post type service.

3. As to his executive or leadership qualities I believe I can save several paragraphs by stating simply that within a week of assuming his new assignment I left on a 6-day TDY and within 30 days departed south for over 3 weeks and in each case departed with absolute assurance the Station was in good hands, and it was.

4. I would appreciate it if this document could be passed to Chief, KUSODA and if appropriate a copy placed in his personal file.

Reviewer Comments: Subject has placed emphasis on his required responsibility as contrasted to Okinawa security problems. This emphasis plus his personality and professional reputation has enabled a definite contribution to the Regional Far East security function, in spite of the fact that there is an inherent tendency to bypass Okinawa on security matters since it is not in the command channel to all FE Stations.

UNITED STATES INFORMATION AGENCY
WASHINGTON

January 26, 1961

Dear Shef,

I would like to take this opportunity to belatedly express the sincere appreciation of both my office and the Broadcasting Service of this Agency for the assistance rendered by employees of your staff, Mr. James O'Connell and Mr. Ervon Kuhnke in September and December of last year. This assistance consisted of picking up tape recordings prepared by Radio Moscow in the possession of Mr. Paul Frederick Dauer, 1923 De La Vina Street, Santa Barbara, California and delivering them to my office for the information of our Broadcasting Service. In addition to this service, Mr. Kuhnke of your staff readily volunteered to see that these tapes were returned to Mr. Dauer and this latter service was performed last month.

The excellent spirit of liaison co-operation evidenced by your staff is most gratifying to me and it is hoped that I might be of service in some similar matter in the future.

Sincerely,

Paul J. McNichol, Director

THROUGH : Deputy Director (IOS)

SUBJECT : Commendation

1. Upon your reassignment from Chief, Operational Support Branch to Deputy Chief, SSD, I wish to forward my personal commendation for your many years of outstanding performance in operational support. You have displayed not only an unusual aptitude in the security handling of support, but have evidenced a highly professional intelligence approach to the many problems given you. As example, I cite a recent case where through certain assets of this office, you arranged for and directed the spotting, recruitment, briefing, cover and cut-out arrangements for an agent engaged in a very sensitive operation of interest to the highest authorities in the Agency, and conducted it on an "Eyes Only" basis.

2. In this operation, as in many others, you have exercised imagination with both judgment and discretion; all of which has brought great credit to this office, the Deputy Director (IOS), your Division, and, of course, yourself.

3. I congratulate you and am confident of your continued success in the office and in the Office of Security Career Service.

4. I am arranging to file copies of this letter in your Personnel and Administrative files.

MEMORANDUM FOR: Director of Security

SUBJECT: Commendation of Security Office Personnel

1. It is with pleasure that I wish to pass to your Special Security Division a personal commendation of two officers who have assisted materially in the establishment and continued successful management of the AEFILTER project.

2. Confronted with a sudden requirement to deploy several security officers to a new activity here in the United States, Mr. James P. O'Connell, Jr., contributed materially to the project in the coordination of several neighborhood checks, re-assignment of several Security Office personnel, the preparation of two safe houses on short notice, and the reception of sensitive alien personnel under the strictest security precautions. Mr. O'Connell has put in many hours on this project, well beyond his normal routine, and several times at great personal inconvenience.

3. I wish, at the same time, to commend specifically the security officer who went under the operational alias of [redacted] [redacted]. This officer supervised five other highly qualified and experienced officers in the preparation of elaborate house-breaking safeguards for the first safe house acquired under Project AEFILTER. [redacted] Carter did his job not only thoroughly but quite cheerfully, despite actual personal hardship.

William J. Carter

4. It is all too seldom that the Divisions get around to giving credit where it is due, even in the domestic activities of DD/P. In these two cases, however, I feel that this commendation is the least token that can be proffered to two devoted and skilled civil servants.

5. I suggest that copies of this memorandum be included in the personnel files of both Mr. O'Connell and [redacted] Carter

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—It is the duty of the appointing officer to guard against impersonation and to determine beyond reasonable doubt that the appointee is the same person whose appointment was authorized. The appointee's signature and handwriting are to be compared with the application and or other pertinent papers. If the appointee qualified in a written examination, the signature on this form should be compared with the signature on the declaration sheet, which was signed in the examination room. His physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members-of-family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

Sandra B. CAZAZZUS, Contract Provisions

Reference: HMMT-9892

1. Reference indicated Sandra B. CAZAZZUS is a Contract Employee who is required to perform her duties during various hours of the day as well as a varying number of hours in order to meet operational deadlines.

Reference asked that the contract for CAZAZZUS be amended to provide reimbursement of six hours per day when in a leave status and for paid holidays retroactively to 8 September 1967.

2. The request is answered by the Station's explanation--unless and until there has been established in advance a regular tour of duty, an individual is not eligible for leave or holiday pay (see FHB 20-1 and FR 20-13).

In the event the basic criteria is met (FHB 20-1), the effective date could not be retroactive.

?

Your comments please. Subject's contract already provides for sick and annual leave effective 15 July 64, and she is considered a part-time contract employee on a regularly scheduled tour of duty. Subject's contract does not provide for overtime and holiday time. Her contract would have to be amended to include this provision.

6-8 Pls advise that under terms of contract cannot approve Para 3 request.

2. Even though CAZAZZUS' contract allows her annual and sick leave benefits, she has not been reimbursed for any leave during the period 8 September 1967 to the present. In addition, the Station has not reimbursed her for any holidays, WOLADY or local, while other contract employees whose contracts call for a regularly scheduled tour of duty, have received compensation.

3. Since subject has worked an average of 30 hours per week, with Headquarters concurrence, it is recommended that she be reimbursed six hours per day when in a leave status and for paid holidays retroactively to 8 September 1967, the effective date of her present contract.

ADM/JBCENT - Sandra B. CAZAZZUS (p) - Revision of Tax Assessment Rate

REFERENCE: Letter of Tax Instruction, HMMS-5711, 14 Dec 1967

1. Please advise FEINGLASS that his flat rate percentage tax assessment has been revised by the Tax Staff from thirteen and nine-tenths (13.9) per cent, established by reference, to twenty and eight-tenths (20.8) per cent, effective 29 June 1969, T/Y 1969. This revision is necessary as his income and tax position have changed to such a degree as to make the previous tax assessment rate unrealistic. A computation of the revised tax rate is attached.

2. This assessment revision is incorporated by reference as an amendment to FEINGLASS' Letter of Tax Instruction.

3. From the information submitted to the Tax Staff, it appears that FEINGLASS' daughter qualifies as a dependent. The new tax computations are based on five exemptions. Also, FEINGLASS should list five exemptions on his 1969 tax return.

Fitness Reports must be prepared with due regard for security considerations. For example, in the case of administrative and support personnel and others whose duties do not in themselves reveal sources of information and methods of operation, it is normally expected that a complete and realistic statement of specific duties may be reported in Section B. However, the nature, source, purpose or disposition of information or operations will not be included. On the other hand, the position titles and description of specific duties of certain other employees may jeopardize security and should not be fully reported on this form. In these cases, general statements of specific duties will be included in Section B indicating the level of responsibility.

2. As previously discussed in a Headquarters tax briefing, this notional would not issue any tax documentation and was not to be used for any purpose other than their tax return. 1. In view of Reference B and inasmuch as Sandra B. CAZAZZUS was in the Headquarters area, a new contract was prepared granting her the benefits of Reference A. The contract was signed by CAZAZZUS and has been forwarded for related processing.

2. Attached is a copy of the contract effective 8 September 1967 for CAZAZZUS. She elected FEGLI but declined the health insurance as she is included under her husband's policy. CAZAZZUS was thoroughly briefed on the provisions of the contract as well as the provisions of her previous contract.

STATION ACTION:

As CAZAZZUS is payrolled by the Station, related deductions for the new benefits (Civil Service Retirement and FEGLI) are to be made by the Station. Social Security deductions will, of course, cease as there is no cover requirement for mandatory Social Security coverage.

3. During the briefing, CAZAZZUS inquired about the use of sick leave. She was informed sick leave can be used in the same manner and per the same regulations as when she was formerly a

staffer. The point involved was whether she had been granted sick leave during her "maternity leave" in 1965. She was advised that possibly she did receive payment covering the period which her accrued sick leave represented; and, possibly at that time she had only a minimal balance accrued.

STATION ACTION:

It is suggested the Station review her leave/pay account for the above cited period and advise her of the details involved.

Should the records reflect she had a balance but was not provided the leave, a pay adjustment may be made up to the balance at that time with an appropriate reduction of her current sick leave balance. NOTE: She was advised she could not have sick leave accrued since that time applied retroactively.

It is further suggested the Station Admin or Finance Officer conduct the briefing due to the necessity for the briefer to have a rather technical knowledge of leave.

Miss Sandra B. Cazazzus

Dear Miss Cazazzus:

The United States Government, as represented by the Contracting Officer of this organization, hereby contracts with you, as a contract employee under the terms and conditions set forth below:

1. New Benefits. By virtue of your employment relationship under this agreement you are:

(a) Covered under the Civil Service Retirement Act in conformance with rules and regulations applicable to appointed employees of this organization. From the basic compensation paid you hereunder there shall be deducted the appropriate rate percentage (presently 6-1/2%) for deposit and eventual crediting to the Civil Service Retirement Fund. Social Security deductions required by virtue of your cover activities will not be reimbursed you by this organization.

(b) Covered under the Federal Employees Group Life Insurance Act in conformance with rules and regulations applicable to appointed employees of this organization unless you execute a written waiver of such coverage. The Government is presently authorized to bear a portion of the premium cost, you will bear the remainder.

(c) Eligible for coverage under the Federal Employees Health Benefits Act in conformance with rules and regulations applicable to appointed employees of this organization. The Government is presently authorized to bear a portion of the premium cost, you will bear the remainder. Because of your eligibility under this Act (whether or not you choose to enroll), your coverage under the contract employees health program shall cease thirty-one (31) days after the effective date of this agreement.

2. Your previous contract with the United States Government, effective 15 July 1964, is herein terminated by mutual consent of the parties thereto.

3. All provisions of said previous contract not in conflict with this agreement are incorporated by reference into and made a part of this agreement.

4. This agreement is effective as of 8 September [illegible] and shall continue thereafter for two (2) years unless sooner terminated as set forth in your previous contract. If this agreement becomes effective during an overseas assignment nothing contained herein shall be construed as extending that assignment beyond its originally contemplated duration or invalidating your entitlement to return travel expenses (if applicable) upon completion of that assignment.

The [illegible] Tax Committee has approved a flat rate assessment of [illegible]/CAZARES's Federal tax obligation, beginning with tax year 1967. Attached is the letter of tax instruction which [illegible] should review. The original must be signed and returned to Headquarters.

Letter of Tax Instruction for FEINGLASS/CAZAZZUS

1. Based on discussions held with tax representatives of the Organization, an assessment of your Organizational income has been approved to satisfy your Federal tax obligation.

2. The assessment computation is based on an estimate of your taxable compensation from the Organization and your estimate of other income from outside sources. The assessment computation results in a percentage of your salary being withheld each pay period to completely satisfy your tax obligation. For tax year 1967 thirteen and nine-tenths (13.9) per cent will be withheld, effective 28 August 1967. The computation is attached.

3. In computing your assessment rate, you have been granted a basic tax credit of $250.00. This credit is not guaranteed, but is granted to give reasonable assurance that you will not pay a higher tax than you would under ordinary reporting procedures.

4. Future changes in your income or tax status may justify a revision of the assessment rate. In this event this agreement would be amended accordingly.

5. It is important that you file a tax return directly with Internal Revenue that is consistent with your cover status. Care and accuracy in preparing this return are necessary. Any tax liability resulting from the tax computation on this return will be satisfied by your own funds. A certified true copy of this tax return must be forwarded to us upon your submission of the original to Internal Revenue. Provided below are specific criteria to assist you in the preparation of the tax return:

A. You will be provided with the name of a notional organization to be used on your 1967 tax return. The only income you will report will be income shown on your (FEINGLASS) earning statement. You will not report your wife's income or tax withholding nor will you report any withholding that was made from your salary.

B. The income that is shown (using the notional as a source) will be reported on the Form 2555 (Statement to Support Exemption of Income Earned Abroad) and will be exempted from tax, due to your residence overseas. You will base your exemption on physical presence abroad. For tax year 1967 you will report your income as being earned prior to hom leave and therefore fully excludable because the qualifying period, which ended on the date you left Mexico for home leave, included an eighteen-month period abroad.

C. Other income must also be reported on this tax return, including interest from the Credit Union, which will be indicated without identifying the Credit Union by name.

6. You may request an advance of funds for payment of foreign income or related (income) taxes assessed against income received from or guaranteed by the Organization. Accounting for these funds will be made in the form of copies of the receipted tax bills (or other acceptable tax documents) which will be forwarded to the home office for approval and write-off of expense.

7. Please acknowledged the original of this letter and return to Headquarters, attention: Covert Tax Committee.

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

This is the first time a fitness report has been prepared on CAZAZZUS herself, although previous fitness reports on her husband, Douglas J. FEINGLASS, have mentioned ~~her~~ valuable contribution. She and FEINGLASS continue to work as an excellent team. CAZAZZUS works conscientiously and quickly and saves the Station a great deal of time in the routine processing of paper and tapes. Her interest in the subject matter and her analytical ability enable her to weed out superfluous material and assist FEINGLASS in his translations and analyses.

However, the nature, source, purpose or disposition of information or operations will not be included. On the other hand, the position titles and description of specific duties of certain other employees may jeopardize security and should not be fully reported on this form. Mrs. Anna A. ~~Tasiroff~~ Tarasoff

Dear Mrs. Thasroff:

The United States Government, as represented by the Contracting Officer, hereby contracts with you, as a Contract Employee, for the use of your services and the performance of duties of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the use of your services and the performance of specified confidential duties, you will be compensated in an amount calculated at the rate of $2.53 per hour. Payments will be made as directed by you in writing in a manner acceptable to the Government. Taxes will be withheld therefrom and submitted by the United States Government.

2. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs or legal representatives under this paragraph will be processed by the Government in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to sick and annual leave equal to and subject to the same rules and regulations applicable to Government employees. Such annual leave may only be taken at times and places approved in advance by appropriate representatives of the Government.

(c) You will be entitled to continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U.S.C.A., App. 1001-1015).

(d) The Government will withhold from the compensation due you under this agreement social security deductions in conformance with the basic social security legislation, as amended, and the procedures of this Organization. For reasons of security, all inquiries concerning your relationship to the social security system shall be made directly to this Organization, and in no event may any such problem be presented by you or on your behalf to any representative of the governmental unit responsible for implementing the social security program.

3. Execution of Documents. If in the performance of services under this contract you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has, in fact, been purchased with monies of the U.S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

4. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

5. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

6. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

7. Term. This contract is effective as of [illegible], and shall continue thereafter for a period of two (2) years unless sooner terminated either:

(a) By thirty (30) days' actual notice by either party hereto, or

(b) Without prior notice by the Government in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR: **Mr. Guy Vitale** **20 October 1965**

THROUGH : Head of **D** Career Service

SUBJECT : Notification of Non-eligibility for Designation as a Participant in the CIA Retirement and Disability System

1. As you may know, we are in the process of reviewing the employment history and current career field of all employees ~~in the~~ Agency to identify those who are eligible for designation as a participant in the new CIA Retirement and Disability System. In this process, the initial review of each case is made by the individual's Career Service. If the Head of his Career Service nominates him for participation in the system, this nomination is reviewed by the CIA Retirement Board which recommends final action to me. However, if the Head of the Career Service advises that the employee does not meet the basic requirements of HR 20-50 for participation, I have accepted this finding without further review by the CIA Retirement Board. This practice has been adopted in the interest of expediting this screening process so that those employees who are eligible to participate in the system may be designated participants as soon as possible.

2. In your case, the Head of your Career Service has advised me that you do not meet the requirements of HR 20-50 for designation as a participant and I have accordingly made the formal determination required by the regulation that you are not eligible for designation. From a review of your record it appears that the decision of your Career Service was based upon the fact that you have 15 years or more of Agency service, but have not as yet performed 60 months of qualifying service as required by regulation. My determination that you are not eligible at this time for designation in no way affects your current status under the Civil Service Retirement System, nor does it preclude reconsideration of your eligibility to participate in the CIA System if you should meet the requirements for designation in the future.

3. Should you desire further information concerning the requirements for designation as a participant in the CIA Retirement System, I suggest that you read paragraph e of HR 20-50 and paragraph 5 of the Employee Bulletin dated 30 July 1965, entitled "Public Law 88-643, The Central Intelligence Agency Retirement Act of 1964 for Certain Employees".

4. It is always possible that the records upon which the determination made in your case may have been incomplete or inaccurate regarding your actual employment history with the Agency. If, after studying the materials cited above, you have questions regarding the determination that you are not eligible to participate in the CIA Retirement System, please feel free to contact officials of your Career Service. They are familiar with the details of your case and will gladly discuss them with you. In addition, you may wish to discuss your case with the CIA Retirement Staff located in Room 6E-1319 Headquarters (extension 6001). If such discussions do not resolve any questions you have regarding your eligibility, you may request that your case be formally considered by the Board. However, this request must be made within 30 days of the date of this memorandum.

Mr. Vitale since he was assigned to me initially on a part-time basis and later as a full time assistant has performed adequately as an input analyst in addition to his proficient work as a Records Officer and General support assistant. The quality of his input has been good and his production has helped considerably in cutting down the size of the input backlog. Mr. Vitale also continues to perform the Records Officers function for the branch with a sound knowledge of general records procedures. His attitude and attendance record continue to reflect a willingness to assist the branch in whatever way necessary. In addition Mr. Vitale's valuable background knowledge on a former vital portion of the branch's effort continues to be utilized to a considerable extent. He gets along well with his colleagues and contributes to the smooth running of the office.

Mr. Vitale is presently within 2 years of retirement or 4 years, if he does not receive an overseas assignment. He has told the career panel, he would accept an overseas assignment to either Vietnam or Laos. In view of his experience with paramilitary operations, it is felt this would be a more fitting assignment for him than the present one, even though he has been performing quite satisfactorily.

SECTION C/Continued NARRATIVE COMMENTS

For approximately four months during 1967, Mr. Vitale worked with me in providing Headquarters' support to JMWAVE in its conduct of special operations into PBRUMEN. In such a role, Mr. Vitale's knowledge of the history, mechanics, requirements and PBRUMEN personnel of these operations was invaluable in (1) the preparation of operational proposals for the 303 Committee, (2) the provision of timely operational information periodically requested by the front offices of both WH/COG and WHD, and (3) the briefing of WOFIRM personnel newly assigned to JMWAVE to assist in these operations. While under my supervision, Mr. Vitale was a conscientious, loyal, cooperative employee who readily and willingly performed all tasks assigned to him in an exceptional manner. He always expressed his willingness to work as many hours as necessary to finish the task at hand. He has a very pleasant personality, gets along well with his fellow workers and exhibits a good sense of cost consciousness in the use of government equipment and materials. The rating letter "S" most accurately reflects the level of performance of Mr. Vitale during the period he was under my supervision.

Mr. Vitale continues to perform his duties as an operational support assistant capably. His background knowledge of Cuban paramilitary operations has provided the Branch with very useful continuity. His ability and experience in locating material and in handling records for headquarters support to WH/COG Special Operations contribute substantially to the Branch's operational support effort. Mr. Vitale carries out his assigned duties in a willing, loyal and highly dependable manner. He recently has been given an additional assignment on the CUIS Machine Input Program which he is handling in a highly efficient manner. He gets along well with his colleagues and contributes to the smooth running of the office. He does not have supervisory responsibilities, but does show concern for efficient and economical use of government property.

COMMENTS OF REVIEWING OFFICIAL

As noted in the last Fitness Report, I concur generally in the supervisor's ratings of Mr. Vitale's performance as listed; but I must again note that these are duties which could be performed by a more junior clerical type and that Mr. Vitale should not be considered as performing GS-8 level Intelligence Assistant work at a Proficient rating. Indeed, he is, in my opinion, not qualified for such a role and his official position title should be changed to prevent any misunderstanding as to the somewhat unique nature of his value to the Agency.

AUG 6 1968

Mr. Vitale since he was assigned to me initially on a part-time basis and later as a full time assistant has performed adequately as an input analyst in addition to his proficient work as a Records Officer and General support assistant. The quality of his input has been good and his production has helped considerably in cutting down the size of the input backlog. Mr. Vitale also continues to perform the Records Officers function for the branch with a sound knowledge of general records procedures. His attitude and attendance record continue to reflect a willingness to assist the branch in whatever way necessary. In addition Mr. Vitale's valuable background knowledge on a former vital portion of the branch's effort continues to be utilized to a considerable extent. He gets along well with his colleagues and contributes to the smooth running of the office.

Mr. Vitale is presently within 2 years of retirement or 4 years, if he does not receive an overseas assignment. He has told the career panel, he would accept an overseas assignment to either Vietnam or Laos. In view of his experience with paramilitary operations, it is felt this would be a more fitting assignment for him than the present one, even though he has been performing quite satisfactorily.

SECTION C/Continued NARRATIVE COMMENTS

For approximately four months during 1967, Mr. Vitale worked with me in providing Headquarters' support to JMWAVE in its conduct of special operations into PBRUMEN. In such a role, Mr. Vitale's knowledge of the history, mechanics, requirements and PBRUMEN personnel of these operations was invaluable in (1) the preparation of operational proposals for the 303 Committee, (2) the provision of timely operational information periodically requested by the front offices of both WH/COG and WHD, and (3) the briefing of WOFIRM personnel newly assigned to JMWAVE to assist in these operations. While under my supervision, Mr. Vitale was a conscientious, loyal, cooperative employee who readily and willingly performed all tasks assigned to him in an exceptional manner. He always expressed his willingness to work as many hours as necessary to finish the task at hand. He has a very pleasant personality, gets along well with his fellow workers and exhibits a good sense of cost consciousness in the use of government equipment and materials. The rating letter "S" most accurately reflects the level of performance of Mr. Vitale during the period he was under my supervision.

Mr. Vitale continues to perform his duties as an operational support assistant capably. His background knowledge of Cuban paramilitary operations has provided the Branch with very useful continuity. His ability and experience in locating material and in handling records for headquarters support to WH/COG Special Operations contribute substantially to the Branch's operational support effort. Mr. Vitale carries out his assigned duties in a willing, loyal and highly dependable manner. He recently has been given an additional assignment on the CUIS Machine Input Program which he is handling in a highly efficient manner. He gets along well with his colleagues and contributes to the smooth running of the office. He does not have supervisory responsibilities, but does show concern for efficient and economical use of government property.

COMMENTS OF REVIEWING OFFICIAL

As noted in the last Fitness Report, I concur generally in the supervisor's ratings of Mr. Vitale's performance as listed; but I must again note that these are duties which could be performed by a more junior clerical type and that Mr. Vitale should not be considered as performing GS-8 level Intelligence Assistant work at a Proficient rating. Indeed, he is, in my opinion, not qualified for such a role and his official position title should be changed to prevent any misunderstanding as to the somewhat unique nature of his value to the Agency.

Mr. Vitale's principal qualification is his background knowledge of the operational history of Cuban paramilitary operations. This has afforded the branch considerable continuity. He is a very willing worker who gets along well with fellow employees. His knowledge of and experience in handling records and locating material makes him valuable in headquarters support of WH/Cuba paramilitary case officers - a task he performs in a loyal and dependable manner.

COMMENTS OF REVIEWING OFFICIAL

I have had opportunity to observe subject's performance closely for nine months and while I generally concur in his supervisor's ratings of the duties as listed, it should be noted that these same duties could be performed equally well by a more junior Intel Clerk or Intel Assistant and, therefore, the overall rating as a GS-8 Intel Assistant does not accurately reflect his capability. In my opinion it would be very difficult, if not impossible, for subject to perform competitively with other Intel Assistants at a GS-8 level, and I recommend his position title be changed to Ops Support Assistant, a role in which he performs capably.

Mr. Vitale's longevity on the project makes his services increasingly valuable. This is particular true, in briefing and orienting new officers. He continues to do an exceptional job in assisting his office on a most complex project where many of his colleagues have transferred primarily because of the many demands and frustrations caused by this extraordinary project. Mr. Vitale continues to be a most loyal, cooperative and willing worker, getting along well with all hands. His maturity and many years of experience in his field, in addition to his great general knowledge, make him a most valued employee when compared to colleagues of similar rank. It is because of this that I have again rated Mr. Vitale very high. Although Mr. Vitale has no supervisory responsibilities and fully realizing his limited potential as a senior operations officer, I feel he is still undergraded and should be promoted to the next higher grade at the earliest opportunity. Because Mr. Vitale's job and performance have remained almost exactly the same as during the previous year, this fitness report is also very similar.

Subject continues to do an exceptional job in assisting his office in the formulation of reports and plans by his research and ability to quickly make name traces and ferret out information from the various agency sources.

During the past year subject has continued to be a most cooperative, loyal and willing worker on a project that due to its nature is more frustrating, and demands more with less apparent return than most projects. As on his previous fitness report, I have rated him very high, primarily due to the fact that ~~he's mature~~ his maturity and many years experience with the Agency have made him of much more immediate value than most of his colleagues in the GS 7-9 level. Consequently, although he has made GS-8 within the past year, I feel he is still undergraded and should be promoted to GS-9 at the earliest opportunity.

While not wishing to detract from the value of subject's duties or from the manner in which he performs them, I do have strong doubts as to whether the nature of his duties warrant promotion to GS-9 even if they were performed in an outstanding manner. During the next year additional duties of a more demanding nature will be placed on subject and I will want to weigh his performance under those circumstances before recommending promotion.

Subject has done an exceptional job in assisting his office in the formulation of reports and plans by his research and ability to quickly make name traces and ferret out information from the various agency sources concerned.

He at all times has been a most cooperative, loyal and willing worker with good security habits. Although, he does not have the ambition or drive to get to the top of the ladder that many younger officers may have (not everybody can or wants to be Chief, but can still be one of the best indians in the business), his great store of general knowledge and many years of agency experience have made him of much more immediate value than most of his colleagues in the GS-7-9 level, and it is because of this that he has received such a high rating. Mr. Vitale was assigned to the S&T Section of the German Branch on a casual basis from 1 May to 15 November 1960. His duties consisted entirely of processing name traces and POA's. Although he had little experience in this type of work, he performed his duties in a thoroughly satisfactory manner. He was always polite to his fellow employees and did his best to contribute to the smooth operation of the section.

Section 3. **Comments of Reviewing Official:**

This employee had no qualifications for assignment in the German desk or German operational field. He was carried in the German Branch in a casual status while an assignment suitable to his talents was being located. The fitness report for the period of his duty with the German Branch is accordingly only a record of the fact that he loyally and diligently carried out assigned tasks to the best of his ability.

MEMORANDUM FOR: Chief, EE Personnel

SUBJECT : Commendation - Mr. Guy Vitale

1. The Eastern European Division Logistics Office wishes to commend Mr. Guy Vitale for the manner in which he conducted himself while on temporary assignment in this office. Rather than sit idle awaiting a new assignment, Mr. Vitale volunteered his services and was given various logistical general services jobs and duties which he carried out with enthusiasm and effort rarely seen in a person in his status. We found him as an enthusiastic-willing worker who gave selflessly of his time and showed a strong devotion to duty.

2. A copy of this commendation should be made a part of the employee's permanent 201 file.

During the period under review, Subject managed to gain full-time employment as a senior executive of an [illegible] government subsidized scientific publication at a time of economic slowdown when jobs were not easy to get. He did this without help from Headquarters or the Station. Such an achievement is a tribute to Subject's fluency in French, his ability to write, his general scientific know-how and his good business sense. Over half of his salary therefore is now paid by this company. In converting to full-time employment, a major adjustment, Subject's contribution to the Station operations in the [illegible] and [illegible] fields against which he is targetted temporarily decreased somewhat. Subject continued, however, to maintain contact with three local [illegible] officials and initiated contact with three others. He also continued to search for new leads to personalities in the priority areas assigned to him. Subject has the capability to call on local scientists or technicians of just about any nationality with the possible exception of [illegible] citizens. He has used this near-unique potential well.

Subject has had occasional difficulty switching from "professional" or intellectual subjects in his development of [illegible] personalities or access prospects to more down-to-earth interests necessary --con't--

COMMENTS OF REVIEWING OFFICIAL

The Station submitted comments on Subject officer recently in [illegible]-16549 (8 April 1971), to which we should add that Subject has, largely on his own merits, acquired a solid and potentially highly useful cover employment. However, this new employment will demand a very substantial amount of time and energy from Subject, and the unanswerable question at the moment relates to his availability for Organizational tasks. We shall need additional time and careful working with this officer to determine the answer, since the fiscal outlay from the Organization to support his continued stay in Paris is still quite

to the development of human relations. His forte is therefore more in the field of spotting and making operational contacts than in that of more than short-range operational development. Subject's operational situation makes it impossible for him to attempt recruitments. Thus, his very real achievements are not by essence of the spectacular variety.

Subject's reporting has been satisfactory and continues to be copious. He could, however, further improve the selectivity of the leads provided the Station and make more of an effort to "digest" the information contained in his reports.

Although Subject has, at present, no supervisory function, he has repeatedly requested such a responsibility. He is careful with operational expenses and has exercised good security.

During the period under review, additional efforts have been made to make full use of Subject's potential and integrate him further in the work of the Station component with which he works. He is a particularly valuable asset for the Station programs directed against the local [illegible] and [illegible] targets.

Section B (continued)

substantial. In a word, is it worth it? We do not yet know, although our initial impressions are favorable.

On the fitness report itself, this rater would have preferred an "S" rating for specific duty number one; Subject may ultimately deserve an "O", but it does not seem warranted at the present time. However, I believe the overall rating would more properly have been in the higher range of the "[illegible]" category, rather than "S", but it is of course a subjective judgment of the rating officer, who is more intimately and directly involved with Subject on a frequent basis.

In sum, the cover is superb, and only time will reveal to what extent the cover requirements permit a full measure on behalf of the Organization. We are following this aspect closely and will be commenting upon it subsequently as we gain experience and knowledge.

The comments of the rating officer are limited to the period from October 1969 to March 1970 during which he worked with Subject. The previous rating officer has added his comments to allow coverage of the total indicated period from April 1969 to March 1970. During this period Subject was integrated in a new team assigned to the local S&T and Commercial [illegible] target. Subject's recent activity has been very productive indeed. Subject used the excellent potential given to him by his cover to skillfully spot and assess access agent candidates. As Subject's operational situation in Paris precludes making recruitment, the most promising of these candidates was placed in contact with a Station officer during social events Subject organized. At the same time, Subject continued his efforts to develop personal relationship with several [illegible]ers. The beginning of personal, as opposed to purely professional, relations with a major [illegible] target enabled him to obtain insight into the target's beliefs and personality which was the best the Station had to date. Subject also managed to establish contact with two other [illegible] representatives of interest. This, in one case, required almost six months to accomplish via a combination of patience, skill and determination. Subject is an experienced officer. He is cost conscious and practices good security. The Station has no other asset with the necessary scientific and editorial know-how, fluent French and local knowledge to replace Subject. In view of this and the recent progress made by Subject in response to very specific requirements and his willingness to try to establish personal and, hopefully, social relations with access prospects and [illegible] targets, the Station recently recommended that he be extended in Paris. At the same time, the Station recommended that Subject's cover be reinforced by full-time employment with Subject's current [illegible] employer.

COMMENTS OF REVIEWING OFFICIAL

As previous Station correspondence and fitness reports will reflect, this officer has been the subject of varying evaluations and projections in recent years. In fairness to him, however, it is equally true that an officer under non-official cover reflects, in the level and quality of his performance, the amount and type of guidance, direction and push he receives from the responsible inside case officer. Making allowances for these variables, this officer's past record has not been impressive; however, it is also correct to note that he has improved substantially during the latter part of the period under review, and that if the Station can work out some fiscal arrangement which will reduce the heavy financial input

Section F 3 continued

from the Organization. His continued presence at this Station definitely appears to be warranted for a sufficient period to reach more definite conclusions concerning the level of sustained performance over a somewhat longer period than that reflected by this report.

On balance, we are pleased that this officer has responded so well to greater case officer direction and that he has undertaken somewhat more aggressive efforts to expand his personal contacts in immediate proximity to the primary Station targets. This officer does bring many talents to bear on his operational activity: he has absolutely fluent French, a solid and exploitable cover, and a vast range of contacts in the local community. Nonetheless, it will require additional drive to explore these contacts in depth, select those which appear to be operationally viable, and pursue them actively either to the point of recruitment by another officer or elimination from further development, for whatever reason.

In sum, in spite of the recognized and commendable improvement in this officer's performance during the period under review, the reviewer submits that the letter grade for specific duties 3 and 4 would more properly have been a "P", and that the overall rating, at this point, would more accurately be set at a level between "P" and "S", probably closer to the former than the latter.

This reviewing comment has been read by the officers who prepared the Fitness Report.

SECTION C

NARRATIVE COMMENTS

The assignment of this employee to the field under non-official cover was designed to compensate for the loss of an employee in an official cover slot which was cut from the Station's CE/SID allotment of personnel positions.

During the reporting period this employee has accomplished with success the convincing establishment of his cover in a complex milieu, and has been accepted as legitimate by his professional colleagues, the persons whom he meets under cover, and the French authorities. It should be noted that his ability to assume his cover has been largely the result of his own efforts over a period of years to acquire and maintain a familiarity with the general scientific field.

During the reporting period he has developed a wide circle of contacts in the scientific and journalistic fields and applies a long background in a variety of assignments in KUDOVE to the determination and assessment of operational potential among these contacts. At the same time his cover organization, in which only four persons are witting of his actual status, has shown itself to be more than satisfied with his performance of his cover duties.

This employee requires a minimum of detailed operational supervision; it is necessary in specific cases only to indicate the operational or informational objectives.

From the point of view of administrative support, his attention to detail and meticulousness reduce the problems of his support by the Station to a minimum.

This employee uses the French language continuously, and his facility is such as to permit him to handle himself excellently in a broad range of complex technical subjects. He has in addition undertaken specialized French language training to develop this capability further. His operational reporting is excellent both with regard to clarity and pertinence.

In the immediate future he will be assigned case work, for the most part in fields where it will complement, and be complemented by, his independent operational activities and cover work.

SECTION B — PERFORMANCE EVALUATION

U–Unsatisfactory	*Performance is unacceptable. A rating in this category requires immediate and positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.*
M–Marginal	*Performance is deficient in some aspects. The reasons for assigning this rating should be stated in Section C and remedial actions taken or recommended should be described.*
P–Proficient	*Performance is satisfactory. Desired results are being produced in the manner expected.*
S–Strong	*Performance is characterized by exceptional proficiency.*
O–Outstanding	*Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.*

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

SECTION C — NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

During the period under review, Subject managed to gain full-time employment as a senior executive of an HBSPRITE government subsidized scientific publication at a time of economic slowdown when jobs were not easy to get. He did this without help from Headquarters or the Station. Such an achievement is a tribute to Subject's fluency in French, his ability to write, his general scientific know-how and his good buisness sense. Over half of his salary therefore is now paid by this company. In converting to full-time employment, a major adjustment, Subject's contribution to the Station operations in the MHHARSH and TPFAST fields against which he is targetted temporarily decreased somewhat. Subject continued, however, to maintain contact with three local MHHARSH officials and initiated contact with three others. He also continued to search for new leads to personalities in the priority areas assigned to him. Subject has the capability to call on local scientists or technicians of just about any nationality with the possible exception of TPFAST citizens. He has used this near-unique potential well.

Subject has had occasional difficulty switching from "professional" or intellectual subjects in his development of MHHARSH personalities or access prospects to more down-to-earth interests necessary --con't--

3. COMMENTS OF REVIEWING OFFICIAL

The Station submitted comments on Subject officer recently in OFPT-16549 (8 April 1971), to which we should add that Subject has, largely on his own merits, acquired a solid and potentially highly useful cover employment. However, this new employment will demand a very substantial amount of time and energy from Subject, and the unanswerable question at the moment relates to his availability for Organizational tasks. We shall need additional time and careful working with this officer to determine the answer, since the fiscal outlay from the Organization to support his continued stay in Paris is still quite

Section C (continued)

to the development of human relations. His forte is therefore more in the field of spotting and making operational contacts than in that of more than short-range operational development. Subject's operational situation makes it impossible for him to attempt recruitments. Thus, his very real achievements are not by essence of the spectacular variety.

Subject's reporting has been satisfactory and continue to be copious. He could, however, further improve the selectivity of the leads provided the Station and make more of an effort to "digest" the information contained in his reports.

Although Subject has, at present, no supervisory function, he has repeatedly requested such a responsibility. He is careful with operational expenses and has exercised good security.

During the period under review, additional efforts have been made to make full use of Subject's potential and integrate him further in the work of the station component with which he works. He is a particularly valuable asset for the Station programs directed against the local MHHARSH and TPFAST targets.

Section D (continued)

substantial. In a word, is it worth it? We do not yet know, although our initial impressions are favorable.

On the fitness report itself, this rater would have preferred an "S" rating for specific duty number one; Subject may ultimately deserve an "O", but it does not seem warranted at the present time. Moreover, I believe the overall rating would more properly have been in the higher range of the "P" category, rather than "S", but it is of course a subjective judgment of the rating officer, who is more intimately and directly involved with Subject on a frequent basis.

In sum, the cover is superb, and only time will reveal to what extent the cover requirements permit a full measure on behalf of the Organization. We are following this aspect closely and will be commenting upon it subsequently as we gain experience and knowledge.

1. DATE OF BIRTH: 20 I 1924

2. SERVICE DESIGN: CS

3. YOUR CURRENT POSITION, TITLE AND GRADE: S&T project manager, Area Ops Off, GS 15

4. STATION OR BASE: Paris

5. CRYPT FOR CURRENT COVER:

6A. DATE OF PCS ARRIVAL IN FIELD: 5 Sep 1967

6B. REQUESTED DATE OF DEPARTURE: Please see 11B

6C. EXPECTED DATE OF FIRST CHECK-IN AT HQ: Summer 1970

6D. DESIRED DATE TO REPORT TO DUTY AFTER LEAVE: o/a 1 October, 1970

7. NUMBER AND AGES OF DEPENDENTS WHO WILL TRAVEL WITH YOU:

2: (at that time) 42 and 17

8. PERSONAL CIRCUMSTANCES THAT SHOULD BE CONSIDERED IN DETERMINING NEXT ASSIGNMENT:

I would like very much to use my fluent French in my next assignment, as well as make use of my extensive exposure to science and technology -- both operations and and the larger world of the scientist and the engineer in today's evolving societies and economies. I would most especially hope to use my long experience in non-official cover activities and the managerial exposure accumulated thereby.

9. LIST YOUR MAJOR DUTIES DURING CURRENT TOUR *(see special note on transmittal form).* *(also attach personal cover questionnaire in accordance with CSI-F 240-8)*

- I planned, established and operated a long-range S&T spotting-assessment activity against sensitive targets, and a shorter range similar local activity during a period marked largely by an adverse political climate.
- I planned, developed and exploited, and modified a non-official cover in order to mask our operational activity, and integrated these into the broader ranging overall activities of a major field Station.
- I managed the non-official cover activity of viable professional/commercial cover organizations. The tasks included many business and production aspects as well as management of the firm's /unwitting/ personnel in the field and from the home office.
- I assisted other Stations and Bases, upon their request, in spotting-assessment activities, in local search and surveillance of targets, and in recruitment.
- As my original non-official cover became modified as a result of mergers, I was able to develop, alone, continuing cover to serve our needs of operational access as well as those of 'status' cover.

10. TRAINING DESIRED: INDICATE WHAT TRAINING YOU BELIEVE YOU SHOULD HAVE DURING THE NEXT SEVERAL YEARS

(a) the senior-most management course offered through the Organization;
(b) a review course of activities within the CS and the Organization as a whole;
(c) at least audit the S&T course, if that is still being offered.

If (a) is possible through a civil school away from Headquarters, I would have no objection to the displacement involved.

11. PREFERENCE FOR NEXT ASSIGNMENT:

11A. DESCRIBE BRIEFLY THE TYPE OF WORK YOU WOULD PREFER FOR NEXT ASSIGNMENT IF DIFFERENT FROM THAT INDICATED IN ITEM NO. 9 ABOVE. IF YOU HAVE MORE THAN ONE PREFERENCE, INDICATE YOUR CHOICE.

First choice: to manage a large-scale non-official cover project in a French-speaking technically advanced locale.
Second choice: chief of station or base (cover non-official or official) in an area where I can combine my experience and linguistic ability.
Third choice: to be assigned to Staff training, preferably training (a) senior unit or project managers, or (b) JCTs.
Fourth choice: to be assigned to Staff personnel work -- above the Division level -- where new personnel are screened, tested and evaluated, then assigned.
Fifth choice: to work on the Intelligence side of the house.

11B. INDICATE IF YOU DESIRE TO EXTEND YOUR CURRENT TOUR BY CHECKING IN APPROPRIATE BOX. ALSO INDICATE PREFERENCE FOR NEXT REGULAR ASSIGNMENT BY INSERTING 1, 2, & 3 (*for 1st, 2nd, and 3rd choice*) IN REMAINING BOXES. COMPLETE ALL ALTERNATE CHOICES AND OPTIONS IN ALL CASES EVEN THOUGH YOU ARE REQUESTING AN EXTENSION OF YOUR TOUR.

☐ EXTEND TOUR ______ MONTHS AT CURRENT STATION TO ______ (DATE)

3 BE ASSIGNED TO HQTRS FOR A TOUR OF DUTY: INDICATE YOUR CHOICE OF DIVISION, STAFF OR OFFICE. 1ST CHOICE Staff Training 2ND CHOICE Personnel 3RD CHOICE Intelligence

1 RETURN TO MY CURRENT STATION; with different responsibilities

TO BE COMPLETED BY FIELD STATION

12. IN CONSIDERATION OF THE EXPERIENCE AND PERFORMANCE OF THE EMPLOYEE AND HIS PREFERENCE FOR NEXT ASSIGNMENT. INDICATE YOUR RECOMMENDATION FOR HIS NEXT ASSIGNMENT AND TRAINING:

Station recommends that Subject return PCS to Headquarters at the end of his current tour. We would welcome a replacement who is capable of functioning in the same general cover context, but any such individual must also be able to spot and thoroughly access agent candidates. He should also handle a number of agents in the same field. We are, in short, seeking an officer who will aggressively exploit his cover.

13. IN CONSIDERATION OF THE EXPERIENCE AND PERFORMANCE OF THE EMPLOYEE, HIS PREFERENCE FOR NEXT ASSIGNMENT, AND THE STAFFING REQUIREMENTS OF YOUR COMPONENT, INDICATE YOUR COMPONENT'S RECOMMENDATION FOR HIS NEXT ASSIGNMENT AND TRAINING.

U–Unsatisfactory	Performance is unacceptable. A rating in this category requires immediate and positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.
M–Marginal	Performance is deficient in some aspects. The reasons for assigning this rating should be stated in Section C and remedial actions taken or recommended should be described.

S–Strong	Performance is characterized by exceptional proficiency.
O–Outstanding	Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

The comments of the rating officer are limited to the period from October 1969 to March 1970 during which he worked with Subject. The previous rating officer has added his comments to allow coverage of the total indicated period from April 1969 to March 1970. During this period Subject was integrated in a new team assigned to the local S&T and Commercial MHHARSH target. Subject's recent activity has been very productive indeed. Subject used the excellent potential given to him by his cover to skillfully spot and assess access agent candidates. As Subject's operational situation in Paris precludes making recruitment, the most promising of these candidates was placed in contact with a Station officer during social events Subject organized. At the same time, Subject continued his efforts to develop personal relationship with several MHHARSHers. The beginning of personal, as opposed to purely professional, relations with a major MHHARSH target enabled him to obtain insight into the target's beliefs and personality which was the best the Station had to date. Subject also managed to establish contact with two other MHHARSH representatives of interest. This, in one case, required almost six months to accomplish via a combination of patience, skill and determination. Subject is an experienced officer. He is cost conscious and practices good security. The Station has no other asset with the necessary scientific and editorial know-how, fluent French and local knowledge to replace Subject. In view of this and the recent progress made by Subject in response to very specific requirements and his willingness to try to establish personal and, hopefully, social relations with access prospects and MHHARSH targets, the Station recently recommended that he be extended in Paris. At the same time, the Station recommended that Subject's cover be reinforced by full-time employment with Subject's current WOLADY part-time employer.

3. COMMENTS OF REVIEWING OFFICIAL

As previous Station correspondence and fitness reports will reflect, this officer has been the subject of varying evaluations and projections in recent years. In fairness to him, however, it is equally true that an officer under non-official cover reflects, in the level and quality of his performance, the amount and type of guidance, direction and push he receives from the responsible inside case officer. Making allowances for these variables, this officer's past record has not been impressive; however, it is also correct to note that he has improved substantially during the latter part of the period under review, and that if the Station can work out some fiscal arrangement which will reduce the heavy financial input

from the Organization, his continued presence at this Station definitely appears to be warranted for a sufficient period to reach more definite conclusions concerning the level of sustained performance over a somewhat longer period than that reflected by this report.

On balance, we are pleased that this officer has responded so well to greater case officer direction and that he has undertaken somewhat more aggressive efforts to expand his range of contacts in immediate proximity to the primary Station targets. This officer does bring many talents to bear on his operational activity: he has absolutely fluent French, a solid and exploitable cover, and a vast range of contacts in the local community. Nonetheless, it will require additional time to explore these contacts in depth, select those which appear to be operationally viable, and pursue them actively either to the point of recruitment by another officer or elimination from further development, for whatever reason.

In sum, in spite of the recognized and commendable improvement in this officer's performance during the period under review, the reviewer submits that the letter grade for specific duties 2 and 4 would more properly have been a "P", and that the overall rating, at this point, would more accurately be set at a level between "P" and "S", probably closer to the former than the latter.

This reviewing comment has been read by the officers who prepared the Fitness Report.

During this reporting period subject had very markedly increased the tempo of his activities and contacts. Many agent prospects have been screened and contacts were established with people of interest to several elements of the Station. Subject is particularly thorough and outstanding on specific investigations where he utilized cover in a skillful and imaginative way. He has improved in terms of people development but in this respect he is still best with people in a professionally related context rather than a contrived social context. As mentioned in the previous report subject's cover assignment does not allow him to make recruitments. Subject has a high degree of cost consciousness and does not exercise any supervisory responsibilities.

I do not concur in this rating. I would have given the employee STRONG in the performance of his cover responsibilities, that is to say in the manner in which he has created and expanded his cover. I would have restricted myself to PROFICIENT, however, in assessing his exploitation of that cover for operational purposes. For a fuller treatment of this staff agent's performance, suggest that reference be made to the KCC Status Report, submitted 26 May 1969, via OFPA-99925.

Since the last reporting period subject's efforts were directed by the Station toward the spotting, developing and assessing WOLADY S&T agent candidates in terms of recruitment and inclusion in the Station's S&T spotting network.

Subject has done thorough and at times imaginative spade work in this field despite the fact that the mission was not as successful as anticipated. Recent progress however would indicate that the next reporting period would be more productive.

Subject continues to respond to ad-hoc specific assignments in an exemplary manner.

Because of the nature of his cover assignment Subject is not authorized to make recruitments.

Subject has a high degree of cost consciousness. He does not exercise any supervisory responsibilities under his cover assignment.

ADDENDUM, Form 45 (Fitness Report), for period March 67-March 68.

Section D

As the individual being rated, I would like to add some remarks to those prepared by the rating officer.

The assignment I have includes managerial responsibilities which (a) are essential to the continued existence and security of the cover mechanism as a vehicle for operational exploitation, and (b) are not necessarily visible to those "on the inside."

In the case of (a), I must engage in a constant orchestration of the cover and the facilities it offers. This means maintaining a managerial equilibrium to insure that cover work will not become, of itself, so demanding that it negates the cover's utility to the CS. In effect, the top officers and middle managers of the cover corporation [who are not cleared and witting] have to be satisfied that their demands are met (or cannot be), or else manipulated in order to neutralize or reject their demands. After all, the cover position is to them a legitimate, normal, workaday post in their firm. What work is done at their bidding, it follows, must be accomplished according to the high standards of thoroughness and accuracy which they have set.

In the case of (b) -- which derives from (a) -- and can prove to be so demanding that the needs of the CS could no longer be served, the incumbent is required to manage a span of human contacts at several levels in order to preserve his cover position and enhance its value to the CS. This means planning, directing and managing the work of multinational, multicultural teams of technical correspondents, as well as meetings and negotiations to improve the [cover firm's] relations with similarly widespread individuals at the levels of editor-in-chief, publisher, corporate vice-president, president, and chairman of the board. These levels are scattered not only through industry, but have their analogs as well in government, higher education, and professional societies.

Having previously managed both a CS base and the principal denied-areas operating component of a major field Station, I can report quite honestly that my present managerial responsibilities exceed the former -- despite the apparent lack of "supervisory responsibilities" in my present position.

3. It is difficult to place in the proper perspective the contribution of this senior staff agent to Paris Station operations. On the one hand, Subject has established superb cover in the scientific and technical field which should have afforded him virtually unlimited access to persons of interest to us, both Soviet and potential access agents. In evaluating the manner in which the employee set up and managed this cover, I would tend to agree with his comments to the fitness report on the managerial demands on him although these comments are somewhat overdrawn.

The principal difficulty has been the time it has taken to relate the cover potential to the specific operational requirements of the Station. We have not received from CASASIN as many leads and assessment reports to persons of operational interest in the S&T field as we think he could have produced. It may be that the earlier listing of the project (viewed as a regional undertaking) contributed to this.

Recently we have noted significant improvement in that we have received responses to requests we have made for assessment and development of potential access agents within a cover context. We hope, therefore, that this last year of CASASIN's stay will be the most productive ever. It is unfortunate that the cover must end because of the cover company's decisions over which we had no control.

/s/ David E. Murphy

Subject continues to maintain a secure effective cover mechanism. In this reporting period the whole thrust and objectives of this cover facility have been changed from pursuit of targets designated by Headquarters at international conferences to pursuit of the local Soviet presence. This has caused a major readjustment and Subject is now beginning to produce the type of leads that help the Station achieve its local operational objectives.

Subject continues to show a well organised methodical approach to his cover and operational tasks.

Subject is cost conscience.

COMMENTS OF REVIEWING OFFICIAL

I rarely see the written product of this employee's efforts and know little of his work except as I am informed of it by his supervisor in the Station. I have the impression, however, that the employee is responding to his supervisor's guidance and is not by any means simply drifting along paths indicated by his cover work, which can be a temptation when an employee has, as is true in this case, rather limited contact with his colleagues who work under official cover on the same target. I thus concur in the evaluation on the basis of limited knowledge.

Subject has done an outstanding job in creating a [illegible] mechanism which enables direct access to an important target group. This job was performed [illegible]fully, securely, intelligently and imaginatively. Subject is an experienced, highly capable senior professional officer in every sense of the term. He is a thoroughly organized self-disciplined person who can operate effectively outside a normal Station complex. He has the supple mind required to learn highly technical cover tasks and perform these in a skilled manner. He organizes the performance of these cover duties in such a manner as to extract the most operational mileage. Subject has spotted, assessed, developed, and in special cases recruited. He is extremely articulate, and an excellent writer. Despite his deep cover status, he submits timely finished operational and information reports. His management, administration, and record keeping of both his cover and operational duties is excellent.

Although Subject has had long experience in supervisory capacities, his present singleton cover status does not require supervisory duties.

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

During the reporting period this employee as a staff agent has continued the solidification of his cover and the expansion of his operational activity within his cover to a point where he represents as deeply buried a staff officer as can be found in anyone with his past organizational background. From the point of view of the host country authorities he appears to be completely legitimate. From the more important point of view of his targets, he also apparently has been accepted, and not through a lack of opportunity for scrutiny, for what he claims to be. He thus represents for KUBARK an asset who has not only solid status and access cover, but also the demonstrated capability for exploiting his cover for specific and aggressive operational undertakings.

As has been stated in past fitness reports, his present capability directly and openly to approach operational targets through the vehicle of his cover is the result of his own efforts, in which he has devoted a tremendous amount of work not only to establish and enhance the foundations of the cover, which requires a considerable amount of work for the cover company, but to devise and exploit ways and means by which the cover activity may be applied directly to operational tasks and programs. In addition to operational activity in his country of assignment, he has also been used in Hqs-directed activity in other countries, usually involving direct contact with target individuals, and in addition he has contributed greatly to the acquisition of operational information for the use of Hqs components in their overall approach to Soviet scientific and technical targets.

It would be difficult to fault this employee with respect to energy, professional skills, and mental capacity. He is a keen student of his operational environment and very skillful in analyzing the possibilities it offers for application toward operational objectives. He shows considerable resourcefulness in devising logical and credible (continued)

COMMENTS OF REVIEWING OFFICIAL

Since the Reviewing Officer in the field has not indicated his views on this Fitness Report, I would like to make a comment of my own. Without wishing to detract from anything the Supervisor has said about Subject's performance, I feel obliged to note that the ratings given him in this report are higher than those given, for example, to any Branch Chief in this Division, and, as such, are inconsistent with the grading pattern of the Division as a whole.

approaches to operational problems and personalities, and expends considerable effort in maintaining a level of specialized knowledge sufficient to backstop his cover and to ensure the maximum exploitation of his contacts with target organizations and individuals. His command of spoken, written, and technical French is excellent.

From the point of view of supervision, this employee in his present position requires guidance only insofar as to identify specific targets and for him to protect himself in situations where he does not have, by virtue of his not having access to official files, specialized information. Otherwise, he requires no supervision other than the periodic provision of policy and operational directives.

This employee has always been conscious and punctillious in his preparation of operational and administrative reports, including financial accountings, and his reporting in general, despite the burdens imposed by the necessity for minimizing the risks inherent in the lack of access to classified storage, leaves nothing to be desired.

Other than the funds for operational activities, this employee currently has no responsibility for the programming and use of personnel, space, equipment, and funds.

With respect to dedication to his job, this employee has practically speaking single-handedly built his present cover/operational position despite a number of negative factors inherent to his situation such as relative isolation, meager opportunity for contact with his professional group, and expensive area of assignment, and an exposed cover situation where the necessity for living cover is compounded by the necessity of avoiding mistakes which might jeopardize cover. His dedication to and enthusiasm for accepting the challenge ofthis assignment, and his willingness to continue on in it, deserve particular mention, particularly since he would perhaps justifiably feel that his present assignment may leave him outside the mainstream of competitive organization progression.

This employee's health and family situations leave nothing to be desired, as his proven mobility in the execution of operational assignments attests.

It should further be noted that with respect to the problem endemic to deep-cover assignments of allocation of time between cover work and operational activity, this employee comes very close to the happy norm of making cover work complement operational work, and making operational work contribute where possible to the enhancement of cover.

While this employee's assignment to date has essentially been a one-man show, it is recommended that serious consideration be given to expanding the operational complex which he has created in order to capitalize on his experience, the work he has put in to date, and his own management capabilities.

This employee combines the relatively rare combination of a senior and broadly experienced intelligence officer under working cover providing both long-term status in his country of residence (and in Europe in general) and access for a variety of operational functions, including spotting, assessing, contact with Soviet bloc nationals of specific interest, investigative measures, assessment in depth of ostensibly cover-company hired persons, and attendance at a broad range of national and international specialized meetings. Development of the capability operationally to exploit his cover has been the achievement of the employee himself. In so doing he has at the same time achieved genuine acceptance by his cover company associates (most of whom are unwitting) and his colleagues in his cover profession and related professions.

JUN 25 11 28 AM '64

In undertaking operational tasks this employee has consistently shown initiative imagination, security consciousness, and application of both operational and substantive background to the problem at hand. He has put a conscious effort into improving his already excellent command of the French language, and his grasp of a variety of specialized scientific and technical fields has been achieved basically as a result of his own efforts.

His management of operational reporting, finances, and the administrative problems connected with his cover status has been exemplary.

It should be noted that during the reporting period, this employee has not had the benefit at all times of specific pinpointed operational direction. As of the end of the reporting period, Headquarters assumed control of his activities against specific Soviet targets on a Europe-wide basis.

SECTION C

NARRATIVE COMMENTS

The assignment of this employee to the field under non-official cover was designed to compensate for the loss of an employee in an official cover slot which was cut from the Station's ODACID allotment of personnel positions.

During the reporting period this employee has accomplished with success the convincing establishment of his cover in a complex milieu, and has been accepted as legitimate by his professional colleagues, the persons whom he meets under cover, and the French authorities. It should be noted that his ability to assume his cover has been largely the result of his own efforts over a period of years to acquire and maintain a familiarity with the general scientific field.

During the reporting period he has developed a wide circle of contacts in the scientific and journalistic fields and applies a long background in a variety of assignments in KUDOVE to the determination and assessment of operational potential among these contacts. At the same time his cover organization, in which only four persons are witting of his actual status, has shown itself to be more than satisfied with his performance of his cover duties.

This employee requires a minimum of detailed operational supervision; it is necessary in specific cases only to indicate the operational or informational objectives.

From the point of view of administrative support, his attention to detail and meticulousness reduce the problems of his support by the Station to a minimum.

This employee uses the French language continuously, and his facility is such as to permit him to handle himself excellently in a broad range of complex technical subjects. He has in addition undertaken specialized French language training to develop this capability further. His operational reporting is excellent both with regard to clarity and pertinence.

In the immediate future he will be assigned case work, for the most part in fields where it will complement, and be complemented by, his independent operational activities and cover work.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

In most respects, this officer is one of the best I have known in this agency. He has a broad and deep knowledge of his target area, as well as of his "host" country; an excellent and proven degree of operational "know-how"; the ability to write and speak lucidly and effectively and with apparent ease; and a very high degree of motivation and devotion to duty. He can be expected to continue his dynamic and imaginative pursuit of a most difficult target. It is my opinion that this officer has great potential and is ready for increased responsibilities which would involve the promotion for which he has been recommended. As for training, a good managerial course might help to bring into even sharper focus his many talents.

This report has been prepared in accordance with F E Division standards which recognize the principle of rating the individual against the group. Thus an 'average' rating reflects an entirely satisfactory performance.

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job.

Subject is an exceedingly well-equipped operations officer. He is mature, intelligent, has a thorough background in operations in his area and the ability to grow in his job. His operational planning and execution is usually impeccable. He has the loyalty of his subordinates and the respect of his equals and supervisors. He is particularly effective in dealing in the liaison field where his good sense and disinterest in "fighting the problem" produces a maximum of cooperation and good will. If he has any minor fault as a supervisor, it is not in impatience with his subordinates, as reflected in previous evaluations, but in an occasional unwillingness to say no to them.

3. NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job.

Subject has excellent natural equipment for employment in this organization in terms of his intelligence and natural apptitudes. Additionally, he brings a great deal of area knowledge and language ability to his present assignment. During the period covered by this report he has displayed great industry and devotion to duty in a variety of circumstances and achieved notable results in production and in the creation of both short and long-term assets for his unit. On the debit side I would say that he is somewhat too businesslike in many personal situations to the point of being almost humourless. This, however, is a quality which he does not permit to intrude upon the necessities of his operational work although it often shows in office relationships.

SECTION D. SUITABILITY FOR CURRENT JOB IN ORGANIZATION

DIRECTIONS: Take into account here everything you know about the individual....*productivity, conduct in the job, pertinent personal characteristics or habits, special defects or talents*....and how he fits in with your team. Compare him with others doing similar work of about the same level.

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply to some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale of each major category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

12. IN WHAT RESPECT IS THIS PERSON'S PERFORMANCE ON PRESENT JOB MOST NOTICEABLY GOOD OR OUTSTANDING?

This officer has been outstanding as a staff officer. He is unusually talented in his balancing of jurisdictional equities. This ability reflects a broad competence, however, and should not be construed so as to limit his future duties.

13. ON WHAT ASPECT OF PERFORMANCE SHOULD THIS PERSON CONCENTRATE EFFORT FOR SELF IMPROVEMENT?

This officer's devotion to his duties and professional convictions sometimes inclines him toward inflexible declarations of position. This fault, a minor one in officers of considerable potential, will be corrected by increased responsibility and experience.

14. COMMENT ON THIS PERSON'S ABILITY TO HANDLE GREATER RESPONSIBILITIES NOW OR IN THE FUTURE.

This officer is prepared for promotion and for increased responsibilities in command or staff duties.

15. ARE THERE OTHER DUTIES WHICH BETTER SUIT THIS PERSON'S QUALIFICATIONS? (Recommend appropriate reassignment, if possible.)

Richardson is presently well placed. See below.

16. WHAT TRAINING OR ROTATION DO YOU RECOMMEND FOR THIS PERSON?

Tradecraft training and a field assignment. Both are planned in the next six months.

9. IN WHAT TYPE OF WORK ARE YOU PRIMARILY INTERESTED? I am principally interested in the building and successful operation of American intelligence abroad, both in theory and in practice.

IF DIFFERENT FROM YOUR PRESENT JOB, EXPLAIN YOUR QUALIFICATIONS (APTITUDE, KNOWLEDGE, SKILLS). The only remark I can make here is the one I stated in the previous report: the administrative responsibilities of a branch chief do not enable him to be a purely operational individual. If it were possible to carry less of an administrative load, I would enjoy devoting all of my time to the refinement of the intelligence process and its techniques in my area of concern.

11. BRIEFLY DESCRIBE THIS PERSON'S PERFORMANCE ON THE MAJOR DUTIES LISTED UNDER ITEM 7 ABOVE.

During this period Mr. Richardson was promoted from Deputy Branch Chief to Branch Chief, in recognition of his extremely good performance. Not enough time has elapsed to be able to evaluate him fully on all aspects of his new position. However, his handling of the Branch has been unusually good from a management point of view and there is every reason to believe that in the planning and direction of operational activities the same high standard will prevail.

7. LIST YOUR MAJOR DUTIES IN APPROXIMATE ORDER OF IMPORTANCE, WITH A BRIEF DESCRIPTION OF EACH. OMIT MINOR DUTIES.
Assist the Branch Chief in management of the Branch and its overseas stations (3); at present, I act as Branch Chief about 25%-30% of the year. Supervise the planning and preparation for approval of all basic plans, programs, and projects. This involves thorough discussion with each of seven (7) desk chiefs of the purposes and procedures for accomplishing any single mission under any given project, including target analysis (whether FI or PP), preparation of intelligence annexes, logistic and fiscal requirements, specific personnel needs, etc. Am responsible for working directly with the Division's Intelligence Branch for control of requirements, ops intelligence, and reports. Am responsible for maintaining liaison with appropriate staffs and other Divisions who must coordinate any action or document. Assist or direct, as required, specific mission planning at overseas stations on TDY. Supervise preparation of all periodic reports; interview candidate empl's.

I am primarily interested in the conception, planning, and operational management of FI and PP activities, and ops policy and control.
IF DIFFERENT FROM YOUR PRESENT JOB, EXPLAIN YOUR QUALIFICATIONS (APTITUDE, KNOWLEDGE, SKILLS).
This differs from my present assignment essentially in that a Branch Chief or his Deputy becomes so involved in administrative detail that he cannot always give his undivided attention to project management and agent handling problems. Otherwise, I feel that my background and experience qualify me for the functions I aspire to perform.

11. BRIEFLY DESCRIBE THIS PERSON'S PERFORMANCE ON THE MAJOR DUTIES LISTED UNDER ITEM 7 ABOVE. As Deputy Branch Chief, Mr. Richardson has performed his duties, taken as a whole, in a superior manner. His timely and efficient preparation of intelligence annexes, logistic and fiscal requirements and reports has been particularly outstanding. During three to four months of the past year, Mr. Richardson has acted as Branch Chief. The review of Branch operations under Mr. Richardson's direction, during the writer's absence, indicated his complete competence in supervising Branch activities. His supervision of the planning and preparation for approval of basic plans and projects of the seven (7) desk chiefs has been superior. Mr. Richardson also participated in the planning and dispatch of a difficult operational mission, acting in the capacity of Senior Case Officer. On this mission his liaison with representatives of one of the Military Services was conducted in a manner which enhanced cooperation between that Service and this Agency.

12. IN WHAT RESPECT IS THIS PERSON'S PERFORMANCE ON PRESENT JOB MOST NOTICEABLY GOOD OR OUTSTANDING?

Mr. Richardson's performance was noticeably outstanding with respect to his thorough knowledge of every activity of the Branch. He was in position to assume direction of Branch activities at any time. He also kept himself thoroughly briefed on Division policies and planning in order to give timely instruction and guidance to the Branch overseas stations.

13. ON WHAT ASPECT OF PERFORMANCE SHOULD THIS PERSON CONCENTRATE EFFORT FOR SELF IMPROVEMENT?

Mr. Richardson has a very thorough background in two (2) languages, French and Japanese. He would benefit substantially by learning the Russian language. He is meticulous with respect to his attention to details, sometimes to the point of concealing the broader picture from his view. It would be well for Mr. Richardson to direct his attention to the broad scope of Branch activities rather than to concentrate on its details.

14. COMMENT ON THIS PERSON'S ABILITY TO HANDLE GREATER RESPONSIBILITIES NOW OR IN THE FUTURE.

Mr. Richardson is fully qualified to assume the duties of the chief SR Division representative at a field station. In order to assume this responsibility in the most efficient manner, it is recommended that Mr. Richardson serve a minimum period of time of approximately six (6) months as the assistant to the present chief of the field station.

15. ARE THERE OTHER DUTIES WHICH BETTER SUIT THIS PERSON'S QUALIFICATIONS? (Recommend appropriate reassignment, if possible.)

Mr. Richardson could serve effectively in a staff function for either FI or PP activities. This does not mean, however, that his present duties are not better suited to his qualifications.

16. WHAT TRAINING OR ROTATION DO YOU RECOMMEND FOR THIS PERSON?

Mr. Richardson has already been recommended for overseas assignment in the Far East during the past year. He has area knowledge and command of the Japanese language, having served in Japan previously with the United States Army. His duties at Headquarters have been so pressing that his departure for overseas assignment is being delayed until an adequate replacement may be trained.

9. LIST YOUR MAJOR DUTIES DURING CURRENT TOUR (see special note on transmittal form).
(also attach personal cover questionnaire in accordance with CSI-F 240-8)

- I planned, established and operated a long-range S&T spotting-assessment activity against sensitive targets, and a shorter-range similar local activity in an adverse political climate.
- I planned, developed and exploited an adapted non-official cover to mask the operational activity, integrated into the further-ranging overall activities of a major Station.
- I managed the non-official cover activity as a viable professional/commercial activity, including many business and production aspects, as well as the local handling of the firm's [unwitting] personnel.
- I assisted other Stations and Bases, at their request, in spotting-assessment activities, in local search and surveillance activities, and in recruitment.
- As part of my original non-official cover withered because of a corporate merger, I developed independently continuing cover to serve operational access needs as well as those of status cover.

10. TRAINING DESIRED:
INDICATE WHAT TRAINING YOU BELIEVE YOU SHOULD HAVE DURING THE NEXT SEVERAL YEARS

I would like to take (a) the seniormost management course offered by or through the Organization as well as (b) a review course of activities within the CS and the Organization as a whole. In addition, I would also like to (c) audit, at least, the S&T course, if that is still being offered.

If (a) is possible through a civil school away from Headquarters, I would have no objection to the displacement involved.

MEMORANDUM FOR: Secretary, CS/CSB

SUBJECT : Recommendation for Promotion to Grade GS-15 - Jacques G. RICHARDSON

REFERENCE : Your memorandum dated 8 October 1958

1. The SR Division and the Chief of Station, Tokyo (FJTT-1950, attached) recommend the promotion of Jacques G. Richardson to GS-15.

2. Mr. Richardson was last promoted 16 January 1955. On 17 February 1955 he arrived in Tokyo to serve as the senior SR officer in the FE field area, his present assignment. In this position he has continued to display qualities of leadership, initiative, imagination and thoroughness which resulted in his rapid rise in the Agency.

3. The very facts of Mr. Richardson's youth in relation to his responsibilities and the fact that promotion to his present level has been rapid, caused the Division and the Chief of Station, Tokyo to hold until this time a recommendation for his promotion which was submitted in June 1957. Most careful consideration has convinced us that not only is Mr. Richardson deserving of the recommended promotion, but his elevation to the higher grade will be in the best interest of the Career Service and meet definite Division requirements for a senior officer at the GS-15 level.

1. In line with paragraph 2 of Reference, after a period of six months we submitted an additional promotion fitness report on [redacted] under cover of FJTT-0601 dated 28 May 1958. Inasmuch as [redacted] was then at Headquarters on TDY, we requested that he review this fitness report and assured that in doing so he would also discuss with [redacted] [redacted]s promotion, which both he and [redacted] felt was to be strongly recommended.

2. [redacted] was, however, not shown this fitness report at Headquarters, nor did he have the opportunity to discuss [redacted]'s promotion with [redacted]. In reviewing our records we are now concerned at the possibility of some administrative slip-up and would appreciate a word of advice as to how this promotion action is proceeding. We would like to reiterate that we now have not the slightest hesitation in recommending [redacted] for promotion and find that the fitness report submitted with FJTT-0601 still reflects our current high appreciation of his abilities and progress.

FJTA-19609

MEMORANDUM No. 360 18 June 1957

TO : Chief of Station

FROM : Chief, Soviet Branch

SUBJECT: [redacted] - Recommendation for Promotion
Jacques RICHARDSON

1. [redacted] has been under my supervision as Deputy and Case Officer for approximately fifteen months. Based on the knowledge of [redacted] as an individual gained during this period and upon his actual performance, I recommend that he be entered for consideration on the SR Division GS-14 to GS-15 promotion list at this time - June 1957. The slot and job which he now occupies, Chief, Soviet Branch, is, of course, adequate to accommodate such a promotion.

2. [redacted] operational performance has been outstanding and notably versatile during this period. He has engaged primarily in liaison and has been personally effective in terms of results achieved almost daily, in terms of reports, operational data, and joint enterprise; while, overall, he has established enduring professional relationships from which the organization as a whole should benefit for some time to come. In addition, owing in large part to unique personal talents, linguistic and otherwise, [redacted] has handled a number of unilateral cases most effectively. In the office, too, as well as in face-to-face operational situations, [redacted] has been outstanding. He has a flair for and a facility with the written word as evidenced by the amount of general and particular correspondence which he has initiated, and he knows the organizational "drill" intimately and from way back. Thus, I feel that he is qualified for the recommended promotion by ability and experience in both the internal and external aspects of the profession.

3. Relative to the more personal characteristics involved in the term managerial ability, judgments are necessarily more subjective but here, too, I consider [redacted] to be qualified in maturity, in judgment, and in experience. He would most certainly be a supervisor who could perform all the chores or handle all the situations which he would be calling upon subordinates to take care of, in itself, the beginning of any good supervisory relationship. MEMORANDUM FOR: Secretary, CS/CSB

SUBJECT : Recommendation for Promotion to Grade GS-15 - Jacques G. RICHARDSON

REFERENCE : Your memorandum dated 8 October 1958

1. The SR Division and the Chief of Station, Tokyo ([illegible], attached) recommend the promotion of Jacques G. Richardson to GS-15.

2. Mr. Richardson was last promoted 16 January 1955. On 19 February 1955 he arrived in Tokyo to serve as the senior SR officer in the FE field area, his present assignment. In this position he has continued to display qualities of leadership, initiative, imagination and thoroughness which resulted in his rapid rise in the Agency.

3. The very facts of Mr. Richardson's youth in relation to his responsibilities and the fact that promotion to his present level has been rapid, caused the Division and the Chief of Station, Tokyo to hold until this time a recommendation for his promotion which was submitted in June 1957. Most careful consideration has convinced us that not only is Mr. Richardson deserving of the recommended promotion, but his elevation to the higher grade will be in the best interest of the Career Service and meet definite Division requirements for a senior officer at the GS-15 level.

TO: Chief, SR

FROM: Chief of Station, Tokyo

SUBJECT: Promotion of Jacques G. RICHARDSON

REFERENCE: FJTW-11531 (RYBAT) dated 11 Oct 1957

1. In line with paragraph 2 of Reference, after a period of six months we submitted an additional promotion fitness report on RICHARDSON under cover of FJTT-0801 dated 28 May 1958. Inasmuch as Baker was then at Headquarters on TDY, we requested that he review this fitness report and assumed that in doing so he would also discuss with Maury RICHARDSON's promotion, which both he and Nelson felt was to be strongly recommended.

2. Baker was, however, not shown this fitness report at Headquarters, nor did he have the opportunity to discuss RICHARDSON's promotion with Maury. In reviewing our records we are now concerned at the possibility of some administrative slip-up and would appreciate a word of advice as to how this promotion action is proceeding. We would like to reiterate that we now have not the slightest hesitation in recommending RICHARDSON for promotion and find that the fitness report submitted with FJTT-0801 still reflects our current high appreciation of his abilities and progress.

MEMORANDUM No. 360 18 June 1957

TO: Chief of Station

FROM: Chief, Soviet Branch

SUBJECT: Jacques RICHARDSON - Recommendation for Promotion

1. Jacques Richardson has been under my supervision as Deputy and Case Officer for approximately fifteen months. Based on the knowledge of Richardson as an individual gained during this period and upon his actual performance, I recommend that he be entered for consideration on the SR Division GS-14 to GS-15 promotion list at this time - June 1957. The slot and job which he now occupies, Chief, Soviet Branch, is, of course, adequate to accommodate such a promotion.

2. Richardson's operational performance has been outstanding and notably versatile during this period. He has engaged primarily in liaison and has been personally effective in terms of results achieved almost daily, in terms of reports, operational data, and joint enterprise; while, overall, he has established enduring professional relationships from which the organisation as a whole should benefit for some time to come. In addition, owing in large part to unique personal talents, linguistic and otherwise, Richardson has handled a number of unilateral cases most effectively. In the office, too, as well as in face-to-face operational situations, Richardson has been outstanding. He has a flair for and a facility with the written word as evidenced by the amount of general and particular correspondence which he has initiated, and he knows the organizational "drill" intimately and from way back. Thus, I feel that he is qualified for the recommended promotion by ability and experience in both the internal and external aspects of the profession.

3. Relative to the more personal characteristics involved in the term managerial ability, judgments are necessarily more subjective but here, too, I consider Richardson to be qualified in maturity, in judgment, and in experience. He would most certainly be a supervisor who could perform all the chores or handle all the situations which he would be calling upon subordinates to take care of, in itself, the beginning of any good supervisory relationship. In actual fact, he has had considerable experience in this regard already and the principal shortcoming I have noticed is a tendency to "carry" others by an extension of his own industry. Richardson is not without his difficulties in the area of personal relationships. He is a purist at times and manifestly impatient in certain human situations where a shrug of the shoulders would be the best reply. These characteristics do not always make for the best personal relationships but are frequently obviated by intellect and above all are correctable and are being corrected.

5. In sum, Richardson's qualifications, broad experience and proven abilities dominate his age, the only factor militating against a promotion at this time. It is therefore my sincere recommendation that a promotion recommendation be forwarded to Headquarters for consideration in the current mid-year lists.

SUBJECT : Nominations for Promotion to GS-15

REFERENCE : Memorandum dated 14 May 1958 from
Secretary, CS Career Service Board

1. After reviewing GS-14 employees assigned to the SR Division, I wish to again recommend the promotion of Jacques Richardson, Chief, Soviet Branch, Tokyo to GS-15. I concur also in the attached recommendation for the promotion of Paul Haines prepared by the Chief of Base, Berlin.

2. The Chief of Station, Tokyo and I recommended Mr. Richardson's promotion in December 1958. This earlier recommendation presented the personal qualities of Mr. Richardson. I wish simply to point out at this time that since early 1954, Mr. Richardson has more than fully discharged responsibilities at the GS-15 level. I believe that it is definitely time to elevate him to the level at which he has been performing more than satisfactorily for over 5½ years.

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. The physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. The physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members-of-family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

MEMORANDUM FOR: Mr. Balmes N. Hidalgo, Jr.

SUBJECT : Exceptional Service Emblem

1. Your request for consideration to receive the Exceptional Service Emblem has been reviewed by this office to determine your eligibility for the award. With considerable regret, I must concur in the assessment that the injuries you suffered in the line of duty do not fall under the special criteria governing award of the Exceptional Service Emblem. Hazardous duties, in the meaning of the governing regulation, relate to duties performed in areas in which internal strife, civil disturbances or hostile action by armed forces or persons unfriendly to the United States were present at the time the injury was incurred, or, relate to duties performed in an assignment defined as hazardous due to unusual geographic or other natural conditions.

2. You may be sure that this decision has been based upon thoughtful deliberation. Please accept my personal thanks for a job well done under difficult conditions.

SECTION B PERFORMANCE EVALUATION

W - Weak	Performance ranges from wholly inadequate to slightly less than satisfactory. A rating in this category requires positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.
A - Adequate	Performance meets all requirements. It is entirely satisfactory and is characterized neither by deficiency nor excellence.
P - Proficient	Performance is more than satisfactory. Desired results are being produced in a proficient manner.
S - Strong	Performance is characterized by exceptional proficiency.
O - Outstanding	Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

	RATING LETTER
SPECIFIC DUTY NO. 1 Panama Desk Case Officer for Panama City Station FI operations. Prepares cables and dispatches to Panama City and other Stations and internal Headquarters correspondence.	P

SECTION C	NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

Mr. Hidalgo is a man of unusual background even in our unusual organization. This background undoubtedly affords him qualifications for our work, but nevertheless, on the professional level he suffers from disadvantages as well--overcoming some but not others. He is not well-educated in a formal sense, and in our world of words is not adequately equipped to prepare finished written correspondence. He has difficulty in organizing his work systematically, thus at times, giving an impression that the preparation has not been thorough--which might not really have been true.

On the other hand, Mr. Hidalgo has the advantage of native fluency in Spanish and an obvious understanding of the Latin thinking process and culture. He is broadly experienced in operations, not only as a case officer but as an actual agent himself, having served four years as a Bureau penetration of the CPUSA. He is operationally imaginative and unquestionably possesses the ingenuity and courage to translate ideas into action. In this respect, however, his efforts must be channeled and selectivity exercised. On the Panama Desk this officer provides the valuable service of operational history and continuity; he served six years in the Station and has been on the desk for three.

COMMENTS OF REVIEWING OFFICIAL

Mr. Hidalgo is an experienced and well qualified operations officer, and it is indeed unfortunate that there are medical problems which do not allow him to be assigned overseas. Since Mr. Hidalgo cannot be assigned overseas, I too endorse his desire to be assigned to OTR or to another assignment of his choice.

SECTION C Continued

Hidalgo, Balmes N.

Mr. Hidalgo is a gregarious uncomplicated person, generally pleasant, and generous in his instincts--but not entirely without his quixotic side--and one whose natural Latin emotionality has been intensified by a life of experiences outside the norm, e.g. years as a CP penetration, air crashes, war wounds, etc.

This officer is aware that his intellectual background and medical debilities are obstructions to his advance. Understandably, he has developed outside interests, apparently as compensation. Expectedly, his attitudes at times so reflect.

In sum, Mr. Hidalgo serves a satisfactory function on the Panama Desk and no doubt could continue to perform so indefinitely, but in view of his limitations in a desk-bound situation and the medical restrictions, both of which will continue to inhibit his advance in his present component, this supervisor endorses Mr. Hidalgo's desire to be considered for transfer to another component, namely OTR (specifically covert training), where his attributes would likely come more directly into play. He has the operational experience, competency in a foreign language, an outgoing personality, and experience in lecturing and teaching.* Finally, regardless of the shortcomings reflected in this evaluation, the grading officer finds much to admire in Mr. Hidalgo personally.

*Should a suitable opening in that field be unavailable, it is felt there would be merit also in considering Mr. Hidalgo's other stated interests, i.e., the technical interrogation section of the Office of Security or OO Contacts Division.

Comment by Mr. Tsikerdanos, previous supervisor: 1 51 Fil '67

Mr. Hidalgo is a very capable case officer who is more suited to a field position. He is adept at handling indigenous personnel and has a keen operational mind. He is good at grasping operational leads but is not a capable writer. He has trouble expressing himself on paper. His Spanish language capability is a decided asset to the Branch. A longstanding illness has limited his effectiveness at the Desk. He is cost conscious and has no supervisory responsibilities.

Comments by Present Supervisor:

I concur in the above estimate of Mr. Hidalgo's operational capabilities. During the months (Oct 1966 - March 1967) I have worked with Mr. Hidalgo I have not found his health to be a factor in his performance of his duties.

COMMENTS OF REVIEWING OFFICIAL

Mr. Hidalgo's health caused him to be absent from his duties several times during the first part of 1966 but these absences were for a limited period. From my observation, his health has not presented a serious problem to the performance of his duties.

Several times during the absence of Mr. Tsikerdanos in the year 1966 Mr. Hidalgo was the acting desk officer. His performance was most satisfactory, and his supervision of the other desk employees, albeit for a limited period, was fully satisfactory.

Mr. Hidalgo is an able intelligence officer, devoted to his profession and selfless in his desire to be of service to the Government. Although he has suffered ill health in recent years, he was insistent that he be among the first to be sent to the Dominican Republic when the crisis occurred.

An intense person, Mr. Hidalgo is industrious, works well under pressure and sets high standards for his performance. Because he is intent on getting things done, he is occasionally hasty in judgment and in written presentation of the results of his research and conclusions. He is perceptive, quickly accepts suggestions and offers counter-proposals with cogent argument. Mr. Hidalgo was not in a supervisory capacity. He was cost conscious; always endeavoring to be conservative where possible.

He is an effective and cooperative member of an office, ready to assume responsibility and to help his colleagues. Thanks to his unique experience on the Cuban target, he has wide knowledge of the Cuban problem and is, in fact, an expert on the Cuban Security and Intelligence Services.

I concur with the supervisor's assessment of Mr. Hidalgo with [illegible] exception to the statement that Subject works well under pressure. He is indeed an intense person and, under great pressure, his involvement affects his performance; and even more important, it has a very bad effect on his health. With this consideration noted, the undersigned thinks very highly of Mr. Hidalgo and would be pleased to be associated with him again.

Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Hidalgo joined WH/PO/A in November 1961 and took up those responsibilities listed above. However, Mr. Hidalgo's performance of duties was interrupted on two occasions by serious illness, 9-27 March and 15 April-31 May 1962. He was twice hospitalized. From 25 June-9 August 1962, Mr. Hidalgo was on TDY for WH/3 as escort officer for Latin American trainees. Although beset by health and other personal problems, Mr. Hidalgo seized upon each new assignment with his customary energy. He proved particularly adept in working as interpreter and escort officer for Latin American trainees, and demonstrated high interest and proven competence in counterintelligence work. His excellent memory and quick perception were distinct assets in these undertakings.

It is recommended, however, that Mr. Hidalgo's next assignment not carry responsibility for submission of finished papers or staff studies, but be one entailing duties commensurate with his ability to work effectively with indigenous personnel and to pursue CI leads through records investigation.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Mr. Hidalgo has done a fine job during the reporting period, while assigned to the CI Section of the Branch when it was in its most active period of buildup and operations. The manner in which he accepted any assignment is unusual and he was often working under pressure. During the period, he was on several temporary duty trips in connection with operational activities, which he completed very well.

He has a talent for getting along with and understanding Latin Americans, and with his fluent Spanish language capability, he has performed in a commendable manner. While Mr. Hidalgo has never shunned responsibility, his assignment did not entail the delegation of extensive responsibility. It is the feeling of the Rating Officer that he should be given the opportunity for greater responsibility, and training, which will qualify him for a supervisory role. After that, he should be qualified in all respects for promotion to GS-12.

Mr. Balmes N. Hidalgo, Jr.
403 Silver Rock Road
Rockville, Maryland 20851

Dear Mr. Hidalgo:

It is the practice of the Organization to follow up with former employees six months after their retirement. We hope by such inquiry to obtain information on what our retirees are doing and where they are located, invite suggestions for improving the retirement program and to learn if the Organization might be of some assistance on any post-retirement matters.

We should like very much to hear from you on the above points and on any other topics you think would be useful to us.

For your convenience in replying, we have enclosed a sheet somewhat akin to a form on which we have listed those standard items of information we'd like to have on every retiree. The remainder of the sheet, including the reverse side, is for your comments and suggestions. We shall be most appreciative of your fullest response to this inquiry.

Thank you very much for your cooperation.

Sincerely yours,

Carroll A. Duchay
Personnel Officer
